REMARKS: NN3-319-02-000A. RG 319, Records of the Army Staff, 1903-1992.

902d Military Intelligence Group, Investigative Records Repository (IRR).

NN3-319-02-000A is an artificial accession number used for consolidation/identification purposes. Thirteen (13) accessions of POW/MIA/Detainee and Foreign Organizations and Personnel Files are consolidated under this transaction into two new records series and an accretion to an existing series. All thirteen accessions have been previously accessioned and appear in the MLR, but this transaction replaces those entries with two new entries and accretion to an existing entry. The two new series and accretion to an existing series are as follows:

-(A1 1842) POW/MIA/Detainee Intelligence Files (World War II-Pacific Theater), 1944-1986. 9 LGA-S boxes. 3 linear feet, 6 linear inches. (New Series)

-(A1 1843) POW/MIA/Detainee Intelligence Files (World War II-European Theater). 1944-1986. 5 LGA-S boxes. 2 linear feet, 1 linear inch. (New Series)

-(A1 134B) Security Classified Intelligence and Investigative Dossiers-Personal Name File, 1939-1976. 62 LGA-S Boxes (Boxes 697-756). 25 linear feet, 10 linear inches. (Accretion to existing series)

The thirteen accessions consolidated under this transaction are as follows:

REMARKS: NN3-319-02-000B. RG 319, Records of the Army Staff, 1903-1992.

902d Military Intelligence Group, Investigative Records Repository (IRR).

NN3-319-02-000B is an artificial accession number used for consolidation/identification purposes. Two (2) accessions of POW/MIA/Detainee Files, NN3-319-01-006 and NN3-319-01-007, are consolidated under this transaction into one new records series. Both jobs have been previously accessioned and appear in the MLR, but this transaction replaces those entries with one new entry. The new series is:

-(A1 1844) POW/MIA/Detainee Intelligence Files (Vietnam Conflict), 1944-1986. 121 LGA-S boxes. 50 linear feet, 1 linear inch.

The new consolidated series consists of a total of 121 LGA-S boxes, totaling 60.984 cubic feet. This re-measurement results in a net increase of 10.365 cubic feet (previous total volume was 50.619 cubic feet).

TOTAL VOLUME AFTER CHANGE _____

To be completed by NN-E

REMARKS: NN3-319-02-000C. RG 319, Records of the Army Staff, 1903-1992.

902d Military Intelligence Group; Investigative Records Repository (IRR).

NN3-319-02-000C is an artificial accession number used for consolidation/identification purposes. Two (2) accessions of POW/MIA/Detainee Files, NN3-319-01-005 and NN3-319-01-008, are consolidated under this transaction into one accretion to an existing series. Both jobs have been previously accessioned and appear in the MLR, but this transaction replaces those entries with an accretion to an existing series. The accretion to the series is:

A-1-1841: POW/MIA/Detainee Intelligence Files (Korean Conflict), 1944-1986. 94 LGA-S boxes (Boxes 777-870). 39 linear feet, 2 linear inches. (accretion to existing series) (Total series volume is now 362 linear feet, 6 linear inches, comprising a total of 773 LGA-S boxes and 7 LTA-S boxes)

The new consolidated accretion to an existing series consists of a total of 94 LGA-S boxes, totaling 47.376 cubic feet. This re-measurement results in a net increase of 8.604 cubic feet (previous total volume was 38.772 cubic feet).

REMARKS: NN3-319-02-000A. RG 319, Records of the Army Staff, 1903-1992.

902d Military Intelligence Group, Investigative Records Repository (IRR).

