**RECOMMENDATION TO THE ARCHIVIST ON RECORDS  
DISPOSITION REQUEST**

JOB NUMBER  
N1-319-88-3  
ITEM COUNT  
14

**SUMMARY**

The Department of the Army submits this schedule to cover our appraisal of records of the Assistant Chief of Staff for Intelligence (ACSI) located in the Washington National Records Center. These records cover some of the most important policies, plans, and activities of the U.S. Army in the field of intelligence from 1940 to 1965. All of the records on this schedule warrant permanent preservation because of their archival and historical value.

I recommend approval of this job.

**RECOMMENDATION**

1. **APPROVED FOR DISPOSAL.** The records described under all items of the schedule, except those that may be listed in blocks 2, 3, and 4 of this section, are disposable because they do not, or will not after the lapse of the period specified, have sufficient administrative, legal, research, or other value to warrant their continued preservation by the Government.
2. **APPROVED FOR PERMANENT RETENTION.** The records described under the following item or items have been appraised by the National Archives and Records Administration (NARA) and are determined to have sufficient historical or other value to warrant their continued preservation by the United States Government. The agency will offer these records to the National Archives as specified.  
Items 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, and 14.
3. **DISPOSITION NOT APPROVED.** The records described under the following item or items are not approved for disposition.
4. **WITHDRAWN.** The records described under the following item or items have been withdrawn at the request of the agency and/or NARA.

Processing comments: These records should be processed as soon  
as possible, so that they can be reviewed for declassification.  
Because of the nature of the originating agency and the subject  
matter, some of the more recent material may remain classified.  
The records include correspondence files, subject files,  
administrative files, domestic intelligence reports, attache  
files and records covering specific areas and topics, all  
concerning Military Intelligence (G-2) at the Army Staff level.  
Two accessions (WNRC 319-66A3219, boxes 321-345, and 319-  
64A2224, boxes 150-154) are 3" x 5" cards which index previously  
accessioned cables (NN3-319-85-04). The records are largely in  
good shape, but some series contain a high proportion of unstable  
copies.

# INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

## INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

## INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

## ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

## ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

## ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

## ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

## ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

## ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

## ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

## ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

Access Restriction:

National Security Classification: NSI - SECRET (Includes records downgraded from TOP SECRET)

Finding Aids:

Priority for Series Description: II

Processing comments: These records should be processed as soon as possible, so that they can be reviewed for declassification. Because of the nature of the originating agency and the subject matter, some of the more recent material may remain classified. The records include correspondence files, subject files, administrative files, domestic intelligence reports, attache files and records covering specific areas and topics, all concerning Military Intelligence (G-2) at the Army Staff level. Two accessions (WNRC 319-66A3219, boxes 321-345, and 319-64A2224, boxes 150-154) are 3" x 5" cards which index previously accessioned cables (NN3-319-85-04). The records are largely in good shape, but some series contain a high proportion of unstable copies.

The records described above and on the attached pages are hereby offered for deposit with the National Archives of the United States in accordance with 44 U.S.C. 2103. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 41 C.F.R. 101-11.411, 41 C.F.R. 105-61, and such other rules or regulations as may be prescribed by the Administrator of General Services or the Archivist of the United States. Unless specified and justified above, there are no restrictions on the use of these records other than the general and specific record group restrictions on the use of records in the National Archives of the United States that have been published in 41 C.F.R. 105-61.53 or in the *Guide to the National Archives of the United States*. The Archivist of the United States may destroy, donate, or otherwise dispose of any containers, duplicate records, unused forms, blank stationery, nonarchival printed or processed material, or other nonrecord material in any manner authorized by law or regulation without further consent of this agency. I certify that any restrictions specified by this agency on the use of these records are in conformance with the requirements of 5 U.S.C. 552 and that I am authorized by the head of this agency to act for the agency on matters pertaining to the disposition of agency records.

# INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

## INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

## INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

## ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

## ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

## ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

## ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

## ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

## ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

## ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

## ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

National Security Classification: NSI - SECRET (Includes records downgraded from TOP SECRET)

Finding Aids:

Priority for Series Description: II

Processing comments: These records should be processed as soon as possible, so that they can be reviewed for declassification. Because of the nature of the originating agency and the subject matter, some of the more recent material may remain classified. The records include correspondence files, subject files, administrative files, domestic intelligence reports, attache files and records covering specific areas and topics, all concerning Military Intelligence (G-2) at the Army Staff level. Two accessions (WNRC 319-66A3219, boxes 321-345, and 319-64A2224, boxes 150-154) are 3" x 5" cards which index previously accessioned cables (NN3-319-85-04). The records are largely in good shape, but some series contain a high proportion of unstable copies.

