Subject : Missing Pages--Court Martial of Michael A Schwarz

To : File

These records were transferred to the National Archives from the U.S. Marine Corps Historical Center via Job NN3-127-00-007.

While processing these records it appears that pages 475-523 of the transcript of the Court Martial of Michael A. Schwarz were missing and not transferred to the National Archives. The sequence ends with page 474 (pagination typed) and continues again with page 524 (pagination hand written). From the context the missing pages appear to be testimony and/or closing statements and were not delivered to the National Archives in this job.

Scope & Content: This series consists of the investigation and trial records of five Marine personnel accused of killing 16 women and children on February 19, 1970 at the hamlet of Song Thang, Quang Nam Province in the Republic of Vietnam. The records include the investigation of the case, trial records for two of the accused, PVTs S. C. Green and Michael Schwarz, legal analysis by the Judge Advocate (Navy) Office of the charges, recommendations as to the disposition of the case, post trial

sentencing and appeal information, and public correspondence about the case. Of the five Marines charged, one was granted immunity in return for testimony, two were acquitted, and two received prison sentences, one for life (later reduced). The courts martial of the two individuals receiving prison terms (PVTs Green and Schwarz) are part of this series. This case was tied at least partially in the public mind to an earlier similar atrocity case at My Lai involving LT William Calley, and there are references to that case, particularly to the variation in sentencing.

Subject: RE: Information From Our Records Boxes

Good morning Bob,

In 2005 or 2006, we either stamped the label on the box to reflect a Kyl-Lott review or the reviewer would initial and highlight the label. Due to our process, a Kyl-Lott review was conducted on all boxes beginning in 2003, so the boxes in question would have had a Kyl-Lott review.

In addition, this office sent letters to the equity sharer advising them of the referral work that needed to be accomplished. However, once the box is accessed at NARA, College Park, MD the box will be reviewed and sent to the Interagency Referral Center (IRC).

For clarity purposes, once a box is reviewed and the Navy information is declassified, if there is information belonging to another agency (equity), the box remains classified until that agency performs a review and deems their information declassified.

If you have any other questions, give me a call.

Regards,

Mary

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

103 APR 16 2023

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

REMARKS

NN3-127-94-001

Accession from U.S. Marine Corps Historical Division of two Reference Collections maintained by USMC's History and Museums Division.

The Y Format for the History and Museums Division was submitted with job NNTA-N-90-127-149A, forwarded on 4/26/1993.

There has been a slight reduction in the cubic measurement of the records as originally recorded on the SF-258. This has resulted from the space saved in reboxing partially filled FRC's during holdings mainance operations.

Many of the files document various aspects of the War in Vietnam, but others relate to different matters such as ongoing programs, policies and operations of the armed forces; the Cuban missile crisis; the Lebanon crisis of 1958; reports of U.S. prisoners of war in Laos and Cambodia; and the assault on Koh Trang and the U.S.S. Mayaguez incident. Information concerning various aspects of Marine Corps operations is scattered throughout the entire series, but particularly among the U.S. Navy originated documents. INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

MEMORANDUM FOR:

Subject: Memorandum for the Record

1. During the course of the declassification review of accession group 218-92-0030, Chairman of the Joint Chiefs of Staff (CJCS) General David Jones, records it was discovered that box #24 from this collection was empty. Withdrawal slips contained within the box indicate that all the material was removed May 1984 for retention in the Office of the Chairman Joint Chiefs of Staff (OCJCS). The records in this box concern Awards reviewed by OCJCS from June 1978 until May 1982.
2. Writer conducted search of Joint Staff History Office holdings and questioned if there was any need for them to maintain these records. JSHO advised and search confirmed they did have possession of the records.
3. Writer conducted search of J-1, Joint Staff Personnel Office to determine if they might have the records. J-1 advised that they did not have the records but did advise that it was common practice for the OCJCS to keep Award records in 'close hold' status.
4. Due to turnover of staff and length of time since records were removed from the box the records cannot be located and are presumed to be destroyed.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

