INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

This series was reconstructed from records retired by the Center for Military History (CMH). CMH removed records from their original administrative provenance and order for research purposes. Scope & Content: This series consists of OCSA Form 38--Record Card which provides cross-references to records in the Security-Classified General Correspondence of the immediate Office of the Chief of Staff. In addition to citations to other file designations, using the War Department decimal classification scheme, the record cards also cite date of the original document, subject, sender, and recipient. The record cards frequently include an abstract of the contents of the document cited.

Agency History: The duties of the Chief of Staff of the Army are set forth in Section 3034 (c) and (d), Title 10, United States Code, which directs that the Chief of Staff perform his duties under the direction of the Secretary of the Army to whom he is responsible for the efficiency of the Army and its preparedness for military operations. The Chief of Staff presides over the Army staff, sends plans and recommendations of the staff to the Secretary of the Army, acts as agent of the Secretary in implementing plans and recommendations, and exercises supervision over members and organizations of the U.S. Army as directed by the Secretary. In addition, the Chief of Staff of the Army is a member of the Joint Chiefs of Staff and the Armed Forces Policy Council. In his role as a member of the Joint Chiefs of Staff, he acts independently of the Secretary of the Army.

Included within the immediate office of the Chief of Staff, until 1974, were the Vice Chief of Staff and the Secretary of the General Staff. The Chief of Staff, the Vice Chief of Staff, and the Secretary of the General Staff acted as a single corporate body in administering and managing the Army Staff.

The Vice Chief of Staff was the principal assistant and advisor to the Chief of Staff. By delegation of the Chief of Staff, the Vice Chief of Staff had the authority to perform any statutory or other duties which the Chief of Staff is required or authorized to perform. Section 3035 (c), Title 10, United States Code, further stipulated that orders issued by the Vice Chief of Staff in performing such duties had the same effect as those issued by the Chief of Staff. The Vice Chief of Staff was also responsible for the effective administration and management of the Army Staff, and ensured coordination of the deputy chiefs of staff and the heads of Army staff agencies reporting to the Chief of Staff.

The Secretary of the General Staff was the executive assistant to the Chief of Staff and the Vice Chief of Staff and assisted the Vice Chief of Staff in the management and coordination of Army staff activities and coordinated all activities of the immediate office of the Chief of Staff. He also supervised the activities of the Deputy Secretaries of the General Staff. On May 20, 1974, pursuant to Department of the Army General Order 10, May 8, 1974, the position of the Secretary of the General Staff was combined with that of the Assistant Vice Chief of Staff to form that of the Director of the Army Staff.

Scope & Content: This series consists of the general correspondence ("general decimal files") of the immediate Office of the Chief of Staff of the Army, 1963-72. Included are records relating to civil disturbances (005.); Vietnam (091.); awards (200.6); organization of the Army (320.); organizations and tactical units (322.); force requirements (381.); prisoners of war and missing in action (383.6); and research, development, and acquisition of air defense and ground support missiles (471.94). The records for 1971 are missing.

Significant portions of this series, particularly the records for 1969-70, and the supplement to the series, 1968-75, were held by the U.S. Army Center for Military History (CMH) before transfer to the National Archives and Records Administration. CMH removed records from their original administrative provenance and order for research purposes, combining them into single subject groupings while adding additional records from other staff agencies of the Department of the Army. Therefore the original provenance of these records, as maintained by the Office of the Chief of Staff of the Army, cannot be reconstructed with full certainty.

Agency History: The duties of the Chief of Staff of the Army are set forth in Section 3034 (c) and (d), Title 10, United States Code, which directs that the Chief of Staff perform his duties

Records in this series, November 1964-November 1965, consist of the second volume only.

Scope & Content: Records relate to and contain information concerning U.S. personnel who have been declared Prisoner of War (POW) or Missing in Action (MIA), civilian personnel who have been held hostage, or personnel who have been recovered from hostile control and then debriefed for intelligence/counterintelligence information.

Dossiers are predominately for American Prisoners of War in Korea. Series also includes some dossiers for Foreign (Non-American) personnel, such as Turkish, Philippine, Greek, Dutch, French, Colombian, British, and Belgian Prisoners of War and War Crimes in Korea and Europe. Selected dossiers are also for American personnel during World War II and the Cold War.

Agency History: The Investigative Records Repository (IRR) at Fort George G. Meade, Maryland, is the controlling agency for all military intelligence records compiled by the U.S. Army in support of intelligence and counterintelligence activities. The IRR provides daily support to Army intelligence units throughout the world, and other intelligence agencies as needed. The IRR falls under the direct command of the 310th Military Intelligence Battalion of the 902d Military Intelligence Group, which, in turn, reports to the U.S. Army Intelligence and Security Command (INSCOM) at Fort Belvoir, Virginia. INSCOM, formed in 1977 by the merger of the U.S. Army Intelligence Agency and the U.S. Army Security Agency, is the Army's chief intelligence organization.

Finding Aid Note: A searchable database for the records was created by the Defense Prisoner of War/Missing Personnel Office (DPMO.) An electronic copy of the database is held by NWCTM.

Scope & Content: Records relate to and contain information concerning U.S. personnel who have been declared Prisoner of War (POW) or Missing in Action (MIA), civilian personnel who have been held hostage, or personnel who have been recovered from hostile control and then debriefed for intelligence/counterintelligence information.

Dossiers are predominately for American Prisoners of War in Korea. Series also includes some dossiers for Foreign (Non-American) personnel, such as Turkish, Philippine, Greek, Dutch, French, Colombian, British, and Belgian Prisoners of War and War Crimes in Korea and Europe. Selected dossiers are also for American personnel during World War II and the Cold War.

Agency History: The Investigative Records Repository (IRR) at Fort George G. Meade, Maryland, is the controlling agency for all military intelligence records compiled by the U.S. Army in support of intelligence and counterintelligence activities. The IRR provides daily support to Army intelligence units throughout the world, and other intelligence agencies as needed. The IRR falls under the direct command of the 310th Military Intelligence Battalion of the 902d Military Intelligence Group, which, in turn, reports to the U.S. Army Intelligence and Security Command (INSCOM) at Fort Belvoir, Virginia. INSCOM, formed in 1977 by the merger of the U.S. Army Intelligence Agency and the U.S. Army Security Agency, is the Army's chief intelligence organization.

Finding Aid Note: A searchable database for the records was created by the Defense Prisoner of War/Missing Personnel Office (DPMO.) An electronic copy of the database is held by NWCTM.

Arrangement: Arranged alphabetically by last name of individual.

Sara,

Sorry for the delay. There were a couple of boxes at the end of the dossiers that were classified. DPMO is going to give us a copy of the Access database. We can print out the hard copy for your files. Thank you for all your work on this project. It is greatly appreciated.

Scope & Content: Records relate to and contain information concerning U.S. personnel who have been declared Prisoner of War (POW) or Missing in Action (MIA), civilian personnel who have been held hostage, or personnel who have been recovered from hostile control and then debriefed for intelligence/counterintelligence information.

Dossiers are predominately for American Prisoners of War in Korea. Series also includes some dossiers for Foreign (Non-American) personnel, such as Turkish, Philippine, Greek, Dutch, French, Colombian, British, and Belgian Prisoners of War and War Crimes in Korea and Europe. Selected dossiers are also for American personnel during World War II and the Cold War.

Agency History: The Investigative Records Repository (IRR) at Fort George G. Meade, Maryland, is the controlling agency for all military intelligence records compiled by the U.S. Army in support of intelligence and counterintelligence activities. The IRR provides daily support to Army intelligence units throughout the world, and other intelligence agencies as needed. The IRR falls under the direct command of the 310th Military Intelligence Battalion of the 902d Military Intelligence Group, which, in turn, reports to the U.S. Army Intelligence and Security Command (INSCOM) at Fort Belvoir, Virginia. INSCOM, formed in 1977 by the merger of the U.S. Army Intelligence Agency and the U.S. Army Security Agency, is the Army's chief intelligence organization.

Finding Aid Note: A searchable database for the records was created by the Defense Prisoner of War/Missing Personnel Office (DPMO.) An electronic copy of the database is held by NWCTM.

Arrangement: Arranged alphabetically by last name of individual.

Scope & Content: Records relate to and contain information concerning U.S. personnel who have been declared Prisoner of War (POW) or Missing in Action (MIA), civilian personnel who have been held hostage, or personnel who have been recovered from hostile control and then debriefed for intelligence/counterintelligence information.

Dossiers are predominately for American Prisoners of War in Korea. Series also includes some dossiers for Foreign (Non-American) personnel, such as Turkish, Philippine, Greek, Dutch, French, Colombian, British, and Belgian Prisoners of War and War Crimes in Korea and Europe. Selected dossiers are also for American personnel during World War II and the Cold War.

Agency History: The Investigative Records Repository (IRR) at Fort George G. Meade, Maryland, is the controlling agency for all military intelligence records compiled by the U.S. Army in support of intelligence and counterintelligence activities. The IRR provides daily support to Army intelligence units throughout the world, and other intelligence agencies as needed. The IRR falls under the direct command of the 310th Military Intelligence Battalion of the 902d Military Intelligence Group, which, in turn, reports to the U.S. Army Intelligence and Security Command (INSCOM) at Fort Belvoir, Virginia. INSCOM, formed in 1977 by the merger of the U.S. Army Intelligence Agency and the U.S. Army Security Agency, is the Army's chief intelligence organization.

Finding Aid Note: A searchable database for the records was created by the Defense Prisoner of War/Missing Personnel Office (DPMO.) An electronic copy of the database is held by NWCTM.

Sara,

Sorry for the delay. There were a couple of boxes at the end of the dossiers that were classified. DPMO is going to give us a copy of the Access database. We can print out the hard copy for your files. Thank you for all your work on this project. It is greatly appreciated.