ADMINISTRATIVE HISTORY: Three sections of the Requirements Branch (Operations, Returnee, and Special Procurement) were assigned to the new Operations Branch as of July 7, 1952, by authority of Collection and Dissemination Division Memorandum No.6, dated July 3, 1952. The mission of the Operations Branch

is the formulation of policy, principles, and concepts pertaining to clandestine collection of intelligence, counterespionage, and related sensitive activities throughout the Army. The Branch also directs world-wide Army participation in the clandestine collection of intelligence, counterespionage operations, and the Defector Program.

**8a. ARRANGEMENT STATEMENT:** Arranged in three sections: 1)  
arranged by War Department Decimal Classification System,  
thereunder alphabetically by subheading (if given), and  
thereunder chronologically by date of document (circa 1946-1960).  
2) Arranged sequentially by folder number (circa 1948-1958).  
This system used three and four digit numbers assigned in  
sequential order to groups of records relating to one subject.  
The folders were given no title other than the file number. Some  
of these numbers were later converted to the third arrangement  
system.

3) Arranged by Operations Branch decimal classification  
system (circa 1959-1963). This system uses 23 general subject  
headings followed by decimal numbers indicating more specific  
subjects. For example, 22 is "Technical Aids, General" and 22.1  
while 22.1 is "Electronics" and 22.2 is "Photography".

**14. RECORD UNIT DESCRIPTION:** This series provides important documentation on the internal political affairs of foreign countries, the combat readiness and efficiency of foreign military forces against subversive activity and Communist infiltration, and the relationship of these countries with members of the foreign diplomatic corps from 1941, until the early 1960's. The bulk of this information was provided by U.S. Army attaches for the Assistant Chief of Staff, Intelligence (ACSI). Military attaches served as liaison officers with the governments to which they were accredited and sought to obtain, evaluate, and report all intelligence information of military significance which had, or could have, a bearing upon the national security or geo-political situation of the United States. Besides dispatches and cables, the series contains correspondence, miscellaneous photographs, situation and geo-political maps, and 29 rolls of 35 mm negative microfilm that reproduce various weekly intelligence bulletins and special reports. Of special interest among the records are photographs (12 B/W photos, 8x10) and statements concerning the Katyn Forest Massacre of Polish officers that occurred in Austria during World War II.

This series consists primarily of weekly and monthly intelligence

reports concerning individuals and organizations that were considered subversive or that had the potential for unrest. There are three different kinds of reports: one that covers only current events, with no local intelligence added; a second that covers intelligence gained on local subversive organizations and individuals; and a third that contains reports of surveillance of suspected subversives in the Army. The second type of report is the most substantial and were primarily collected in the Army Area Commands. Typically these reports cover the Communist Party, Civil Rights and labor organizations. In a few areas, reports on Ku Klux Klan activities are included. At least one command (the Third Army Area) included reports on the B'nai B'rith.^R

Reply to  
Attn of : NNTA-S

Subject : GRS Disposal of Records in NN-319-90-1<sup>3</sup>

To : NNT through NNTA

I am requesting internal disposal under the General Records Schedule (GRS) for four cubic feet of extracted housekeeping and other records originally accessioned under Job NN3-319-90-1. The records are those of the Army Attache Office within the office of the Assistant Chief of Staff for Intelligence. The records consist of vouchers, packing lists, supply orders, miscellaneous petty cash transactions and similar types of records. In general these records are covered under both GRS 3/3 (Routine Procurement Files) 9/1 (Freight and Passenger Transportation Files).

Job N2-AU-92-1 authorizes the destruction of records of this type except Army elements whose mission was to gather or evaluate intelligence and/or engage in counter-intelligence. It seems clear that these records were created and maintained by an intelligence element (the AC of S for Intelligence) and therefore do not fall under the provisions of N2-AU-92-1. It also seems clear that these records are housekeeping ones of the most routine type. I therefore recommend that NIR contact the Archivist of the Army for specific authorization to destroy these particular records under GRS authorities.

I have attached some samples of the records proposed for destruction.

Washington, DC 20310-0107

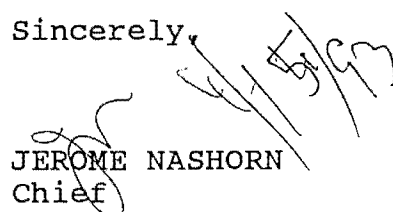

Dear Bill:

During review of accessioned records of the Army Attache Office, Office of the Assistant Chief of Staff for Intelligence, in preparation for the move to Archives II, NARA staff located certain files that do not warrant permanent retention. These records are covered by several General Records Schedule items and consist of vouchers, packing lists, supply orders, and documentation of petty cash transactions.

In accordance with Section 3303a(e) of 44 U.S.C., we request your concurrence in the immediate destruction of these records. If you concur, please sign this letter and return it to me. (Disposition Job N2-AU-92-1, which authorizes NARA to destroy accessioned records that are disposable in MARKS or the GRS, cannot be applied to these records since they were accumulated by an intelligence-related organization.)

