GENERAL LOGISTICS RECORDS

SSIC 4000

GENERAL LOGISTICS RECORDS

1. **PRIMARY PROGRAM RECORDS.** Correspondence, reports, studies, record copies of instructions and notices, and other records that document the establishment, development, and accomplishment of Navy and Marine Corps (MARCORPS) logistics policies, plans, and programs. Programs documented include procurement; contract inspection; supply issue and distribution; supply handling; packaging and storage; inventory control; travel and transportation; maintenance, construction, and conversion; current production and industrial mobilization planning; and foreign military assistance. These records are maintained by the Chief of Naval Operations (CNO), Naval Supply Systems Command (NAVSUP), Headquarter, U.S. Marine Corps (HQMC), Assistant Secretary of the Navy (Installations and Environment) (ASN (I&E)), Assistant Secretary of the Navy (Research, Development and Acquisition) (ASN (RD&A)), Navy International Programs Office (Navy IPO), Navy Inventory Control Point (NAV ICP), and other systems command headquarters.

Permanent. Retire to Washington National Records Center (WNRC) when 5 years old. Transfer to National Archives and Records Administration (NARA) when 20 years old.

2. **ACTIVITIES GENERAL CORRESPONDENCE FILES.** Files of all supply activities and offices (departmental and field) of departments, divisions, or other organizational units of activities and offices relating to the operations. Records are accumulated in connection with the routine, day-to-day, administration and operation of Navy and MARCORPS logistics programs. These records accumulate primarily at NAVSUPSYSCOM and MARCORPS field activities responsible for implementing and administering policies and programs established by higher echelon offices, but they may also be accumulated by higher echelon offices responsible for Navy-wide policies and programs in connection with their routine, day-to-day operations, as opposed to their activities covered under paragraph 1. (Exclude primary program records under SSIC 4000, paragraph 1.)

Destroy when 2 years old.

3. **LOGISTICAL REPORTS.** Reports relating to all phases of logistics management (other than those specifically covered elsewhere in this chapter) submitted to or summarized in reports to higher authority.

Destroy when 2 years old.

4. **BIOMEDICAL AND FACILITIES (BIOFAC) SYSTEM.** This system is comprised of the preventive maintenance, emergency and service subsystem (PESS) and the standard property accounting sub-module (SPAS). PESS provides an inexpensive means for scheduling preventive maintenance and emergency service. Maintenance tracking and history are supported for both facility and biomedical activities. The SPAS sub-module is an interactive microcomputer-based property accounting

★ ★ ★

1. **INTERIM CONTROL NUMBER:** *Leave blank.* NARA will fill in.

2. **AGENCY APPROVAL:** The agency records officer having the delegated authority to transfer the records with NARA should sign and date the form here (2A) and provide his/her name, title and mailing address (2B).

3. **NARA APPROVAL:** When a proposal to transfer records to the National Archives of the United States is approved, the appropriate NARA official completes 3A and 3B.

4A/B. **RECORDS SERIES TITLE/DATE SPAN OF SERIES:** The information provided should include a records series title, a statement of how the records are arranged, dates of coverage, and sufficient detail to describe the body of records being transferred. If access to the records is gained or facilitated through an index, box list, or other finding aid, include it with the records being transferred. Indicate the appropriate disposition authority number if the index is scheduled separately. If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.

5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.

6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.

7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:

Cu. ft. 15; Number 15; Type FRC boxes.

Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS:

STORAGE:

Maintained on paper records in file folders, audio and audiovisual tapes, microimaging, electronic systems, magnetic tape, optical digital data disks, CD ROM, and computer output products. Some laboratory documents are stored in loose-leaf notebooks or bound record books.

RETRIEVABILITY:

NCIS closed case paper files are filed by numeric sequential number, alphabetic by topical title, and geographic location; microfilm files are filed by dossier number; and electronic/optically imaged files by case control and Social Security Number. In order to locate the file it is necessary to query the Defense Clearance and Investigations Index using the name of the subject and at least one other personal identifier such as date of birth, place of birth, or Social Security Number. Polygraph electronic systems also use the polygraph approval number. Open case files may also be retrieved from NCIS automated systems by a control number assigned at the time the investigation is initiated.

Copies of the files in the Naval Criminal Investigative Service Field Offices, Naval Criminal Investigative Service Resident Agencies, and Polygraph sites are retrieved by name. Polygraph sites can also retrieve copies of the file by polygraph approval number. Consolidated Evidence Facility and Regional Forensic Lab information is retrieved by name, case control number, submitting agency log number, log numbers, or lab numbers. Wire, Electronic, and Oral Intercept Index records are retrieved by a combination of name, address, Social Security Number, telephone number/radio call sign, or case designation.

SAFEGUARDS:

Buildings employ alarms, security guards, and or rooms with security controlled areas accessible only to

authorized persons. Classified and highly sensitive paper records are maintained in General Service Administrative approved security containers. Paper and microform records in NCIS records office are stored in open shelves and filing cabinets in security controlled areas accessible only to authorized persons. Electronically and optically stored records are maintained in 'fail-safe' system software with password protected access. Records are accessible only to authorized persons with a need-to-know who are properly screened, cleared and trained. Noncurrent and master copy of microfilmed files are retired to the Washington National Records Center where retrieval is restricted to NCIS authorized personnel.