Scope & Content: The records consist of the February 1995 report of DFI International to the Defense Prisoner of War/Missing in Action Office (DPMO). This report describes the findings of the year-long project, POW/MIA Archive Research in Ukraine, Lithuania, Latvia, Estonia, and German. Nine months after the US-Russian Joint Commission on POW/MIAs was created, the Archive Project was formed in the realization that the Russian side of the Commission did not provide full access to Soviet Archives. The purpose of the Archive Project was to determine if information concerning American citizens and American POW/MIAs was stored in Soviet Era Archives located in the former republics of the Soviet Union. Additionally, the archives of Germany were searched to determine if American POW/MIAs had been relocated to the GDR during the Korean War. The report describes the resultant information gleaned from an extensive research of

archives in Ukraine, Lithuania, Latvia, Estonia, and Germany that was intended to identify records related to Korean, Cold War, and Vietnam POW/MIA incidents.

Following the executive summary, the report is organized into six volumes organized by country. Each volume has an accompanying appendix comprised of copies of archival records taken from each country.

Documents acquired by the Defense POW/MIA Office (DPMO) from Russian and other foreign archives relating to unaccounted-for POW/MIAs from World War II and the Korean Conflict era. These materials are copies of documents in Russian (former Soviet) archives including an academic dissertation on the Korean War and a WWII-era Soviet map of North Korea. These materials are Task Force Russia (TFR) documents numbers 281, 294, 313, 341, 413, 423, 441, and 468-566 in the original Russian and the unredacted six-volume study entitled "POW/MIA Archival Research Project" conducted by Paul Cole while on contract with DOD. Filed with these papers are index sheets prepared by DPMO that provide date of receipt and source, if known, and a brief summary of the individual documents. These documents and the summary are subject to 50 USC 435 (McCain Bill) and 5 USC Sec 552 (FOIA). The McCain Bill requires permission of the Primary next of Kin for release of information on an individual POW/MIA or the redaction of the name and service number. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them. ~~Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them.~~

Effect of Director's Decision

Section 503 of SMCRA provides that a State may not exercise jurisdiction under SMCRA unless the State program is approved by the Secretary. Similarly, 30 CFR 732.17(a) requires that any alteration of an approved State program be submitted to OSM for review as a program amendment. The Federal regulations at 30 CFR 732.17(g) prohibit any unilateral changes to approved State programs. In the oversight of the Indiana program, the Director will recognize only the statutes, regulations and other materials approved by OSM, together with any consistent implementing policies, directives and other materials, and will require the enforcement by Indiana of only such provisions.

VI. Procedural Determinations

Executive Order 12888

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12888 (Regulatory Planning and Review).

Executive Order 12958

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12958 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.13, and 732.17(h)(10),

decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(z)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously

promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

Unfunded Mandates

OSM has determined and certifies pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1502 et seq.) that this rule will not impose a cost of \$100 million or more in any given year on local, state, or tribal governments or private entities.

OSD Privacy Program

AGENCY: Office of the Secretary, DOD.

ACTION: Final rule.

SUMMARY: The Office of the Secretary of Defense is exempting a system of

records identified as DUSP 11, entitled POW/Missing Personnel Office Files. The exemption is needed to protect information properly classified under E.O. 12958, Classified National Security Information.

EFFECTIVE DATE: October 1, 1997.

FOR FURTHER INFORMATION CONTACT: Mr. David Bosworth at (703) 695-0970.

SUPPLEMENTARY INFORMATION:

The proposed rule was published on August 1, 1997, at 62 FR 41323. No comments were received, therefore, the rule is being adopted as published.

Executive Order 12866. It has been determined that this Privacy Act rule for the Department of Defense does not constitute "significant regulatory action". Analysis of the rule indicates that it does not have an annual effect on the economy of \$100 million or more; does not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; does not materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; does not raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

Regulatory Flexibility Act. It has been determined that this Privacy Act rule for the Department of Defense does not have significant economic impact on a substantial number of small entities because it is concerned only with the administration of Privacy Act systems of records within the Department of Defense.

Paperwork Reduction Act. It has been determined that this Privacy Act rule for the Department of Defense imposes no information requirements beyond the Department of Defense and that the information collected within the Department of Defense is necessary and consistent with 5 U.S.C. 552a, known as the Privacy Act, and 44 U.S.C. Chapter 35.

(ii) *Authority:* 5 U.S.C. 552a(k)(1).

(iii) *Reasons:* From subsection 5 U.S.C. 552a(d) because granting access to information that is properly classified pursuant to E.O. 12958, as implemented by DoD 5200.1-R, may cause damage to the national security.

Foreword

The intent of the "McCain Bill" is to make available to the public information relating to America's unaccounted-for servicemembers, while still respecting the privacy and desires of the primary-next-of-kin.

The statute levies guidelines for reviewing, processing, and forwarding information for public review.

This booklet highlights the history and application of the McCain Bill legislation.

"The McCain Bill" A Brief History

On December 5, 1991, Congress enacted 50 USC § 435 Note as Public Law 102-190, commonly referred to as the McCain Bill. The statute requires the Secretary of Defense to make available to the public—in a "library like setting"—all information relating to the treatment, location, and/or condition (T-L-C) of United States personnel who are unaccounted-for from the Vietnam War. The facility chosen to receive this information is the Library of Congress (LoC). The Secretary of Defense is named as the "official custodian."

Prior to release of T-L-C information, the Department of Defense is required to obtain written consent from the primary-next-of-kin (PNOK) to release publicly such information. In the case of those unaccounted-for from the Vietnam era, letters were mailed to the 2,266 PNOKs; responses were received from 1,893. Of these, approximately 366 declined consent to release T-L-C information. Another 243 PNOKs were located but failed to respond. Each of these is, therefore, considered a PNOK "no" under the provisions of the statute. Following a reasonable search, 130 PNOKs could not be located. Based upon the pro-release intent of the statute, these 130 PNOKs were considered to have given their consent to release T-L-C information. A database was established reflecting PNOK responses and is updated as cases are resolved. Hard copy lists are provided to all offices of the federal government that deal with this issue. The Defense Prisoner of War/Missing Personnel Office (DPMO) continues to receive PNOK consent for release of information on the unaccounted-for.

Highlights

- McCain Bill also applies to photographs

Key things to remember

- Not an issue of classification
- "Pro release"
- T-L-C: ask the question?
- Consider PNOK Consent/Non-consent

Highlights

- The law *does not* apply to returnees and negotiated remains prior to December 1991.
- McCain *does not* apply once remains are repatriated, identified, and returned to the PNOK.

Highlights

- Names and Refnos of PNOK "no's" *can* be found in the LoC.
- Lists of names/Refnos
- McCain *only* applies when information pertains to T-L-C.

The McCain Bill has been amended twice since it was originally signed. The first amendment was in the FY95 National Defense Authorization Act. This amendment incorporated the Korean and Cold War unaccounted-for under similar provisions as the Vietnam War unaccounted-for. However, the statute established the National Archives as the "library like setting" for this material and made the Archivist of the United States the "official custodian."

The second amendment was in the FY96 National Defense Authorization Act. This amendment established a 90-day period to locate and gain permission from the PNOK to release information regarding T-L-C of those unaccounted-for from the Korean/Cold War. (*Note: The 90-day rule applies only to Korea/Cold War.*) DPMO is developing a comprehensive database similar to the one established for the Vietnam War and will distribute the information once it has been completed.

The McCain Bill does not specifically direct declassification. Its "pro-release" intent does, however, imply such action to make the information available to the public. Compliance with the PNOK's non-consent does limit the Government's ability to release publicly all information containing T-L-C data that is declassified.

50 United States Code Section 435 Note

DISCLOSURE OF INFORMATION CONCERNING UNACCOUNTED FOR UNITED STATES PERSONNEL OF THE COLD WAR, THE KOREAN CONFLICT, AND THE VIETNAM ERA.

(a) PUBLIC AVAILABILITY OF INFORMATION - (1) Except as provided in subsection (b), the Secretary of Defense shall, with respect to any information referred to in paragraph (2), place the information in a suitable library-like location within a facility within the National Capital region for public review and photocopying.

Whenever the Secretary makes a determination under the preceding sentence, the Secretary shall immediately notify the President and the Congress of that determination.

PNOK Consent/Non-Consent

"Cannot be located" is defined as:

- Vietnam PNOK: After reasonable effort to locate.
- Korean/Cold War PNOK: After 90 days of trying to locate.

The Decision-making Process

Congress offered no formal guidelines for establishing review procedures necessary to determine whether information containing "treatment," "location," and/or "condition" may be released to the public. The following guidelines have been developed over many years based on experience, analysis of documents, and extensive legal counsel.

These guidelines have been applied to more than a million pages of information that has been released to the Library of Congress, family members, Congress, and interested individuals and groups through declassification efforts under Executive Order 12812, Freedom of Information requests, and the Mandatory Declassification Review process.

Definitions

TREATMENT, LOCATION and/or CONDITION

The words "treatment," "location," and/or "condition" appear in that paragraph of 50 United States Code Section 435 Note (referred to as the McCain Bill) that defines the class of information to which the public disclosure requirement is applicable. The words themselves are not further defined in the statute.

In accordance with the normal rules of statutory construction, we look to the plain meaning of the words in the context in which they appear. We also may consider the legislative intent which is intrinsically obvious in the legislation itself or is further evidenced in the legislative history of the provision (e.g., committee reports; speeches; debates; testimony; etc.). In this case, there is no legislative history that would suggest that anything other than the plain meaning of the words used was intended by the Congress.

Accordingly, as the agency charged with implementing the statute as it applies to Vietnam, Korean, and Cold War casualties, DPMO will apply the plain meaning standard. The purpose of the statute is to effect the public disclosure of information relevant to the resolution of the cases of the unaccounted-for persons. This is a pro-release piece of legislation with some restrictions. There should be no effort to apply further restrictive or artificially limiting meaning to the plain words.