If you have any questions, please let me know.

Sincerely,

  
JEROME NASHORN

REMARKS Job No. NN3-319-90-1.

The purpose of this 14044 is to report the disposal of four FRC boxes of GRS material from the above noted Job. This disposal was requested by NNTA-S on March 3, 1993. The Army concurred by memorandum on May 9, 1995.

A copy of this job has been submitted to NNTR for the purpose of updating the MLR.

Attn of : Don McIlwain, NNTA-S  
Subject : Internal Disposal of RG 319 Records  
To : NNTA-S

As requested, I have disposed of four FRC-S boxes of records from the Army Attache Office, Office of the Assistant Chief of Staff for Intelligence that were accessioned under Job NN3-319-90-1. These records are disposable under GRS 3, item 1 and GRS 9, item 1. Concurrence from the Army to destroy these records was obtained by memorandum on May 9, 1995. Because these records were segregated in anticipation of their disposal and DCF's were not completed, the MLR does not need to be updated. I have attached an NA Form 14044 to account for the change of holdings.

Please let me know if you have any questions regarding this matter.

# INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

## INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

## INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E, and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

## ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

## ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

## ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

## ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

## ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

## ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

## ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

## ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

REMARKS Job No. NN3-472-92-002. Accretion to the series "Historical Files on the Special Forces in the Vietnamese War," previously submitted by Lori Lisowski in NNTR-S-92-041. Included is an updated x form for the specific series, as well as a folder list for the boxes included in this accretion. Records are category V of the Survey of Descriptive Control of August 1988.

Records originally thought to be RG 472, however, upon examination, it was discovered that they in fact were an accretion to the former series.

Scope & Content: The imminent collapse of the U.S.-backed governments in South Vietnam and Cambodia in April 1975 triggered an exodus of refugees. Operations NEW LIFE and NEW ARRIVALS were concurrent, overlapping parts of the U.S. military's response to

that exodus. This series documents the U.S. Army's role within the two operations, which was to provide housing, food, clothing, medical treatment, and security for the refugees. The army ran it's refugee reception and staging area at Orote Point, Guam under Operation NEW LIFE, and its refugee reception centers in the continental U.S.--at Ft. Chaffee, Arkansas and Ft. Indiantown Gap, Pennsylvania--under Operation NEW ARRIVALS. Copies of the Army's final draft after action report , the General Accounting Office's report to Congress assessing management problems during the operations, and the monograph New Life and New Arrivals: Army Support of the Indochinese Refugee Program are also included.

Of the approximately 160 photographs in this series, 80 relate to Vietnamese on Guam waiting for repatriation, including images of damage done protesting delays in repatriation; 20 are of President Gerald Ford's visit to the Fort Chaffee, Arkansas refugee center; and 60 are unidentified photographs showing army personnel preparing for refugee arrival and refugees in various stages of processing.

Scope & Content: The Joint Refugee Information Clearing Office (JRICO) was part of the U.S. military's response to the exodus of Indochinese refugees that began as the fall of U.S. backed governments in Vietnam and Cambodia became evident in April 1975. This series documents the actions of JRICO's Army element in

carrying out the mission of providing information on requirements and procedures for becoming sponsors of refugees, as well as on the status and location of specific refugees; and conducting direct liaison with the Interagency Task Force (IATF) and access to IATF refugee data base, the Office of the Secretary Defense, refugee centers, and voluntary agencies. (The Interagency Task Force coordinated all U.S. Government activities concerning the evacuation of U.S. citizens, Vietnamese citizens, and third country nationals from South Vietnam, humanitarian assistance to Vietnamese refugees, and resettlement problems relating to the Vietnam conflict.) In addition to administrative matters and correspondence with refugees, potential and actual sponsors, and other agencies, the series includes discussions of the possibility of refugees enlisting in the U.S. Armed Forces.

Subject : Disposal from accession 319-78-52  
To : Memo for the Record

Folder 123 from box 7 of accession 319-78-52 contained "tapes of various chapters" of rough drafts of General Westmoreland's reports on his years as Chief of Staff of the Army. I found these tapes to be blank, and disposed of them in accordance with N2-AU-92-1.

Scope & Content: This series consists of records of investigations into some of the soldiers accused of participation in the My Lai Massacre. There are files on Max D. Hutson, Esequiel Torres, William F. Doherty, Robert T'Souvas, Charles E. Hutto, and Gerald Smith. The files were compiled at Fort McPherson, Georgia, where the Army authorized the consolidation of all potential cases arising out of the massacre. The files on Hutson, Torres, Doherty, and T'Souvas include memoranda for the record written by staff members of the Ft. McPherson Staff Judge Advocate Office, summarizing the course of the investigation, describing the records included in the file, and explaining the reasons for the withdrawal and dismissal of the charges.

The series also includes volume 10 of the transcript of the trial of Ernest L. Medina.