NN3-319-02-000A is an artificial accession number used for consolidation/identification purposes. Thirteen (13) accessions of POW/MIA/Detainee and Foreign Organizations and Personnel Files are consolidated under this transaction into two new records series and an accretion to an existing series. All thirteen accessions have been previously accessioned and appear in the MLR, but this transaction replaces those entries with two new entries and accretion to an existing entry. The two new series and accretion to an existing series are as follows:

-(A1 1844) POW/MIA/Detainee Intelligence Files (World War II-Pacific Theater), 1944-1986. 9 LGA-S boxes. 3 linear feet, 6 linear inches. (New Series)

-(A1 1843) POW/MIA/Detainee Intelligence Files (World War II-European Theater). 1944-1986. 5 LGA-S boxes. 2 linear feet, 1 linear inch. (New Series)

-(A1 134B) Security Classified Intelligence and Investigative Dossiers-Personal Name File, 1939-1976. 62 LGA-S Boxes (Boxes 697-756). 25 linear feet, 10 linear inches. (Accretion to existing series)

REMARKS: NN3-319-02-000A. RG 319, Records of the Army Staff, 1903-1992.

902d Military Intelligence Group, Investigative Records Repository (IRR).

NN3-319-02-000A is an artificial accession number used for consolidation/identification purposes. Thirteen (13) accessions of POW/MIA/Detainee and Foreign Organizations and Personnel Files are consolidated under this transaction into two new records series and an accretion to an existing series. All thirteen accessions have been previously accessioned and appear in the MLR, but this transaction replaces those entries with two new entries and accretion to an existing entry. The two new series and accretion to an existing series are as follows:

-(A1 1844) POW/MIA/Detainee Intelligence Files (World War II-Pacific Theater), 1944-1986. 9 LGA-S boxes. 3 linear feet, 6 linear inches. (New Series)

-(A1 1843) POW/MIA/Detainee Intelligence Files (World War II-European Theater). 1944-1986. 5 LGA-S boxes. 2 linear feet, 1 linear inch. (New Series)

-(A1 134B) Security Classified Intelligence and Investigative Dossiers-Personal Name File, 1939-1976. 62 LGA-S Boxes (Boxes 697-756). 25 linear feet, 10 linear inches. (Accretion to existing series)

The thirteen accessions consolidated under this transaction are as follows:

The project was later cancelled, but many of Major Dorogi's files were retained as part of the Center of Military History's Medical Records Collection. The files contain monthly operational and command summaries for Special Forces Groups, correspondence with former Special Forces members, reports on the Viet Cong and North Vietnamese medical services, Special Forces medical training manuals, information about the Field Epidemiological Survey Team, and drafts of two chapters. Following the numbered folders are several unnumbered folders and numerous uncaptioned photographs of army personnel and Vietnamese civilians. There is also a five-inch by eight-inch card file of

Major Dorogi's Special Forces contacts.

14. RECORDS UNIT DESCRIPTION: In 1974, Col. Richard McConnell began writing a history of dental activities during the Vietnam War. McConnell died in 1977, before completing the manuscript. It was finished by an editorial committee of army dentists. The manuscript covers early dental involvement in Vietnam, the establishment of dental detachments and unit dental support, medical facilities and supply, oral surgery, and other professional activities. The chapters emphasize the problems and successes of clinical practice and the effects of dental treatment on the patients. Included here are six of the eight chapters, some transcripts of interviews with dental officers, clinical records of one dentist, Army Dental Corps memos from 1960-69, and Vietnam dental unit reference files. The latter files of dental detachments and hospitals in the field comprise the bulk of the records. They are arranged alphabetically by

component, thereunder numerically by unit designation or alphabetically by unit name. The files contain copies of unit annual reports, orders, standing operating procedures, tables of organization and equipment, progress reports, and daily staff journals. Some include photographs and slides. In addition, two interviews on cassette tape have been deposited in the Motion Picture, Sound, and Video Branch.

14. RECORDS UNIT DESCRIPTION: Dr. Michael E. Carey, a lieutenant colonel in the Army Reserves, was writing a history of neurosurgery during the Vietnam War when he was assigned to the Medical History Division for his annual training in 1976. Carey used the time to review 150 post-mortem head wound cases at Edgewood Arsenal, S. C., and to interview Dr. William Hammond, former neurosurgical consultant in Vietnam. The division apparently retained much of Carey's work from this research trip. Included here are the head wound case studies, tables of data Carey assembled from the case studies, and copies of reference articles on military casualties.