It is not possible to provide an effective, all-encompassing definition of "treatment," "location," and/or "condition." Nevertheless, in work thus far we have developed examples for each category that may be helpful in one's analysis of specific materials. These examples are not exhaustive or exclusive, merely illustrative:

- TREATMENT**
- Circumstances of capture/imprisonment
 - Medical treatment or lack thereof
 - Availability of food and water
 - Interrogation techniques/torture
 - Physical or mental abuse, threats, humiliation

KEY POINTS

50 United States Code
Section 435 Note

"The McCain Bill"

History of the Law

- Senator McCain
- 5 December 1991
- Vietnam
- Two Amendments

LOCATION

- * Identifiable geographic feature (river, lake, mountain)
- * Place name (village, city, hamlet - not province)
- * Prison camp site (Hanoi Hilton/Son Tay/Zoo)
- * Distance from a known point
- * 8 digit or greater UTM coordinate
- * GEOCOORDS (degrees/minutes/seconds)

CONDITION

- * Physical or mental condition (weak, malnourished, sick, feverish, delirious, coma)
- * Specific injuries (skull fracture, broken arm, gunshot or fragment wound, concussion, etc.)
- * Description of cause/circumstances of death
- * Remains (to include those referenced during a Joint Field Activity but not positively identified)
- * Non-biological evidence (such as that which implies the individuals did not exit the aircraft—e.g. ejection seat, parachute parts, other life support equipment)

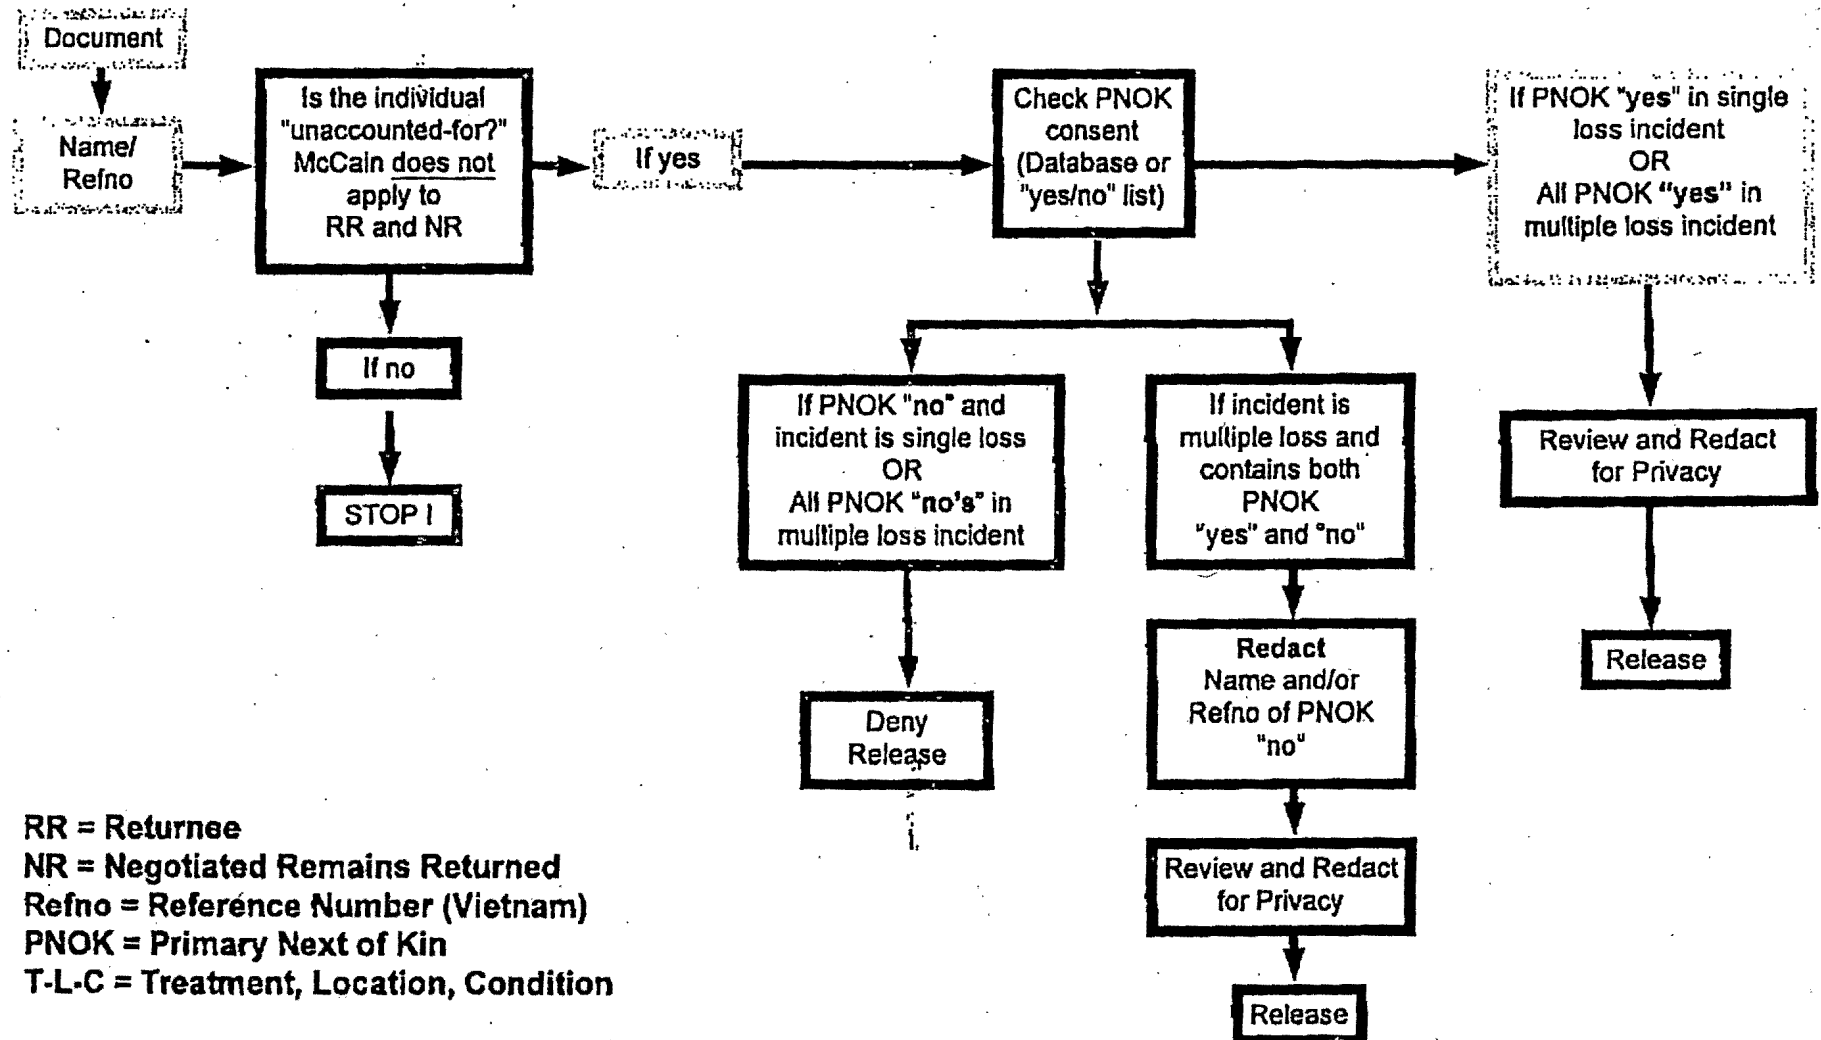

As the examples illustrate, information which is logically relevant to a determination of fate should be included among that which is subject to the disclosure requirements of the McCain provision as amended.

Questions are raised regarding the application of the word "dead" as it relates to the McCain Bill. In the usual context of our work, "dead" is a status, but it also can be descriptive of a condition. Information or evidence that a person is dead is clearly relevant to a determination of fate and that information is subject to the McCain provision when it arises in the descriptive context. For the purposes of DPMO's redaction work, we must apply a sensible rule. When we encounter the word dead, and it is clearly used in the context of a previously known status, as in a compilation listing casualties, then the reference may stand without application of the PNOK release rule. However, where it is used descriptively, such as in a witness statement, then the normal rules relative to the PNOK release are applicable.

Subject: 3-330-01-013

Between January and July 2001, the Department of Defense, Defense Prisoner of War / Missing Personnel Office initiated three transfers to transfer a total of 63 Portable Document Format (PDF) files to the Electronic and Special Media Records Services Division of the National Archives and Records Administration (NARA) via FTP. The accession was assigned NN3-330-01-013, and legal custody was accepted for the transfer by Jeanne Schauble, NWMD, in October 2001. The accession has 63 logical data records.

This transfer of "Task Force Russia" Case Files was considered an accretion to a number of previous accessions of paper records including 3-330-99-003, 3-330-99-004, 3-330-00-002, and 3-330-01-007. A copy of the accession dossier for 3-330-00-002 from RDTPA is enclosed, as is an unsigned copy of the SF-258 for 3-330-01-013 from the working files of Ed McCeney.

At the time of the proposed transfer, NARA was piloting transferring born-digital records via File Transfer Protocol (FTP). As documented in the enclosed email from Ed McCeney dated November 30, 2000, NWME agreed to coordinate the technical electronic transfer support for these records. The expectation was that NWMD would subsequently print the PDF files to paper and interfile with the previously received records. At the time, PDF was not an acceptable transfer format for born-digital records, so the plan to print to paper was in keeping with the standards of that time.

On November 25, 2015, I contacted RDTPA to determine whether or not the printing and interfiling ever took place. I viewed the series Copies of Documents Received by the Joint Committee Support Directorate of the defense POW / MIA Office located in Stack 550, A:04. These records consist of paper case files for "Task Force Russia," arranged numerically by case file number, with the highest number recorded TFR 506. The PDF case files generally have numbers higher than TFR 506. Therefore, I determined that the plan to print the PDF case files to paper and interfile never took place. I decided to complete the accessioning process for the 63 PDF files as electronic records.

The documentation is filed in stack 530 under Record Group 330. The NARA documentation consists of a list of documentation, user note, list of the files, and PDF verification report. The agency provided no index or other documentation.

I have prepared one DAS series descriptions for the Task Force Russia (TFR) Case Files (NAID 24493471). These records are not appropriate for inclusion in the Access to Archival Databases (AAD) system.