Scope & Content: The records of this series were created during the tenure of Major General Richard G. Trefry, who served as both Deputy Chief, Joint United States Military Advisory Group, (DEPCHJUSMAG) Udorn, Thailand and Defense Attache, Vientiane, Laos. Most of the records are about events in Laos. Major topics include flights of, the phase-out of, and the search for a successor to, Air America; the use and phase-out of Thai Special Guerilla Units (SGU); evaluations of the Laotian political and military situation, and the logistics of US support; construction projects; the organization and funding of the offices of DEPCHJUSMAG, Udorn and the Defense Attache Office (DAO), Vientiane, and details of the types and amounts of aid given for Laos given the terms of the Laotian cease fire agreement, US aid reductions, and the signing of the Paris cease fire agreement that ended the Vietnam War.

Agency History: The DAO, Laos acted as the principal military advisor to the US Ambassador to Laos, supervised all military and political-military intelligence functions in Laos, and managed the Military Assistance Service Funded Program/Military Assistance Program (MASF/MAP) for Laos under the Commander in Chief, Pacific (CINCPAC).

The DEPCHJUSMAG, Thailand assisted and supported the DAO, Laos in the implementation of the Military Assistance Service Funded Program/Military Assistance Program (MASF/MAP) for Laos.

Scope & Content: This series consists of background material used for writing the published report on General William C Westmoreland's tour of duty as Army Chief of Staff, Report of the Chief of Staff of the US Army, 1 July 1968-30 June 1972. Most of the background material is made up of drafts of two unpublished reports on General Westmoreland's tenure, The United States Army-In Defense of a Nation, 1968-1970, and Perspectus: The Army in Transition, 1968-1972. Some of the drafts have Westmoreland's written comments and corrections. The series also includes input on the drafts from staff agencies, and a wide variety of published and unpublished material consulted during the preparation of the reports.

The draft reports offer overviews of the Westmoreland years, "using staff developed narratives as the basis for describing issues, problems, and achievements." Topics covered include the Vietnam War, developments overseas and in continental commands, the effects of domestic/civilian controversies on Army personnel and policies, modernization, and management culture.

**Subject:** Mystery Tapes

Ira --

Your probably thought that we had forgotten about the twenty Memorex tapes you located in the records center with the background material to General Westmoreland's Report on his four years as Chief of Staff of the Army, 1968-72. I feel that we have exhausted the available technical resources to identify the tapes. We circulated photos of the tapes among media specialists in the DC area and at a technical conference in California in an effort to locate someone who could identify the hardware associated with the tape. Unfortunately, our best efforts resulted in only the speculation that these tapes were removable media for an early version of a word processing typewriter like the Wang Writer or the IBM Display Writer. I feel confident in concluding that these tapes are now technologically obsolete. This obsolescence makes the tapes no longer appropriate for continued preservation by the Federal Government and thus conceivably not covered by the definition of the Federal Record in 44 USC 3101. Consequently, the twenty tapes should be destroyed.

What do you want me to do with Tape 15 which you provide me? Return it to you?

When you went through the CIDS rotation here, we said that main purpose was to ensure that NARA archivists contact us when they open a box and discover electronic media. I am certainly glad that you learned that lesson well. I hope that our inability to solve the problems with these mystery tapes will not keep you from contacting us again if and when a similar situation arises.

Ira - -

Welcome back to the world of Archives II and freedom from the fifteen ladders in Suitland.

As far as the Westmoreland tapes go, they should be de-gaussed. So if you would bring them to Tom Hanson (the head of Technical Services in Fynnette's old office), he will arrange for them to be de-gaussed and then we will physically get rid of them when we junk other tapes. OK?

>>> Ira Kirshenbaum 11/10/99 01:29PM >>>

Hi Tom,

Now that I'm off the WNRC Project, I'm able to turn my attention back to real work. One such item is a group of unidentified Memorex tapes from some records of then Army Chief of Staff William Westmoreland. As you may recall, you gave me the ok to dispose of those tapes back in February.

Is there any special, non-textual disposal procedures to follow? Could or should the tapes be combined with electronic records that you folks are getting rid of?

**CC:** Thomas Hanson

MFR: Tapes dropped off on Tom Hanson's desk on 11/17/99 at about 10:40 AM.

Scope & Content: This series consists of records relating to administration and operations of the United States Army. The summary sheets (DA Form 520) were used to briefly present staff actions, to transmit staff actions, to document the coordination of staff actions and the decisions made on them, to inform originators of these decisions, and to transmit actions requiring decisions by or for the Chief of Staff of the Army or the Secretary of the Army.

Significant portions of this series were held by the U.S. Army Center for Military History (CMH) before transfer to the National Archives and Records Administration. CMH removed records from their original administrative provenance and order for research purposes, combining them into single subject groupings while adding additional records from other staff agencies of the Department of the Army. Therefore, the original provenance of this records, as maintained in the immediate Office of the Chief of Staff, cannot be reconstructed with full certainty.