14. RECORDS UNIT DESCRIPTION: These annual reports, also known as activities reports and historical reports, were prepared by Army Medical Department components and sent to the Office of the Surgeon General. They summarized the past year's medical and dental activities, focusing on such topics as the unit's mission, organization, personnel, training, patient care, preventive medicine, improvements, construction, and supply. Larger components generally filed more extensive reports which sometimes included photographs, and the expansion of the medical department during wartime led to an increase in reporting units at those times. The series does contain gaps. It is preceded by one of

the same name in Record Group 112 for the years 1940 to 1969.

REMARKS

Job No. NN3-319-87-2 (cont.)

Even though the records were reboxed during processing, there was only a small increase in the total cubic footage because of the disposal of a large amount of duplicate non-record material.

In addition, it was discovered that records created after 1975 belonged in the Medical History Division, U.S. Army Center of Military History, Records of the Army Staff. These records have been re-allocated to RG 319 and are described in a separate transaction.

61a. ADMINISTRATIVE HISTORY: In 1941, the Surgeon General of the Army, "feeling that some steps should be taken for the organization of the historical work of the medical department," established a historical sub-division in his office. The new Historical Division planned to write a history of the medical

department in the impending World War. The Division expanded to include histories of other wars as well as that of Army medical centers and medical programs. With the move of the historical program to Walter Reed Army Medical Center in 1952, the Historical Division changed its name to The Historical Unit. In 1972, the unit moved to Fort Detrick in Frederick, Maryland. In addition to having produced publications, the unit maintained background files for historians and provided reference services on its collections for researchers. In 1975, The Historical Unit was absorbed by the U.S. Army Center of Military History.

14. RECORDS UNIT DESCRIPTION: These reports were created as by-products of the unit's weekly staff meetings of branch chiefs. Each branch chief--Administrative, Editorial, General Reference and Research, Historians, Information Activities, and Special Projects--submitted an accounting of their projects and of personnel activities which were combined into one report each week. For each week that there was a staff meeting, a summary of the meeting accompanies the report. These reports document such things as the status of the unit's historical studies, use of its reference facilities, research topics of its historians, and

employee sick and annual leave. Original reports were held by the Administrative Branch. Beginning in 1966 there is also a second copy kept by the unit's Executive Officer. The reports for 1960-63 are missing. This series appears to be a continuation in a little different form of the Office Diary series from 1948-55 also in Record Group 112. This series continues in Record Group 319 as the Daily Log.

14. RECORDS UNIT DESCRIPTION: This is the unpublished manuscript of "Borden's Dream," a history of the Walter Reed Army Medical Center in Washington, D. C., from before the center was envisioned in 1860 until 1951. Army doctor William Cline Borden was the driving force behind the lobbying effort for a general hospital which would centralize the Army's medical training. Author Mary W. Standlee accented her work with numerous photographs depicting the people, buildings, and activities of the center including a picture of Walter Reed's appendix. In addition, there is one folder of Standlee's correspondence dealing with the manuscript and related publications. Another folder from the Army Center of Military History details efforts

in the mid-1970s to publish the manuscript.

14. RECORDS UNIT DESCRIPTION: Col. Tracy S. Voorhees was a lawyer who served in the Judge Advocate General's Department and was assigned to the Surgeon General's Office during World War II. From 1946-47 Voorhees was Special Assistant to the Secretary of War and from 1948-50 was Under Secretary of the Army. Voorhees had a special interest in the Army medical program to improve artificial limbs for veterans. In October 1945 the colonel wrote an account of his wartime experiences to which he made additions in 1950 and 1971. After his death in 1974, The Historical Unit edited and completed the manuscript entitled, "A Lawyer Among Army Doctors." The records include three drafts of the manuscript, editorial notes and corrections, a five-inch by 8-inch card file index of names in the manuscript, and related correspondence. There is also a copy of the 1949 Hawley Report.

from the Defense Department Committee on Medical and Hospital Services of the Armed Forces of which Voorhees was a member. Some copies of Voorhees' correspondence accompanies the report.