The data is exempt from disclosure under FOIA b(3), 50 USC 435 (The McCain Act). The records are mostly in Russian and will need to be reviewed by a Russian language expert prior to release.

On November 27, 2015, the files were ingested to ERA. In ERA, the files are associated with TR-0330-2016-0142 and LTI-0330-2016-0142. I reviewed the Transfer Manifest and Transfer Shipment Aggregate Report to verify the successful ingest of the records in this accession. I reviewed the Ingest Verification Reports and found no problems. No discrepancies were noted on TPR-0330-2016-0142.

Given that the SF-258 has already been signed, this accession should be considered complete. A copy of this memo and unsigned SF-258 will be provided to RDTPA to interfile in the dossier for 3-330-01-013.

Dear Major Falkowski:

Attached you will find a copy of Standard Form 258 authorizing the transfer of the cited Task Force Russia Files to the National Archives. The Department of Defense records officer should sign in Block 2A to authorize the transfer. The signed 258 should be returned to Ms. Fe Cojeen, NW-A Room 3400, National Archives and Records Administration, 8601 Adelphi Road, College Park MD 20740.

I should note that in the CD you transferred that the following documents contained only an English language listing of documents and not copies of the original Russian language documentation. They are TFRs 487R, 520R, and 525R. While we copied the contents out on to hard copy, we still need copies of the original documentation before we can formally accession these files.

If you have any questions about the transfer, please feel free to contact me at 301-713-7159 or at Richard.Wood@nara.gov.

Sincerely,

RICHARD E. WOOD

Subject: Disposition 304/05

Ms. Ortiz,

Following our telephone conversation, here is the disposition authority information I am looking for. On the SF-258 submitted 1/4/2011, the following two FRC transfers cite AI-15/304/05/1 as their disposition authority:

W330-81-0737
W330-83-0174

The version of AI 15 issued in 2008 lists 304/05 as "reserved." In order to approve these records for transfer to the National Archives, I will need either a copy of the page from the older version of AI 15 under which these records were originally scheduled, or a citation for the modern AI 15 entry that covers these records.

Please let me know if there is any other information on these transfers that I can provide.

Thank you,
Eleanor

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

SUMMARY

This offer, submitted by the Department of the Army, concerns 20 reels of microfilm containing unclassified press releases from the Department of Defense, listing Korean War casualties. The records have high research value for the information they contain about military personnel and POWs from the Korean War. I recommend that the National Archives accept the offer and transfer the microfilm to the National Archives immediately. I have discussed this job with Elaine Everly (NN-W) and she has informally concurred with the recommendation.

RECOMMENDATION

The records described under all items of the schedule, except those that may be listed in blocks 2, 3, and 4 of this section, are disposable because they do not, or will not after the lapse of the period specified, have sufficient administrative, legal, research, or other value to warrant their continued preservation by the Government.
- 2. APPROVED FOR PERMANENT RETENTION. The records described under the following item or items have been appraised by the National Archives and Records Administration (NARA) and are determined to have sufficient historical or other value to warrant their continued preservation by the United States Government. The agency will offer these records to the National Archives as specified.
- 3. DISPOSITION NOT APPROVED. The records described under the following item or items are not approved for disposition.
- 4. WITHDRAWN. The records described under the following item or items have been withdrawn at the request of the agency and/or NARA.

This appraisal concerns N1-AU-90-24, an offer by the United States Army, Office of Freedom of Information Privacy of 20 reels of unidentified microfilm recently discovered in the FOIA office.

In examining the microfilm, I determined that the 20 rolls of 35mm positive duplicate film are copies of unclassified press releases from the Department of Defense, listing Korean War casualties. The initial roll, which might contain pertinent information on how these records came to be filmed, is missing. There is no paper or other documentation. On each reel the beginning frames contain a disclaimer on the accuracy of the lists and "Property of U.S. Govt. 1/25/60."

The first 19 reels are copies of Department of Defense, Office of Public Information Press Releases listing killed in action and wounded in Korea, 1950-1953. The press releases are arranged chronologically with a state by state listing of the casualties. Under each state, the lists are arranged alphabetically by last name and contain the home addresses and names of the next of kin.

The twentieth reel contains the same disclaimer as the first 19, but contains several types of information different from the other reels. Listed are: Strength Requirements of Women's Services; Press Release on Expenditures; General Fact Sheets; and Press Releases relating to POWs. The releases regarding the POWs are arranged by state thereunder alphabetically by last name. They also contain the names and addresses of next of kin. Additionally, there is a listing of captured sick and wounded returned to Military Control in Korea, a list of "Men Reported By Reds to Have Died," various clippings dated August 1955, and a Press Release from the Service Pay Commission. As with the other 19 reels, I did not locate any documentation to explain from where the information derived or how it came to be filmed.

Since the microfilm did not appear to be the record copy, I searched and located the original unclassified press releases in the Records of the Office of the Secretary of Defense (Record Group 330). With the cooperation of OSD,

and in consultation with the appropriate NN units, an SF 258 has been prepared to transfer immediately to the National Archives the 8 cubic feet of original press releases currently housed at the Washington National Records Center.

Wil Mahoney (NNRM), Richard Boylan (NNRR), and Peggy Adams (NNXA) all spoke to me about this microfilm. Each believed that although the microfilm is not the record copy, it would be useful for reference purposes and should be accessioned.

I have discussed this job with Elaine Everly (NN-W) and she has informally concurred with the recommendation.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF-258 to the agency with suggestions for disposition of the records.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records-control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

61a. Administrative History:

Task Force Russia (POW/MIA) was created on June 29, 1992, when the Secretary of Defense directed the Department of the Army to serve as Executive Agent for the Department of Defense by providing support to the newly established U.S.-Russian Joint Commission on POW/MIAs. In response to this directive, the Secretary of the Army created Task Force Russia (POW/MIA) on the same day.

The U.S.-Russian Joint Commission on POW/MIAs was established by the Presidents of Russia and the U.S. on March 20, 1992. It held its first meeting on March 26, 1992. The mission of Task Force Russia (POW/MIA) is to assist the U.S.-Russian Joint Commission on POW/MIAs in obtaining information on unaccounted for American servicemen on the territory of the former Soviet Union.

Task Force Russia has focused its efforts on obtaining information on missing American servicemen (in the former Soviet Union) from four wars: Vietnam, Korea, the Cold War, and World War II. More specifically, Task Force Russia conducts and analyzes information contained in Russian and American archives; conducts and analyzes interviews of citizens in the former Soviet Union; and provides the Joint Commission with any other technical and analytical support that might be required.

Soon after its creation, Task Force Russia obtained office space in Moscow. That office became known as Task Force Russia-Moscow (TFR-M), as opposed to Task Force Russia-Washington (TFR-W). By April 23, 1993, Task Force Russia (POW/MIA) had a total staff of 44, with 6 persons in the Pentagon, 28 in Washington, and 10 in Moscow.

On July 1, 1993, Task Force Russia (POW/MIA) was transferred from the Department of the Army to the Department of Defense, where it was reorganized and placed within the newly established Defense POW/MIA Office (DPMO).

As a result of the reorganization, Task Force Russia (POW/MIA) was joined by a newly created Joint Commission Support Branch (JCSB) in providing assistance to the Commission. Since July 10, 1993, combined triweekly reports have been prepared by the Joint Commission Support Branch (JCSB) and Task Force Russia (POW/MIA). The reports are forwarded to the Executive Secretary of the Commission (who is also the Deputy Assistant Secretary of Defense for POW/MIA Affairs). The Executive Secretary then sends the reports to the Chairman of the U.S. Delegation, U.S.-Russian Joint Commission on POW/MIAs, and to commission members.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

Jerry Nashorn suggested you might be able to help me.

I am seeking the accession number for the first transfer of Korean conflict and Cold War POW/MIAs accumulated by the Defense POW/MIA Office (DPMO). The transfer probably took place late in September, 1995, or early in FY 1996 (Oct-Dec 1995). I have a second accretion to this collection and am desperately seeking the control number so the records get matched up.

Thank you.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NAB) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

Documents accumulated by the Defense POW/MIA Office (DPMO) relating to unaccounted for Korean conflict POW/MIAs, ca. 1951-58. To date, the bulk of these materials are copies of documents held by the National Archives but copies of records held by other institutions are also included. This transfer also includes index sheets prepared by DPMO that provide the date, office of origin, and a brief summary of the subject of individual documents; summaries often include the names of specific POWs/MIAs cited in the document. This indexing information is being transferred in paper format and on a diskette; DPMO uses the latter to locate documents when responding to inquiries concerning specific individuals. Also included is ca. 6-8 inches of correspondence between DPMO and the families of unaccounted for POW/MIAs. Section 1031 of the National Defense Authorization Act for Fiscal Year 1995 mandates the transfer of these documents to the National Archives which is to serve as a "centralized repository" for them.

★ ★ ★

1. **INTERIM CONTROL NUMBER:** Leave blank. NARA will fill in.

2. **AGENCY APPROVAL:** The agency records officer having the delegated authority to transfer the records with NARA should sign and date the form here (2A) and provide his/her name, title and mailing address (2B).

3. **NARA APPROVAL:** When a proposal to transfer records to the National Archives of the United States is approved, the appropriate NARA official completes 3A and 3B.

4A/B. **RECORDS SERIES TITLE/DATE SPAN OF SERIES:** The information provided should include a records series title, a statement of how the records are arranged, dates of coverage, and sufficient detail to describe the body of records being transferred. If access to the records is gained or facilitated through an index, box list, or other finding aid, include it with the records being transferred. Indicate the appropriate disposition authority number if the index is scheduled separately. If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.

5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.

6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.

7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access/restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:

Cu. ft. 15; Number 15; Type FRC boxes.

Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

Memorandum for OSD Records Management

Attn: Dave Bosworth

Date: 08 May 1997

1. Per your fax request this date: please enter "approx. 4 linear feet" of archival material at Item 5B on the SF 258 form.
2. As to a succinct paragraph on the current accretion, please submit the following:

Documents accumulated by the Defense POW/MIA Office (DPMO) relating to unaccounted-for POW/MIAs from the Korean Conflict, ca. 1950-1958. These materials are copies of documents held by the Eisenhower Library (3000pp), the US Army Intelligence and Security Command (500 pp), the Center for Military History (100pp), the USN and USMC archives (5000) and Operation Big Switch in 1953 (1600pp). Filed with these papers are index sheets prepared by DPMO that provide date, office of origin, and a brief summary of the subject of the individual documents. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives which is to serve as a "centralized repository" for them.

*Many thanks
Please advise

★ ★ ★

1. **INTERIM CONTROL NUMBER:** Leave blank. NARA will fill in.

2. **AGENCY APPROVAL:** The agency records officer having the delegated authority to transfer the records with NARA should sign and date the form here (2A) and provide his/her name, title and mailing address (2B).

3. **NARA APPROVAL:** When a proposal to transfer records to the National Archives of the United States is approved, the appropriate NARA official completes 3A and 3B.

4A/B. **RECORDS SERIES TITLE/DATE SPAN OF SERIES:** The information provided should include a records series title, a statement of how the records are arranged, dates of coverage, and sufficient detail to describe the body of records being transferred. If access to the records is gained or facilitated through an index, box list, or other finding aid, include it with the records being transferred. Indicate the appropriate disposition authority number if the index is scheduled separately. If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.

5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.

6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.

7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:

Cu. ft. 15; Number 15; Type FRC boxes.
Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

Scope & Content: This series includes information and action copies of messages sent to the Historian's office within the Office of the Secretary of Defense (OSD) during the inclusive dates. Some folders of outgoing messages are also included in this series, although they are limited to the first eight boxes and do not include all messages originated at OSD. The messages in the first eight boxes originate from a variety of sources, but the messages in boxes 9-39 are primarily of State Department origin. The messages deal with a wide variety of topics including the Korean conflict, Indochina, the Suez crisis, the crisis in Lebanon, and relations with China, Japan, the Middle East, Latin America, and NATO.

Finding Aid Note: A separate box list is provided.

Arrangement: The message files are in a rough chronological order by year. Within each year, however, there is no discernable pattern. Researchers are advised to consult the included box

list.

★ ★ ★

1. **INTERIM CONTROL NUMBER:** Leave blank. NARA will fill in.
2. **AGENCY APPROVAL:** The agency records officer having the delegated authority to transfer the records with NARA should sign and date the form here (2A) and provide his/her name, title and mailing address (2B).
3. **NARA APPROVAL:** When a proposal to transfer records to the National Archives of the United States is approved, the appropriate NARA official completes 3A and 3B.
- 4A/B. **RECORDS SERIES TITLE/DATE SPAN OF SERIES:** The information provided should include a records series title, a statement of how the records are arranged, dates of coverage, and sufficient detail to describe the body of records being transferred. If access to the records is gained or facilitated through an index, box list, or other finding aid, include it with the records being transferred. Indicate the appropriate disposition authority number if the index is scheduled separately. If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.
5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.
6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.
7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:

Cu. ft. 15; Number 15; Type FRC boxes.

Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

If you do not know the address of the appropriate regional archives, telephone the Accessions Control Staff at 301-713-6655.

★ ★ ★

1. **INTERIM CONTROL NUMBER:** Leave blank. NARA will fill in.
2. **AGENCY APPROVAL:** The agency records officer having the delegated authority to transfer the records with NARA should sign and date the form here (2A) and provide his/her name, title and mailing address (2B).
3. **NARA APPROVAL:** When a proposal to transfer records to the National Archives of the United States is approved, the appropriate NARA official completes 3A and 3B.
- 4A/B. **RECORDS SERIES TITLE/DATE SPAN OF SERIES:** The information provided should include a records series title, a statement of how the records are arranged, dates of coverage, and sufficient detail to describe the body of records being transferred. If access to the records is gained or facilitated through an index, box list, or other finding aid, include it with the records being transferred. Indicate the appropriate disposition authority number if the index is scheduled separately. If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.
5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.
6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.
7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:
Cu. ft. 15; Number 15; Type FRC boxes.

Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

Scope & Content: This series includes information and action copies of messages sent to the Historian's office within the Office of the Secretary of Defense (OSD) during the inclusive dates. Some folders of outgoing messages are also included in this series and do may not include all messages originated at OSD. The messages originate from a variety of sources, and agencies other than OSD; many are primarily of State Department origin. The messages deal with a wide variety of topics including the Korean conflict, Indochina, the Suez crisis, the crisis in Lebanon, the Vietnam War, and relations with China, Japan, the Middle East, Latin America, Western Europe, NATO and atomic or nuclear weapons matters.

Finding Aid Note: There is a NARA created box list for the records in Job NN3-330-98-002. Agency created box lists exist for Jobs NN3-330-99-001, NN3-330-99-005, and NN3-330-01-009.

Memorandum for Records Management

Attn: Dave Bosworth

DATE: 16 Dec 98

Documents acquired by the Defense POW/MIA Office (DPMO) from Russian Archives relating to unaccounted-for POW/MIAs from World War II and the Korean Conflict era. These materials are copies of documents in Russian (former Soviet) archives, letters from Soviet citizens, and Russian press reports/articles concerning POW/MIAs and America's search for them. These materials are Task Force Russia (TFR) documents numbers 1-67, 80-108, 110, 112, 116, 127 in the original Russian. Filed with these papers are index sheets prepared by DPMO that provide date of receipt and source, if known, and a brief summary of the individual documents. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them.

Attn: Dave Bosworth

DATE: 14 Jan 99

Documents acquired by the Defense POW/MIA Office (DPMO) from Russian Archives relating to unaccounted-for POW/MIAs from World War II, the Korean Conflict and the Cold War era. These materials are copies of documents in Russian (former Soviet) archives, letters from Soviet citizens, and Russian press reports/articles concerning POW/MIAs and America's search for them. These materials are Task Force Russia (TFR) documents numbers 68-69, 71-79, 109-110, 113-115, 117-126, 128--280, 282-293, 295-312, 314-340, 342-370, 372-386, 388-412, 414-422, 424-440, 442-467 in the original Russian. Some documents also have rough (NOT CERTIFIED) English translations. These materials also include several messages documenting interviews in Russia. Filed with these papers is a searchable WORD 97 file prepared by DPMO that provide date of receipt and source, if known, and a summary of the individual documents. The documents and the summaries are subject to 50 USC Sec 435 (McCain Bill) and 5 USC Sec 552 (FOIA). The McCain Bill requires permission of the Primary-Next of-Kin for release of information on an individual POW/MIA or redaction of the name and service number. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them.

59578 Federal Register / Vol. 62, No. 213 / Tuesday, November 4, 1997 / Rules and Regulations

Effect of Director's Decision

Section 503 of SMCRA provides that a State may not exercise jurisdiction under SMCRA unless the State program is approved by the Secretary. Similarly, 30 CFR 732.17(a) requires that any alteration of an approved State program be submitted to OSM for review as a program amendment. The Federal regulations at 30 CFR 732.17(g) prohibit any unilateral changes to approved State programs. In the oversight of the Indiana program, the Director will recognize only the statutes, regulations and other materials approved by OSM, together with any consistent implementing policies, directives and other materials, and will require the enforcement by Indiana of only such provisions.

VI. Procedural Determinations

Executive Order 12858

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12858 (Regulatory Planning and Review).

Executive Order 12958

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12958 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10),

decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 801 et seq.). The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously

promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

Unfunded Mandates

OSM has determined and certifies pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1502 et seq.) that this rule will not impose a cost of \$100 million or more in any given year on local, state, or tribal governments or private entities.

EFFECTIVE DATE: October 1, 1997.

FOR FURTHER INFORMATION CONTACT: Mr. David Bosworth at (703) 695-0970.

SUPPLEMENTARY INFORMATION:

The proposed rule was published on August 1, 1997, at 62 FR 41323. No comments were received, therefore, the rule is being adopted as published.

Executive Order 12866. It has been determined that this Privacy Act rule for the Department of Defense does not constitute "significant regulatory action". Analysis of the rule indicates that it does not have an annual effect on the economy of \$100 million or more; does not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; does not materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; does not raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

Regulatory Flexibility Act. It has been determined that this Privacy Act rule for the Department of Defense does not have significant economic impact on a substantial number of small entities because it is concerned only with the administration of Privacy Act systems of records within the Department of Defense.

Paperwork Reduction Act. It has been determined that this Privacy Act rule for the Department of Defense imposes no information requirements beyond the Department of Defense and that the information collected within the Department of Defense is necessary and consistent with 5 U.S.C. 552a, known as the Privacy Act, and 44 U.S.C. Foreword

The intent of the "McCain Bill" is to make available to the public information relating to America's unaccounted-for servicemembers, while still respecting the privacy and desires of the primary-next-of-kin.

The statute levies guidelines for reviewing, processing, and forwarding information for public review.

This booklet highlights the history and application of the McCain Bill legislation.

"The McCain Bill" A Brief History

On December 5, 1991, Congress enacted 50 USC § 435 Note as Public Law 102-190, commonly referred to as the McCain Bill. The statute requires the Secretary of Defense to make available to the public—in a "library like setting"—all information relating to the treatment, location, and/or condition (T-L-C) of United States personnel who are unaccounted-for from the Vietnam War. The facility chosen to receive this information is the Library of Congress (LoC). The Secretary of Defense is named as the "official custodian."

Prior to release of T-L-C information, the Department of Defense is required to obtain written consent from the primary-next-of-kin (PNOK) to release publicly such information. In the case of those unaccounted-for from the Vietnam era, letters were mailed to the 2,266 PNOKs; responses were received from 1,893. Of these, approximately 366 declined consent to release T-L-C information. Another 243 PNOKs were located but failed to respond. Each of these is, therefore, considered a PNOK "no" under the provisions of the statute. Following a reasonable search, 130 PNOKs could not be located. Based upon the pro-release intent of the statute, these 130 PNOKs were considered to have given their consent to release T-L-C information. A database was established reflecting PNOK responses and is updated as cases are resolved. Hard copy lists are provided to all offices of the federal government that deal with this issue. The Defense Prisoner of War/Missing Personnel Office (DPMO) continues to receive PNOK consent for release of information on the unaccounted-for.