Agency History: The duties of the Chief of Staff of the Army are set forth in Section 3034 (c) and (d), Title 10, United States Code, which directs that the Chief of Staff perform his duties under the direction of the Secretary of the Army to whom he is responsible for the efficiency of the Army and its preparedness

for military operations. The Chief of Staff, the senior officer of the U.S. Army, presides over the Army staff, sends plans and recommendations of the staff to the Secretary of the Army, acts as agent of the Secretary in implementing plans and recommendations, and exercises supervision over members and organizations of the U.S. Army as directed by the Secretary. In addition, the Chief of Staff of the Army is a member of the Joint Chiefs of Staff and the Armed Forces Policy Council. In his role as a member of the Joint Chiefs of Staff, he acts independently of the Secretary of the Army.

Included within the immediate office of the Chief of Staff, until 1974, were the Vice Chief of Staff and the Secretary of the General Staff. The Chief of Staff, the Vice Chief of Staff, and the Secretary of the General Staff acted as a single corporate body in administering and managing the Army staff.

The Vice Chief of Staff was the principal assistant and advisor to the Chief of Staff. By delegation of the Chief of Staff, the Vice Chief of Staff had the authority to perform any statutory or other duties which the Chief of Staff is required or authorized to perform. Section 3035 (c), Title 10, United States Code, further stipulated that orders issued by the Vice Chief of Staff in performing such duties had the same effect as those issued by the Chief of Staff. The Vice Chief of Staff was also responsible for the effective administration and management of the Army staff, and ensured coordination of the deputy chiefs of staff and the heads of Army staff agencies reporting to the Chief of Staff.

The Secretary of the General Staff was the executive assistant to the Chief of Staff and the Vice Chief of Staff and assisted the Vice Chief of Staff in the management and coordination of Army staff activities and coordinated all activities of the immediate office of the Chief of Staff. He also supervised the activities of the Deputy Secretaries of the General Staff. On May 20, 1974, pursuant to Department of the Army General Order 10, May 8, 1974, the position of the Secretary of the General Staff was combined with that of the Assistant Vice Chief of Staff to form that of the Director of the Army Staff.

Scope & Content: This artificially created series results from the U.S. Army Center for Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH removed records from the Office of the Chief of Staff of the Army; Headquarters, United States Army, Pacific

(USARPAC); the Office of the Deputy Chief of Staff for Logistics (ODSCLOG); and other offices for research purposes, combining them into a single subject grouping while adding additional records unique to CMH. Therefore the original administrative provenance and order cannot be ascertained or reconstructed.

Major topics include the Tet Offensive; psychological operations, including examples of leaflets dropped by both the US and North Vietnam; logistics, including details of ongoing operations and a Government Accounting Office review of efficiency and effectiveness; the implications of using troops from the Republic of Korea in Vietnam; civilian casualties, the rules of engagement, and the development of an Army response to charges that US forces were guilty of war crimes; command relationships; development and evaluation of individual weapons and weapons systems; trip reports; rest and relocation leave, tour length, and personnel turnover; the training of Regional and Popular Forces; the use of chemical-biological weapons; intelligence reports; the military situation in Cambodia during 1970-1; Strength Reports for Thailand, 1964-1975; and Viet Cong operations tactics and techniques.

A few documents are in Vietnamese.

Bulk Dates: 1966-1971

Scope & Content: The two major topics covered in this series are US medical personnel, practices, and policies in the Vietnam War; and Operation LAMSON 719.

The records relating to medicine include Army Medical Department responses to criticisms of medical support for combat operations, and plans to improve that support; debriefing reports and exit interviews with high ranking medical unit personnel; the realignment of medical support activities in Thailand; and discussions of force structure.

Operation LAMSON 719 was a combined US and South Vietnamese ground and air operation in Laos that aimed at disrupting enemy troop and supply movements, and achieving maximum destruction of enemy forces and stockpiles. Records on the operation include Army news releases, progress reports, after action reports, and an assessment of the performance of South Vietnamese military forces.

Also included in the series are portions of a history of the 5th Special Forces Group (Airborne), 1st Special Forces participation in the Civilian Irregular Defense Group (CIDG) Program, 1961-1970.

Scope & Content: This series, which was gathered together for research purposes, consists of Army Medical Service (AMEDS) plans for responding to emergency situations ranging from those short of war, to limited conflict, and up to general war. Included are mobilization plans, which provided guidance for the expansion of medical service; passive defense plans, which detailed measures to be taken before and after an enemy attack to minimize the effects of that attack; emergency checklists, which provided a uniform system of progressive alert procedures permitting the rapid and orderly implementation of emergency actions; Defense Readiness Conditions (DEFCONS), which provided a system for a command or selected elements of a command to be brought to a measured state of readiness; and continuity of operations plans. Some of the plans deal specifically with the Walter Reed Army Medical Center, in Washington, D.C., and a few records relating to mobilization plans for the Army as a whole are also included.