14. RECORDS UNIT DESCRIPTION: These annual reports, also known as activities reports and historical reports, were prepared by Army Medical Department components and sent to the Office of the Surgeon General. They summarized the past year's medical and dental activities, focusing on such topics as the unit's mission, organization, personnel, training, patient care, preventive medicine, improvements, construction, and supply. Larger components generally filed more extensive reports which sometimes included photographs, and the expansion of the medical department during wartime led to an increase in reporting units at those times. The series does contain gaps. It continues under the same name in Record Group 319.

14. RECORDS UNIT DESCRIPTION: These reports, papers, studies, and manuals were maintained in the General Reference and Research Branch of The Historical Unit to be used as reference materials by historians of the medical department and visiting scholars. The earliest documents are Army Expeditionary Force memos from 1918, although many of the records relate to the Army and the medical department in Vietnam. There is also a large number of files about the Army Nurse Corps. Overall, the subjects vary greatly from a daily journal of the Chilean Earthquake Relief Operation in 1960 to a report on the preservation of historically significant records in 1965. Some of the files contain supporting photographs. This series continues under the same name in Record Group 319.

His proposal for "Improved Implementation of the MEND Program" in 1956, led to its incorporation and organization within the Medical Reserve Program of the U.S. Armed Forces. This placed immediate supervision and responsibility upon the education and training division of the Office of the Surgeon General.

Zarafoneticis' files contain MEND programs and activities, semi-annual and annual reports, financial and expenditure reports, civil defense education programs, journals, bulletins, and pamphlets of the U.S. Air Force and Army, general correspondence, course lectures, teaching aids, and symposium materials.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

SUMMARY

These records are an accretion to NN3-112-86-1. They consist of 350 cubic feet of medical files of the Historical Division, Office of the Surgeon General for the years 1960 - 1980. The files include medical intelligence and specialist reports, laboratory data, information on critical medical exercises, background material on medical student programs, and legal opinion documentation on the status of medical personnel under the Geneva Convention. These records cover the geographical areas of the Continental United States, Europe, and the Far East, with special emphasis on Vietnam. They are filed under the TAFFS system and are arranged alphabetically by general subject. I have discussed this offer with Henry Mayer, NNM, who agrees they are an accretion to NN3-112-86-1.

REMARKS

(NN3-112-86-1)

These records appear to be unquestionably of continuing value. Apparently the material is similar to that which we accepted from CNH in 1977, but covers the decade of the 1950's. Possibly it could be handled as an accretion, but I believe the earlier records were arranged according to the historian who used them or by the value to which they related.

If NNMF concurs it should also return a copy of the SF 258 to NN-B.

U.S. MEDICAL DEPARTMENT (AMEDD) RECORDS, 1950-1959

1. This record collection of 55 linear feet of records, was created by the Historical Division, Office of the Surgeon General while that agency was located at Fort Detrick, Maryland. It was transferred to the US Army Center of Military History after the Historical Division became part of the US Army Center of Military History and the agency was co-located with the Center in Washington during 1979. This collection supplements the "medical records collection" for the 1940-1949 period that was transferred to the National Archives during late 1977 to (Record Group 112).
2. This collection consists of correspondence, documents dealing with various diseases, hospitalization, medical evacuation, statistical data, medical intelligence, research and development reports, laboratory reports, consultants' recommendations and reports, construction of medical facilities, administration and similar documents concerning AMEDD and SGO. Also included are the annual historical review files submitted by medical department units stationed world wide. These annual reports contain the basic source documentation for any historical research related to the activities of AMEDD.
3. Since the records being offered are arranged according to the War Department (Dewey) Decimal file system, it is felt that a folder listing on the Standard Form 135 can be dispensed with.