Highlights

- McCain Bill also applies to photographs

Key things to remember

- Not an issue of classification
- "Pro release"
- T-L-C: ask the question?
- Consider PNOK Consent/Non-consent

Highlights

- The law **does not** apply to returnees and negotiated remains prior to December 1991.
- McCain **does not** apply once remains are repatriated, identified, and returned to the PNOK.

Highlights

- Names and Refnos of PNOK "no's" **can** be found in the LoC.
 - Lists of names/Refnos
- McCain **only** applies when information pertains to T-L-C.

The McCain Bill has been amended twice since it was originally signed. The first amendment was in the FY95 National Defense Authorization Act. This amendment incorporated the Korean and Cold War unaccounted-for under similar provisions as the Vietnam War unaccounted-for. However, the statute established the National Archives as the "library like setting" for this material and made the Archivist of the United States the "official custodian."

The second amendment was in the FY96 National Defense Authorization Act. This amendment established a 90-day period to locate and gain permission from the PNOK to release information regarding T-L-C of those unaccounted-for from the Korean/Cold War. (Note: *The 90-day rule applies only to Korea/Cold War.*) DPMO is developing a comprehensive database similar to the one established for the Vietnam War and will distribute the information once it has been completed.

The McCain Bill does not specifically direct declassification. Its "pro-release" intent does, however, imply such action to make the information available to the public. Compliance with the PNOK's non-consent does limit the Government's ability to release publicly all information containing T-L-C data that is declassified.

Treatment, Location, &/or Condition

Condition:

- Physical or mental condition
- Specific injuries
- Remains
- Non-biological evidence

Highlights

- The McCain Bill is not an issue of classification.
- The McCain Bill also applies to unclassified information.

(A) in the case of a person who is alive (and not incapacitated) and whose whereabouts are known, that person expressly consents in writing to the disclosure of the record or other information; or

(B) In the case of a person who is dead or incapacitated or whose whereabouts are unknown, a family member or family members of that person determined by the Secretary of Defense to be appropriate for such purpose expressly consent in writing to the disclosure of the record or other information.

(3) (A) The limitation on disclosure in paragraph (2) does not apply in the case of a person who is dead or incapacitated or whose whereabouts are unknown if the family member or members of that person determined pursuant to subparagraph (B) of that paragraph cannot be located by the Secretary of Defense -

(i) in the case of a person missing from the Vietnam era, after a reasonable effort; and

(ii) in the case of a person missing from the Korean Conflict or Cold War, after a period of 90 days from the date on which any record or other information referred to in paragraph (2) is received by the Department of Defense for disclosure review from the Archivist of the United States, the Library of Congress, or the Joint United States - Russian Commission on POW/MIA's.

(B) Paragraph (2) does not apply to the access of an adult member of the family of a person to any record or information to the extent that the record or other information relates to that person.

(C) The authority of a person to consent to disclosure of a record or other information for the purposes of paragraph (2) may be delegated to another person or an organization only by means of an express legal power of attorney granted by the person authorized by that paragraph to consent to the disclosure.

(c) DEADLINES - (1) In the case of records or other information originated by the Department of Defense, the official custodian shall make such records and other information available to the public pursuant to this section not later than January 2, 1996. Such records or other information shall be made available as soon as a review carried out for the purposes of subsection (b) is completed.

(2) Whenever a department or agency of the Federal Government receives any record or other information referred to in subsection (a) that is required by this section to be made available to the public, the head of that department or agency shall ensure that such record or other information is provided to the Secretary of Defense, and the Secretary shall make such record or other information available in accordance with subsection (a) as soon as possible and, in any event, not later than one year after the date on which the record or information is received by the department or agency of the Federal Government.

(3) If the Secretary of Defense determines that the disclosure of any record or other information referred to in subsection (a) by the date required by paragraph (1) or (2) may compromise the safety of any United States personnel referred to in subsection (a)(2) who remain not accounted for but who may still be alive in captivity, then the Secretary may withhold that record or other information from the disclosure otherwise required by this section. Whenever the Secretary makes a determination under the preceding sentence, the Secretary shall immediately notify the President and the Congress of that determination.

(d) DEFINITIONS - For purposes of this section:

(1) The terms "Korean conflict" and "Vietnam era" have the meanings given those terms in section 101 of title 38, United States Code.

(2) The term "Cold War" means the period from the end of World War II to the beginning of the Korean conflict and the period from the end of the Korean conflict to the beginning of the Vietnam era.

(3) The term "official custodian" is --

The Decision-making Process

Congress offered no formal guidelines for establishing review procedures necessary to determine whether information containing *"treatment," "location," and/or "condition"* may be released to the public. The following guidelines have been developed over many years based on experience, analysis of documents, and extensive legal counsel.

These guidelines have been applied to more than a million pages of information that has been released to the Library of Congress, family members, Congress, and interested individuals and groups through declassification efforts under Executive Order 12812, Freedom of Information requests, and the Mandatory Declassification Review process.

Definitions

TREATMENT, LOCATION and/or CONDITION

The words "treatment," "location," and/or "condition" appear in that paragraph of 50 United States Code Section 435 Note (referred to as the McCain Bill) that defines the class of information to which the public disclosure requirement is applicable. The words themselves are not further defined in the statute.

In accordance with the normal rules of statutory construction, we look to the plain meaning of the words in the context in which they appear. We also may consider the legislative intent which is intrinsically obvious in the legislation itself or is further evidenced in the legislative history of the provision (e.g., committee reports; speeches; debates; testimony; etc.). In this case, there is no legislative history that would suggest that anything other than the plain meaning of the words used was intended by the Congress.

Accordingly, as the agency charged with implementing the statute as it applies to Vietnam, Korean, and Cold War casualties, DPMO will apply the plain meaning standard. The purpose of the statute is to effect the public disclosure of information relevant to the resolution of the cases of the unaccounted-for persons. This is a pro-release piece of legislation with some restrictions. There should be no effort to apply further restrictive or artificially limiting meaning to the plain words.

It is not possible to provide an effective, all-encompassing definition of "treatment," "location," and/or "condition." Nevertheless, in work thus far we have developed examples for each category that may be helpful in one's analysis of specific materials. These examples are not exhaustive or exclusive, merely illustrative:

- TREATMENT**
- Circumstances of capture/internment
 - Medical treatment or lack thereof
 - Availability of food and water
 - Interrogation techniques/torture
 - Physical or mental abuse, threats, humiliation

History of the Law

First Amendment

- FY 95 National Defense Authorization Act
- Include Korea/Cold War

History of the Law

Second Amendment

- FY 96 National Defense Authorization Act
- 90-days to locate Korean/Cold War PNOK

KEY POINTS

50 United States Code
Section 435 Note

"The McCain Bill"

History of the Law

- Senator McCain
- 5 December 1991
- Vietnam
- Two Amendments

LOCATION

- * Identifiable geographic feature (river, lake, mountain)
- * Place name (village, city, hamlet - not province)
- * Prison camp site (Hanoi Hilton/Son Tay/Zoo)
- * Distance from a known point
- * 8 digit or greater UTM coordinate
- * GEOCOORDS (degrees/minutes/seconds)

CONDITION

- * Physical or mental condition (weak, malnourished, sick, feverish, delirious, coma)
- * Specific injuries (skull fracture, broken arm, gunshot or fragment wound, concussion, etc.)
- * Description of cause/circumstances of death
- * Remains (to include those referenced during a Joint Field Activity but not positively identified)
- * Non-biological evidence (such as that which implies the individuals did not exit the aircraft—e.g. ejection seat, parachute parts, other life support equipment)