Scope & Content: This artificially created "series" results from the US Army Center of Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH used these unrelated records for research purposes, and combined them with additional records unique to CMH.

Among the plethora of topics covered in this series are US plans for defending Europe during the Cold War, the US invasion of the Dominican Republic in 1965, Army-wide and individual Army command reorganizations, intelligence gathering, and the establishment of a US medical service in France.

# INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

## INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

## INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

## ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

## ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

## ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

## ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

## ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

## ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

## ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

## ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository, NARS will sign and return one copy of SF 258 to the agency.

Scope & Content: This artificially created series results from the U.S. Army's Center of Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH removed records from their original administrative provenance and order for research purposes, combining them into a single subject grouping while adding additional records unique to CMH. Therefore, the original provenance of the records as created within a number of staff agencies cannot be ascertained or reconstructed.

CMH gathered the records of this series in order to write a history of the United States' 1965-6 intervention in the Dominican Republic. Major topics include daily reports and assessments of the military and political situation; reaction by members of the Organization of American States, and the subsequent decision to participate in an Inter-American Peace Force; plans for troop withdrawal; and post-operation evaluations. Also included are psychological operations leaflets, and a few documents on the effect on the Army of having to supply troops to both the Dominican Republic and Vietnam.

Scope & Content: This series consists of background material used for writing the published report on General William C Westmoreland's tour of duty as Army Chief of Staff, Report of the Chief of Staff of the US Army, 1 July 1968-30 June 1972. Most of the background material is made up of drafts of two unpublished reports on General Westmoreland's tenure, The United States Army--In Defense of a Nation, 1968-1970, and Perspectus: The Army in Transition, 1968-1972. Some of the drafts have Westmoreland's written comments and corrections. The series also includes input on the drafts from staff agencies, and a wide variety of published and unpublished material consulted during the preparation of the reports.

The draft reports offer overviews of the Westmoreland years, "using staff developed narratives as the basis for describing issues, problems, and achievements." Topics covered include the Vietnam War, developments overseas and in continental commands, the effects of domestic/civilian controversies on Army personnel and policies, modernization, and management culture.

Scope & Content: This series consists of records of investigations into some of the soldiers accused of participation in the My Lai Massacre. There are files on Max D. Hutson, Esequiel Torres, William F. Doherty, Robert T'Souvas, Charles E. Hutto, and Gerald Smith. The files were compiled at Fort McPherson, Georgia, where the Army authorized the consolidation of all potential cases arising out of the massacre. The files on Hutson, Torres, Doherty, and T'Souvas include memoranda for the record written by staff members of the Ft. McPherson Staff Judge Advocate Office, summarizing the course of the investigation, describing the records included in the file, and explaining the reasons for the withdrawal and dismissal of the charges.

The series also includes volume 10 of the transcript of the trial of Ernest L. Medina.

Scope & Content: This artificially created series results from the U.S. Army Center for Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH removed records from the Office of the Chief of Staff of the Army; Headquarters, United States Army, Pacific

(USARPAC); the Office of the Deputy Chief of Staff for Logistics (ODSCLOG); and other offices for research purposes, combining them into a single subject grouping while adding additional records unique to CMH. Therefore the original administrative provenance and order cannot be ascertained or reconstructed.

Major topics include the Tet Offensive; psychological operations, including examples of leaflets dropped by both the US and North Vietnam; logistics, including details of ongoing operations and a Government Accounting Office review of efficiency and effectiveness; the implications of using troops from the Republic of Korea in Vietnam; civilian casualties, the rules of engagement, and the development of an Army response to charges that US forces were guilty of war crimes; command relationships; development and evaluation of individual weapons and weapons systems; trip reports; rest and relocation leave, tour length, and personnel turnover; the training of Regional and Popular Forces; the use of chemical-biological weapons; intelligence reports; the military situation in Cambodia during 1970-1; Strength Reports for Thailand, 1964-1975; and Viet Cong operations tactics and techniques.

A few documents are in Vietnamese.

Scope & Content: This series largely consists of historical monographs and reports created, published, or collected by the Army's Center of Military History (CMH). Many of the monographs deal with facets of World War II, but topics range in time from the Revolutionary War to the Vietnam War. There is no apparent relationship between the publications except that CMH sent them all to the National Archives and Records Administration at the same time.

Multi-volume publications include the role of Cambodia in the Vietnam War, 1964-1970; annual historical summaries of the activities of the 8th US Army, 1957-1958, and of the United States Army Pacific Command, 1969-1972; the Functional System Design Requirement for the Army-Wide Tactical Operations System; the US Army in the Korean War: Fighting Front & Truce Tent; and a history of strategic air and ballistic missile defense, 1945-1972.