Accession Number. A separate accession number is required for each series of records listed on the form. A series consists of records having the same disposal authority and disposal date that are transferred together to the records center. The accession number is entered in three parts, consisting of:

- (a) The NARS record group number assigned to the records of the agency making the transfer;
- (b) The last two digits of the current fiscal year; and
- (c) A four digit sequential number obtained in advance from the records center. (Arrangements may be made with the center to have these numbers assigned by the agency records officer or other official.)
- (d) *Volume.* Enter the volume in cubic feet of each series of records being transferred.
- (e) *Agency Box Numbers.* Show the inclusive box numbers for each series of records being transferred. The agency shall number each carton sequentially as follows: 1 of 25, 2 of 25, 3 of 25, etc. (Each new series of records should begin with carton number 1.) To facilitate control of the records and future reference service, the agency also shall mark each container with the assigned accession number prior to shipment.
- (f) *Series Description.* Describe the records in sufficient detail to allow the records center to check for proper application of the disposal schedule. Inclusive dates of the records should be indicated. Show the organizational component that created the records when it is other than that shown in item 5.
- (g) *Restriction.* Enter one of the following codes to show a restriction on use of the records. Restrictions other than (or in addition to) security classifications, such as limiting access to certain agency officials, are to be specified by a statement in the Series Description column (f).

W	Restricted use—witnessed disposal <i>required</i> (specify in column (f))
N	No restrictions

- (h) *Disposal Authority.* For each series of records, cite the agency schedule and specific item number authorizing disposal. Cite the NARS disposal job and item number if it has not been incorporated into an updated agency schedule.
- (i) *Disposal Date.* Applying the disposal authority previously cited in column (h), enter the month and year in which the records may be destroyed.

FOR COMPLETION BY THE RECORDS CENTER

Item 4 is self-explanatory. Specific instructions for item 6 are as follows:

Col.

- (j) *Location.* The records center annotates the shelf location of the first carton for each series of records.
- (k) *Shelving Plan.* The records center enters the appropriate code from Chap. 7-10e, HB, Records Center Operations (NAR P 1864.1A), to reflect the shelving system.
- (l) *Container Type.* The records center enters the appropriate code from Chap. 7-10h, NAR P 1864.1A, to reflect the type of container in which the records are retired.
- (m) *Automatic Disposal.* The records center enters either Y (yes) to indicate automatic disposal applies or N (no) indicating that the agency wishes to receive disposal concurrence notice prior to destruction of the records. INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

REMARKS

Accession NN3-218-82-3 and Accretions NN3-218-92-006,7,8, and 9

This transaction documents the accessioning of chairman's files for General Nathan F. Twining, which were received on April 1, 1982 as Accession NN3-218-82-3, but for which no paperwork or accession dossier has been found.

Also documented in this job are accretions to the chairman's files of Generals Twining, Lemnitzer, Taylor, and Wheeler.

The cubic measurement as originally reported for the Twining files has now been increased, probably as a result of the reboxing of the records from their original containers.

Records Unit Description: The "declassified" dispatches consist primarily of communications exchanged between the Joint Chiefs of Staff and the commanders-in-chief of the U.S. Far East Command (CINCFE) and the United Nations Command (CINCUNC). Most of the messages concern events relating to the Korean War, but some relate to developments in other parts of the Far East such as Formosa and Japan. Both incoming and outgoing messages deal with such matters as military strategy and plans, combat operations, treatment of prisoners of war, and armistice negotiations. Outgoing messages were also utilized to convey instructions from the Joint Chiefs, the Secretary of Defense, and the President to CINCFE and CINCUNC. The "classified" dispatches include many informational copies of messages furnished to the Joint Chiefs, most of which were sent or received by the Department of

State, U.S. ambassadors in Korea, the Defense Department, CINCFE, and the Supreme Commander Allied Powers (SCAP). Generally, they relate to the same subjects, but some concern the U.S.-Japan peace treaty. Individual messages in both series bear numbers which were assigned to them by their offices of origin; these numbers are often used in citing or cross-referencing the documents.