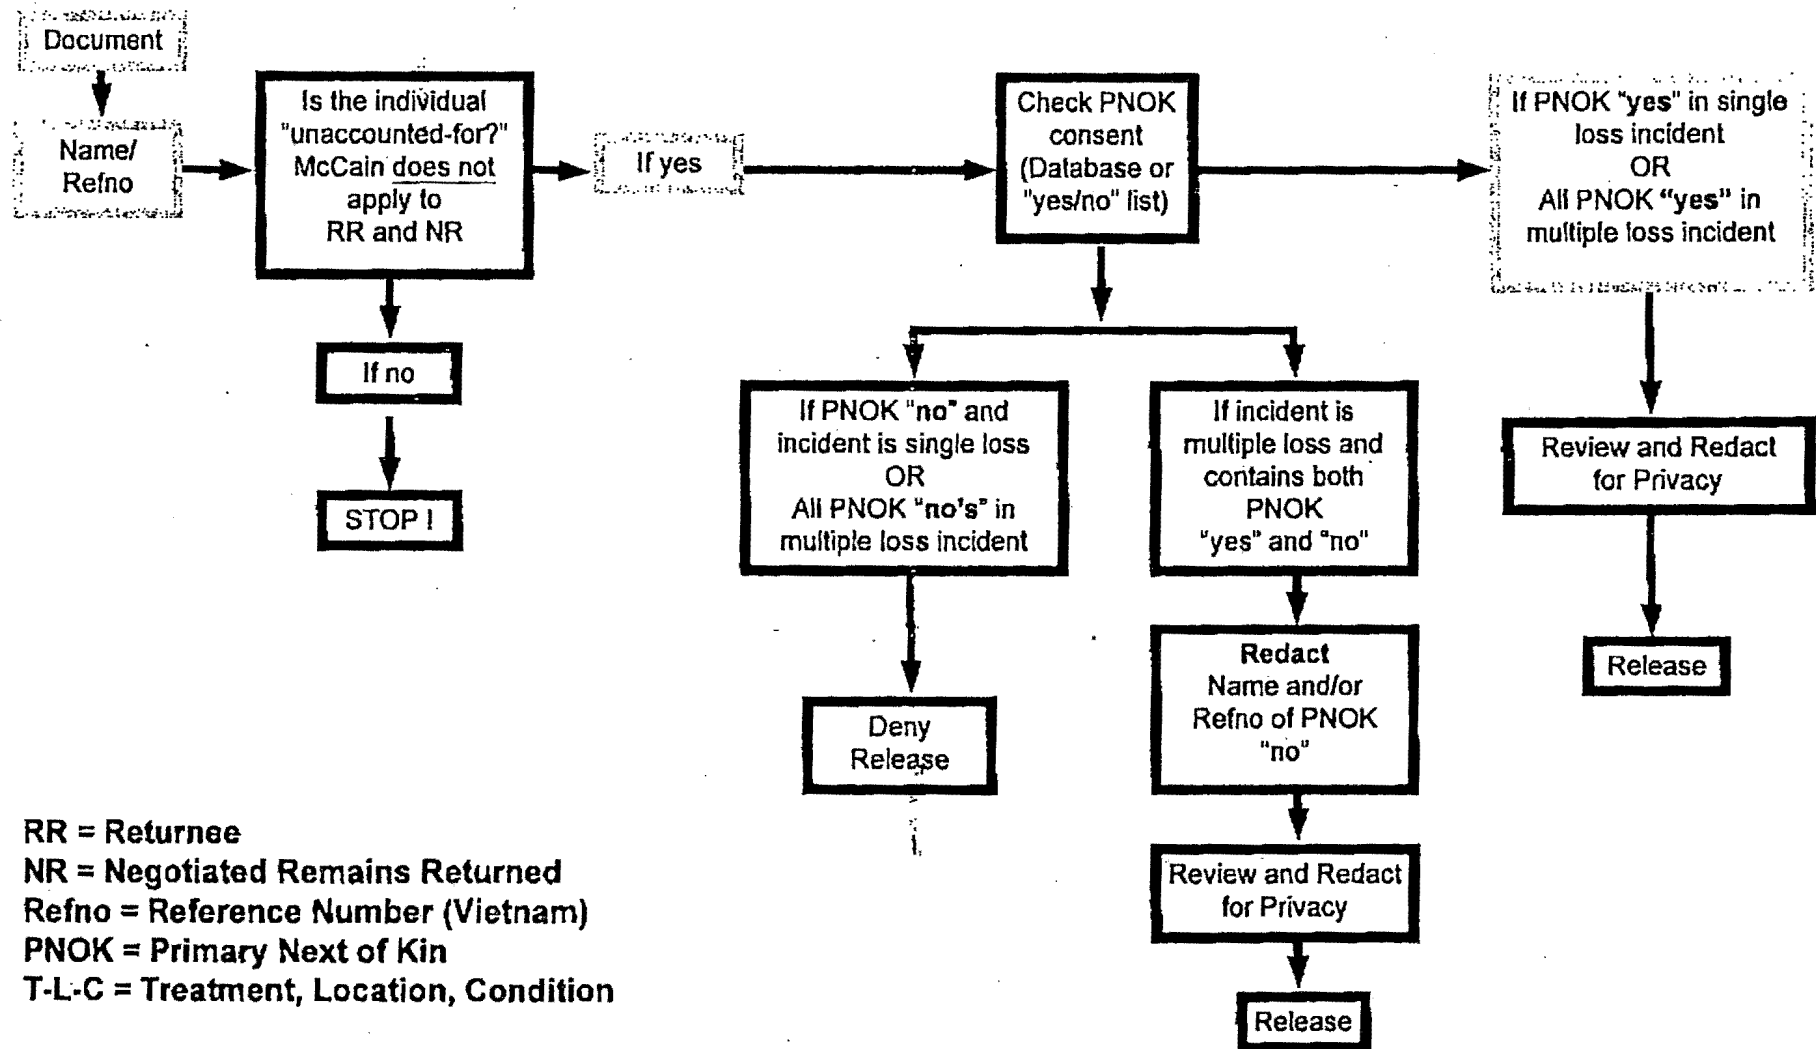

As the examples illustrate, information which is logically relevant to a determination of fate should be included among that which is subject to the disclosure requirements of the McCain provision as amended.

Questions are raised regarding the application of the word "dead" as it relates to the McCain Bill. In the usual context of our work, "dead" is a status, but it also can be descriptive of a condition. Information or evidence that a person is dead is clearly relevant to a determination of fate and that information is subject to the McCain provision when it arises in the descriptive context. For the purposes of DPMO's redaction work, we must apply a sensible rule. When we encounter the word dead, and it is clearly used in the context of a previously known status, as in a compilation listing casualties, then the reference may stand without application of the PNOK release rule. However, where it is used descriptively, such as in a witness statement, then the normal rules relative to the PNOK release are applicable.

DATE: 2 Mar 01

This record certifies the transfer of documents acquired by the Defense POW/MIA Office (DPMO) from the Russian Ministry of Defense Archives relating to unaccounted-for POW/MIAs from the Korean War era. These materials are copies of documents found in Russian (former Soviet) military archives on Soviet participation in the Korean War. The following Task Force Russia (TFR) documents have been transferred to the National Archives: TFRs 581 / 582 / 583 / 592 / 593 / 594 / 595 / 600 / 601 / 602 / 603 / 610 / 612 / 614 / 630 / 631 / 632 / 633 / 634. These documents and the summary are subject to 50 USC 435 (McCain Bill) and 5 USC Sec 552 (FOIA). The McCain Bill requires permission of the Primary next of Kin for release of information on an individual POW/MIA or the redaction of the name and service number. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them.

Mr Bosworth, here is batch two. I have attached the applicable Federal Register pages and a copy of the McCain Bill pamphlet. Sorry, you'll have to put it back together over there. It was printed on both sides and folded in half. I will send you the computer file of the summaries via e-mail. We'd like to take this all over to Rich Boylan at NARA on Friday, if possible. Documents acquired by the Defense POW/MIA Office (DPMO) from Russian Archives relating to unaccounted-for POW/MIAs from World War II, the Korean Conflict and the Cold War era. These materials are copies of documents in Russian (former Soviet) archives, letters from Soviet citizens, and Russian press reports/articles concerning POW/MIAs and America's search for them. These materials are Task Force Russia (TFR) documents numbers 68-69, 71-79, 109-110, 113-115, 117-126, 128--280, 282-293, 295-312, 314-340, 342-370, 372-386, 388-412, 414-422, 424-440, 442-467 in the original Russian. Some documents also have rough (NOT CERTIFIED) English translations. These materials also include several messages documenting interviews in Russia. Filed with these papers is a searchable WORD 97 file prepared by DPMO that provide date of receipt and source, if known, and a summary of the individual documents. The documents and the summaries are subject to 50 USC Sec 435 (McCain Bill) and 5 USC Sec 552 (FOIA). The McCain Bill requires permission of the Primary-Next of-Kin for release of information on an individual POW/MIA or redaction of the name and service number. Section 1031 of the National Defense Authorization Act for FY 1995 mandates the transfer of these documents to the National Archives, which is to serve as the "centralized repository" for them.

58578 Federal Register / Vol. 62, No. 213 / Tuesday, November 4, 1997 / Rules and Regulations

Effect of Director's Decision

Section 503 of SMCRA provides that a State may not exercise jurisdiction under SMCRA unless the State program is approved by the Secretary. Similarly, 30 CFR 732.17(a) requires that any alteration of an approved State program be submitted to OSM for review as a program amendment. The Federal regulations at 30 CFR 732.17(g) prohibit any unilateral changes to approved State programs. In the oversight of the Indiana program, the Director will recognize only the statutes, regulations and other materials approved by OSM, together with any consistent implementing policies, directives and other materials, and will require the enforcement by Indiana of only such provisions.

VI. Procedural Determinations

Executive Order 12868

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12868 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.13, and 732.17(h)(10),

decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously

promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

Unfunded Mandates

OSM has determined and certifies pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1502 et seq.) that this rule will not impose a cost of \$100 million or more in any given year on local, state, or tribal governments or private entities.

SUPPLEMENTARY INFORMATION:

The proposed rule was published on August 1, 1997, at 62 FR 41323. No comments were received, therefore, the rule is being adopted as published.

Executive Order 12866. It has been determined that this Privacy Act rule for the Department of Defense does not constitute "significant regulatory action". Analysis of the rule indicates that it does not have an annual effect on the economy of \$100 million or more; does not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; does not materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; does not raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

Regulatory Flexibility Act. It has been determined that this Privacy Act rule for the Department of Defense does not have significant economic impact on a substantial number of small entities because it is concerned only with the administration of Privacy Act systems of records within the Department of Defense.

Paperwork Reduction Act. It has been determined that this Privacy Act rule for the Department of Defense imposes no information requirements beyond the Department of Defense and that the information collected within the Department of Defense is necessary and consistent with 5 U.S.C. 552a, known as the Privacy Act, and 44 U.S.C. Chapter 35.

NOTES

Foreword

The intent of the "McCain Bill" is to make available to the public information relating to America's unaccounted-for servicemembers, while still respecting the privacy and desires of the primary-next-of-kin.

The statute levies guidelines for reviewing, processing, and forwarding information for public review.

This booklet highlights the history and application of the McCain Bill legislation.

"The McCain Bill" A Brief History

On December 5, 1991, Congress enacted 50 USC § 435 Note as Public Law 102-190, commonly referred to as the McCain Bill. The statute requires the Secretary of Defense to make available to the public—in a "library like setting"—all information relating to the treatment, location, and/or condition (T-L-C) of United States personnel who are unaccounted-for from the Vietnam War. The facility chosen to receive this information is the Library of Congress (LoC). The Secretary of Defense is named as the "official custodian."

Prior to release of T-L-C information, the Department of Defense is required to obtain written consent from the primary-next-of-kin (PNOK) to release publicly such information. In the case of those unaccounted-for from the Vietnam era, letters were mailed to the 2,266 PNOKs; responses were received from 1,893. Of these, approximately 366 declined consent to release T-L-C information. Another 243 PNOKs were located but failed to respond. Each of these is, therefore, considered a PNOK "no" under the provisions of the statute. Following a reasonable search, 130 PNOKs could not be located. Based upon the pro-release intent of the statute, these 130 PNOKs were considered to have given their consent to release T-L-C information. A database was established reflecting PNOK responses and is updated as cases are resolved. Hard copy lists are provided to all offices of the federal government that deal with this issue. The Defense Prisoner of War/Missing Personnel Office (DPMO) continues to receive PNOK consent for release of information on the unaccounted-for.