The series also includes some correspondence relating to writing, critiquing, and publishing individual monographs.

6. STATEMENT OF AGENCY REPRESENTATIVE

As described above and on the attached \_\_\_\_\_ pages are hereby offered for deposit with the National Archives of the United States in accordance with 44 U.S.C. 2203. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 41 C.F.R. 101-11.411, 41 C.F.R. 101-11.412, and such other rules or regulations as may be prescribed by the Administrator of General Services or the Archivist of the United States. Unless specified above, there are no restrictions on the use of these records other than the general and specific record group restrictions on the use of records in the National Archives of the United States that have been published in 41 C.F.R. 105-61.53 or in the Guide to the National Archives of the United States. The Archivist of the United States may destroy, donate, or otherwise dispose of any containers, duplicate records, unused forms, blank stationery, nonarchival printed material, or other nonrecord material in any manner authorized by law or regulation without further consent of this agency. I certify that any restriction on the use of these records are in conformance with the requirements of 5 U.S.C. 552 and that I am authorized by the head of this agency to act for the agency on matters pertaining to the disposition of agency records.

Scope & Content: This artificially created "series" results from the use of these records by both the U.S. Army's 16th Military History Detachment (MHD), and the Center of Military History (CMH), before transfer to the National Archives and Records Administration (NARA). The 16th MHD and the CMH removed records from their original administrative provenance and order for research purposes, and then (as now) CMH retired the records on a piecemeal basis to NARA. Therefore the original administrative provenance and order cannot be reconstructed.

Included in the series are copies of outgoing correspondence of the Chief of Staff of the United States Army, Vietnam (USARV); highlights of Military Assistance Command, Vietnam (MACV) Command/Staff Conferences, and USARV Wrap Up Meetings; and agendas and topic summaries of MACV Commander's Conferences. Topics covered by these records include evaluations of the performance, maintenance and logistics of troops and materiel; command structure, deployment, and reconfiguration of selected units, including the 101st Airborne Division and the 5th Special Forces Group; the Long Range Patrol (LRP) Doctrine; and a visit by Vice Chief of Staff Creighton W. Abrams to Headquarters, USARV in January, 1966.

Scope & Content: The imminent collapse of the U.S.-backed governments in South Vietnam and Cambodia in April 1975 triggered an exodus of refugees. Operations NEW LIFE and NEW ARRIVALS were concurrent, overlapping parts of the U.S. military's response to

that exodus. This series documents the U.S. Army's role within the two operations, which was to provide housing, food, clothing, medical treatment, and security for the refugees. The army ran it's refugee reception and staging area at Orote Point, Guam under Operation NEW LIFE, and its refugee reception centers in the continental U.S.--at Ft. Chaffee, Arkansas and Ft. Indiantown Gap, Pennsylvania--under Operation NEW ARRIVALS. Copies of the Army's final draft after action report , the General Accounting Office's report to Congress assessing management problems during the operations, and the monograph New Life and New Arrivals: Army Support of the Indochinese Refugee Program are also included.

Of the approximately 160 photographs in this series, 80 relate to Vietnamese on Guam waiting for repatriation, including images of damage done protesting delays in repatriation; 20 are of President Gerald Ford's visit to the Fort Chaffee, Arkansas refugee center; and 60 are unidentified photographs showing army personnel preparing for refugee arrival and refugees in various stages of processing.

Scope & Content: The Joint Refugee Information Clearing Office (JRICO) was part of the U.S. military's response to the exodus of Indochinese refugees that began as the fall of U.S. backed governments in Vietnam and Cambodia became evident in April 1975. This series documents the actions of JRICO's Army element in

carrying out the mission of providing information on requirements and procedures for becoming sponsors of refugees, as well as on the status and location of specific refugees; and conducting direct liaison with the Interagency Task Force (IATF) and access to IATF refugee data base, the Office of the Secretary Defense, refugee centers, and voluntary agencies. (The Interagency Task Force coordinated all U.S. Government activities concerning the evacuation of U.S. citizens, Vietnamese citizens, and third country nationals from South Vietnam, humanitarian assistance to Vietnamese refugees, and resettlement problems relating to the Vietnam conflict.) In addition to administrative matters and correspondence with refugees, potential and actual sponsors, and other agencies, the series includes discussions of the possibility of refugees enlisting in the U.S. Armed Forces.

Scope & Content: This artificially created "series" results from the use of these records by both the U.S. Army's 31st Military History Detachment (MHD), and the Center of Military History (CMH), before transfer to the National Archives and Records Administration (NARA). The 31st MHD and the CMH removed records from their original administrative provenance and order for research purposes, and then (as now) CMH retired the records on a piecemeal basis to NARA. Therefore the original administrative provenance and order cannot be reconstructed.

