MARCH 18, 2019 HALL AFFIDAVIT

I, Roger Hall (“Hall”), declare and say as follows:

1. Several years ago I reviewed documents that I had received from the Central Intelligence Agency (“CIA”) pertaining to three American POWs that had recently died in Laos. Their names were redacted from the documents. It was stated in these documents that one of these POWs had been married to a village chief’s daughter.

2. I made copies of the documents to take to a meeting of the National Alliance of POW/MIA families. The documents were released by the CIA as a result of an order by this Court several years ago. I am no longer able to find these documents among my possession. My

recollection is that I made several copies of them. I took two with me to the meeting, left one in the printer tray and another on my bed, two stuck behind my seat cushion on my wheelchair, and I put two in a carrying case I had with me.

3. Three or four years ago the documents disappeared and I have not been able to locate them since. Those that I took with me to the Memorial Day meeting of the National Alliance of Families disappeared and those that I left behind in my apartment, I have been unable to locate.

4. In 2018 I made a new FOIA request to the State Department for these documents. The State Department acknowledge the request and assigned FOIA Request No. F-2018-04868, but has never provided the documents requested although the time for making a determination of the request has long since passed.

5. The three documents previously mentioned were released by the country of Laos and there are still other survivors that could be identified. When did Laos first identify that these three Americans were alive? Laos was not a part of the Paris Peace Accords. There is a public interest in knowing whether they could have been negotiated for or their relatives could have been allowed to visit them; But the fear of being held accountable has prevented the CIA and other agencies/departments