Highlights

- McCain Bill also applies to photographs

Key things to remember

- Not an issue of classification
- "Pro release"
- T-L-C: ask the question?
- Consider PNOK Consent/Non-consent

Highlights

- The law **does not** apply to returnees and negotiated remains prior to December 1991.
- McCain **does not** apply once remains are repatriated, identified, and returned to the PNOK.

Highlights

- Names and Refnos of PNOK "no's" **can** be found in the LoC.
 - Lists of names/Refnos
- McCain **only** applies when information pertains to T-L-C.

The McCain Bill has been amended twice since it was originally signed. The first amendment was in the FY95 National Defense Authorization Act. This amendment incorporated the Korean and Cold War unaccounted-for under similar provisions as the Vietnam War unaccounted-for. However, the statute established the National Archives as the "library like setting" for this material and made the Archivist of the United States the "official custodian."

The second amendment was in the FY96 National Defense Authorization Act. This amendment established a 90-day period to locate and gain permission from the PNOK to release information regarding T-L-C of those unaccounted-for from the Korean/Cold War. (*Note: The 90-day rule applies only to Korea/Cold War.*) DPMO is developing a comprehensive database similar to the one established for the Vietnam War and will distribute the information once it has been completed.

The McCain Bill does not specifically direct declassification. Its "pro-release" intent does, however, imply such action to make the information available to the public. Compliance with the PNOK's non-consent does limit the Government's ability to release publicly all information containing T-L-C data that is declassified.

50 United States Code Section 435 Note

DISCLOSURE OF INFORMATION CONCERNING UNACCOUNTED FOR UNITED STATES PERSONNEL OF THE COLD WAR, THE KOREAN CONFLICT, AND THE VIETNAM ERA.

(a) PUBLIC AVAILABILITY OF INFORMATION - (1) Except as provided in subsection (b), the Secretary of Defense shall, with respect to any information referred to in paragraph (2), place the information in a suitable library-like location within a facility within the National Capital region for public review and photocopying.

(2) Paragraph (1) applies to any record, live-sighting report, or other information in the custody of the official custodian referred to in subsection (d) (3) that may pertain to the location, treatment, or condition of (A) United States personnel who remain not accounted for as a result of service in the Armed Forces or other Federal Government service during the Korean conflict, the Vietnam era, or the Cold War, or (B) their remains.

(b) EXCEPTIONS - (1) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if -

(A) the record or other information is exempt from the disclosure requirements of section 552 of title 5, United States Code, by reason of subsection (b) of that section; or

(B) the record or other information is in a system of records exempt from the requirements of subsection (d) of section 552a of such title pursuant to subsection (j) or (k) of that section.

(2) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if the record or other information specifically mentions a person by name unless -

Highlights

- Name and Reference Number (Refno) are treated the same.

Highlights

- The McCain Bill applies to all material released by DoD.
- Includes material generated in the *past*, that which is produced in the *present*, and any which may be developed in the *future*.

Treatment, Location, &/or Condition

Condition:

- Physical or mental condition
- Specific injuries
- Remains
- Non-biological evidence

Highlights

- The McCain Bill is not an issue of classification.
- The McCain Bill also applies to unclassified information.

(A) in the case of a person who is alive (and not incapacitated) and whose whereabouts are known, that person expressly consents in writing to the disclosure of the record or other information; or

(B) in the case of a person who is dead or incapacitated or whose whereabouts are unknown, a family member or family members of that person determined by the Secretary of Defense to be appropriate for such purpose expressly consent in writing to the disclosure of the record or other information.

(3) (A) The limitation on disclosure in paragraph (2) does not apply in the case of a person who is dead or incapacitated or whose whereabouts are unknown if the family member or members of that person determined pursuant to subparagraph (B) of that paragraph cannot be located by the Secretary of Defense -

- (i) in the case of a person missing from the Vietnam era, after a reasonable effort; and
- (ii) in the case of a person missing from the Korean Conflict or Cold War, after a period of 90 days from the date on which any record or other information referred to in paragraph (2) is received by the Department of Defense for disclosure review from the Archivist of the United States, the Library of Congress, or the Joint United States - Russian Commission on POW/MIA's.

(B) Paragraph (2) does not apply to the access of an adult member of the family of a person to any record or information to the extent that the record or other information relates to that person.

(C) The authority of a person to consent to disclosure of a record or other information for the purposes of paragraph (2) may be delegated to another person or an organization only by means of an express legal power of attorney granted by the person authorized by that paragraph to consent to the disclosure.

(c) DEADLINES - (1) In the case of records or other information originated by the Department of Defense, the official custodian shall make such records and other information available to the public pursuant to this section not later than January 2, 1996. Such records or other information shall be made available as soon as a review carried out for the purposes of subsection (b) is completed.

(2) Whenever a department or agency of the Federal Government receives any record or other information referred to in subsection (a) that is required by this section to be made available to the public, the head of that department or agency shall ensure that such record or other information is provided to the Secretary of Defense, and the Secretary shall make such record or other information available in accordance with subsection (a) as soon as possible and, in any event, not later than one year after the date on which the record or information is received by the department or agency of the Federal Government.

(3) If the Secretary of Defense determines that the disclosure of any record or other information referred to in subsection (a) by the date required by paragraph (1) or (2) may compromise the safety of any United States personnel referred to in subsection (a)(2) who remain not accounted for but who may still be alive in captivity, then the Secretary may withhold that record or other information from the disclosure otherwise required by this section. Whenever the Secretary makes a determination under the preceding sentence, the Secretary shall immediately notify the President and the Congress of that determination.

(d) DEFINITIONS - For purposes of this section:

(1) The terms "Korean conflict" and "Vietnam era" have the meanings given those terms in section 101 of title 38, United States Code.

(2) The term "Cold War" means the period from the end of World War II to the beginning of the Korean conflict and the period from the end of the Korean conflict to the beginning of the Vietnam era.

(3) The term "official custodian" is --

The Decision-making Process

Congress offered no formal guidelines for establishing review procedures necessary to determine whether information containing *"treatment," "location," and/or "condition"* may be released to the public. The following guidelines have been developed over many years based on experience, analysis of documents, and extensive legal counsel.

These guidelines have been applied to more than a million pages of information that has been released to the Library of Congress, family members, Congress, and interested individuals and groups through declassification efforts under Executive Order 12812, Freedom of Information requests, and the Mandatory Declassification Review process.

Definitions

TREATMENT, LOCATION and/or CONDITION

The words "treatment," "location," and/or "condition" appear in that paragraph of 50 United States Code Section 435 Note (referred to as the McCain Bill) that defines the class of information to which the public disclosure requirement is applicable. The words themselves are not further defined in the statute.

In accordance with the normal rules of statutory construction, we look to the plain meaning of the words in the context in which they appear. We also may consider the legislative intent which is intrinsically obvious in the legislation itself or is further evidenced in the legislative history of the provision (e.g., committee reports; speeches; debates; testimony; etc.). In this case, there is no legislative history that would suggest that anything other than the plain meaning of the words used was intended by the Congress.

Accordingly, as the agency charged with implementing the statute as it applies to Vietnam, Korean, and Cold War casualties, DPMO will apply the plain meaning standard. The purpose of the statute is to effect the public disclosure of information relevant to the resolution of the cases of the unaccounted-for persons. This is a pro-release piece of legislation with some restrictions. There should be no effort to apply further restrictive or artificially limiting meaning to the plain words.

It is not possible to provide an effective, all-encompassing definition of "treatment," "location," and/or "condition." Nevertheless, in work thus far we have developed examples for each category that may be helpful in one's analysis of specific materials. These examples are not exhaustive or exclusive, merely illustrative:

- TREATMENT**
- * Circumstances of capture/internment
 - * Medical treatment or lack thereof
 - * Availability of food and water
 - * Interrogation techniques/torture
 - * Physical or mental abuse, threats, humiliation

History of the Law

First Amendment

- FY 95 National Defense Authorization Act
 - Include Korea/Cold War

History of the Law

Second Amendment

- FY 96 National Defense Authorization Act
 - 90-days to locate Korean/Cold War PNOK

**KEY
POINTS**

50 United States Code
Section 435 Note

"The McCain Bill"

History of the Law

- Senator McCain
- 5 December 1991
- Vietnam
- Two Amendments

LOCATION

- * Identifiable geographic feature (river, lake, mountain)
- * Place name (village, city, hamlet - not province)
- * Prison camp site (Hanoi Hilton/Son Tay/Zoo)
- * Distance from a known point
- * 6 digit or greater UTM coordinate
- * GEOCOORDS (degrees/minutes/seconds)

CONDITION

- * Physical or mental condition (weak, malnourished, sick, feverish, delirious, coma)
- * Specific injuries (skull fracture, broken arm, gunshot or fragment wound, concussion, etc.)
- * Description of cause/circumstances of death
- * Remains (to include those referenced during a Joint Field Activity but not positively identified)
- * Non-biological evidence (such as that which implies the individuals did not exit the aircraft—e.g. ejection seat, parachute parts, other life support equipment)

As the examples illustrate, information which is logically relevant to a determination of fate should be included among that which is subject to the disclosure requirements of the McCain provision as amended.

Questions are raised regarding the application of the word "dead" as it relates to the McCain Bill. In the usual context of our work, "dead" is a status, but it also can be descriptive of a condition. Information or evidence that a person is dead is clearly relevant to a determination of fate and that information is subject to the McCain provision when it arises in the descriptive context. For the purposes of DPMO's redaction work, we must apply a sensible rule. When we encounter the word dead, and it is clearly used in the context of a previously known status, as in a compilation listing casualties, then the reference may stand without application of the PNOK release rule. However, where it is used descriptively, such as in a witness statement, then the normal rules relative to the PNOK release are applicable.