These records provide information about activities at all levels of the XXIV Corps, from reports of and about individual patrols to transcripts of commanding officers' briefings. Major topics include reconnaissance patrols and "incidents" in the Demilitarized Zone (DMZ); reports of intent to conduct operations, frag orders, and rules of engagement; updates or after action reports on a number of Operations, including Arc Light, Delaware/Lam Son 216, Liberty Canyon, Napoleon/Saline, Phu Vang, and Swift Pursuit; and the consolidation and resettlement of the populations of scattered fishing villages along the coast of Quang Tri Province to a specially constructed site at Gia Dang.

The series includes approximately an inch of records of the XXIV Corps's immediate predecessor, the Provisional Corps Vietnam, and two documents from it's initial incarnation as MACV (Military Assistance Command, Vietnam) Forward.

Title: COMMANDER'S DAILY SITUATION REPORTS

GMD/Record Type: Textual Records

RecordType/Genre: Report

Incl Start Date: 11/01/1968

|a CODE

Incl End Date: 12/31/1968

|a CODE

Scope & Content: These Situation Reports provide information on the daily activities of the 101st Airborne Division during Operation NEVADA EAGLE, a clear and search operation. Principal activities included reconnaissance in force, long range patrols, rice denial operations, combined operations, and visual reconnaissance flights. The reports have sections on summaries of operations, significant contacts with North Vietnamese soldiers, changes of plan (if any), special operations, small unit (brigade level and below) contacts with North Vietnamese soldiers, night operations, and unit locations. Details include descriptions of the circumstances under which, and how many, enemy soldiers were killed, wounded, taken prisoner, and what equipment they were carrying; the number of North Vietnamese graves discovered and investigated, and the numbers and condition of the bodies or the numbers and types of weapons found therein;

the numbers of helicopter and fixed wing support, sorties, and type of aircraft involved; the amount of ordnance expended; and the impact of weather on the operations, (if any).

Scope & Content: This series largely consists of historical monographs and reports created, published, or collected by the Army's Center of Military History (CMH). Many of the monographs deal with facets of World War II, but topics range in time from the Revolutionary War to the Vietnam War. There is no apparent relationship between the publications except that CMH sent them all to the National Archives and Records Administration at the same time.

Multi-volume publications include the role of Cambodia in the Vietnam War, 1964-1970; annual historical summaries of the activities of the 8th US Army, 1957-1958, and of the United States Army Pacific Command, 1969-1972; the Functional System Design Requirement for the Army-Wide Tactical Operations System; the US Army in the Korean War: Fighting Front & Truce Tent; and a history of strategic air and ballistic missile defense, 1945-1972.

The series also includes some correspondence relating to writing, critiquing, and publishing individual monographs.

Scope & Content: This artificially created "series" results from the U.S. Army Center for Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH removed records from their original administrative provenance and order for research purposes. Therefore the original provenance and order of the records cannot be ascertained or reconstructed, and most of the records have no relation to each other.

Among the plethora of topics included in this "series" are the 1967 Arab-Israeli War, the 1968 Warsaw Pact invasion of Czechoslovakia, missile development and deployment, long range force planning and funding requirements, post-nuclear war survival plans, border control systems in South Vietnam, internal military opposition to then Brazilian President Joao Goulart, Antarctic expeditions, and a review of the Army combat vehicle program.

Scope & Content: In March, 1966 French President Charles de Gaulle ordered the removal of US personnel and materiel from France by March 31, 1967. This series documents that removal, providing information on the status of personnel, unit locations

and movements, facilities, stocks, communications projects, and expenditures.

Although FRELOC began in March 1966, the weekly status reports only cover the last 3 months of the operation.

Bulk Dates: 1965-1972

Scope & Content: This artificially created series results from the U.S. Army Center for Military History's (CMH) use of these records before transfer to the National Archives and Records Administration. CMH removed records from the Office of the Chief of Staff of the Army; Headquarters, United States Army, Pacific

(USARPAC); the Office of the Deputy Chief of Staff for Logistics (ODSCLOG); and other offices for research purposes, combining them into a single subject grouping while adding additional records unique to CMH. Therefore the original administrative provenance and order cannot be ascertained or reconstructed.

Major topics include the Tet Offensive; psychological operations, including examples of leaflets dropped by both the US and North Vietnam; logistics, including details of ongoing operations and a Government Accounting Office review of efficiency and effectiveness; the implications of using troops from the Republic of Korea in Vietnam; civilian casualties, the rules of engagement, and the development of an Army response to charges that US forces were guilty of war crimes; command relationships; development and evaluation of individual weapons and weapons systems; trip reports; rest and relocation leave, tour length, and personnel turnover; the training of Regional and Popular Forces; the use of chemical-biological weapons; intelligence reports; the military situation in Cambodia during 1970-1; Strength Reports for Thailand, 1964-1975; and Viet Cong operations tactics and techniques.

A few documents are in Vietnamese.