RETENTION AND DISPOSAL:

Counterintelligence (CI) Records:

CI records are retained in the active file until the case is closed; then destroyed 25 years after the date of last action. Major CI investigations are retired to the NCIS records office upon case closure; then transferred to the National Archives and Records Administration (NARA) when 25 years old.

Source records are retained in the active file until the operation is complete; then destroyed 75 years after the date of the last action.

Reciprocal CI investigative files regarding individuals or organizations under investigative jurisdiction of the requesting agency are disposed of as prescribed above for CI investigative records; except when the request is for CI personnel security matters; then the file is destroyed after one year.

CI defensive briefings are retained until case closure, retired to the NCIS records office; then destroyed after 15 years. SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the EIA is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The EIA, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing reporting forms. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Also, EIA will later seek approval by the Office of Management and Budget (OMB) for the collections under Section 3507(h) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, Title 44, U.S.C. Chapter 35).

Confidentiality Notice

The issue of the confidential treatment of data collected on any of the forms listed above is being addressed and will be resolved as a separate matter under other Federal Register notices. Whatever final confidentiality procedures are implemented will be applied to each of the EIA survey forms above as appropriate.

II. Current Actions

The EIA will request (a) a 3-year extension, through December 31, 2001, for all forms listed, and (b) modifications to the specific forms as described below. The proposed changes the EIA is requesting through this action reflect the current state of the electric power industry.

PUBLIC LAW 102-190 - December 5, 1991
As Amended - FY 95 National Defense Authorization Act

Section 1082. "DISCLOSURE OF INFORMATION CONCERNING
UNACCOUNTED FOR UNITED STATES PERSONNEL OF THE
COLD WAR, THE KOREAN CONFLICT, AND THE VIETNAM
ERA".

(a) PUBLIC AVAILABILITY OF INFORMATION - (1) Except as provided in subsection (b), the Secretary of Defense shall, with respect to any information referred to in paragraph (2), place the information in a suitable library-like location within a facility within the National Capital region for public review and photocopying.

(2) (A) Paragraph (1) applies to any record, live-sighting report, or other information in the custody of the official custodian referred to in subsection (d)(3) that may pertain to the location, treatment, or condition of (A) United States personnel who remain not accounted for as a result of service in the Armed Forces or other Federal Government service during the Korean conflict, the Vietnam era, or the Cold War, or (B) their remains."

(B) For purposes of this section, a Vietnam-era POW/MIA is any member of the Armed Forces or civilian employee of the United States who was at any time classified as a prisoner of war or missing in action during the Vietnam era and whose person or remains have not been returned to United States control.

(b) EXCEPTIONS - (1) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if -

(A) the record or other information is exempt from the disclosure requirements of section 552 of title 5, United States Code, by reason of subsection (b) of that section; or

(B) the record or other information is in a system of records exempt from the requirements of subsection (d) of section 552a of such title pursuant to subsection (j) or (k) of that section.

(2) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if the record or other information specifically mentions a person by name unless -

(A) in the case of a person who is alive (and not incapacitated) and whose whereabouts are known, that person expressly consents in writing to the disclosure of the record or other information; or

(B) in the case of a person who is dead or incapacitated or whose whereabouts are unknown, a family member or family members of that person determined by the Secretary of Defense to be appropriate for such purpose expressly consent in writing to the disclosure of the record or other information.

(3) (A) The limitation on disclosure in paragraph (2) does not apply in the case of a person who is dead or incapacitated or whose whereabouts are unknown if the family member or members of that person determined pursuant to subparagraph (B) of that paragraph cannot be located after a reasonable effort.

(B) Paragraph (2) does not apply to the access of an adult member of the family of a person to any record or information to the extent that the record or other information relates to that person.

(C) The authority of a person to consent to disclosure of a record or other information for the purposes of paragraph (2) may be delegated to another person or an organization only by means of an express legal power of attorney granted by the person authorized by that paragraph to consent to the disclosure.

(c) DEADLINES - (1) *In the case of records or other information originated by the Department of Defense, the official custodian shall make such records and other information available to the public pursuant to this section not later than September 30, 1995. Such records or other information shall be made available as soon as a review carried out for the purposes of subsection (b) is completed.*

(2) *Whenever a department or agency of the Federal Government receives any record or other information referred to in subsection (a) that is required by this section to be made available to the public, the head of that department or agency shall ensure that such record or other information is provided to the Secretary of Defense, and the Secretary shall make such record or other information available in accordance with subsection (a) as soon as possible and in any event not later than one year after the date on which the record or information is received by the department or agency of the Federal Government.*

(3) If the Secretary of Defense determines that the disclosure of any record or other information referred to in subsection (a) by the date required by paragraph (1) or (2) may compromise the safety of *any United States personnel referred to in subsection (a)(2) who remain not accounted for but who may still be alive in captivity*, then the Secretary may withhold that record or other information from the disclosure otherwise required by this section. Whenever the Secretary makes a determination under the preceding sentence, the Secretary shall immediately notify the President and the Congress of that determination.

INFORMATION SHEET
TREATMENT, LOCATION and/or CONDITION

The words treatment, location or condition appear in that paragraph of Public Law 102-190 (referred to as the McCain Bill) which defines the class of information to which the public disclosure requirement is applicable. The words themselves are not further defined in the statute.

In accordance with the normal rules of statutory construction we look to the plain meaning of the words in the context in which they appear. We also may consider the legislative intent which is intrinsically obvious in the legislation itself or is further evidenced in the legislative history of the provision (e.g. Committee Reports, speeches, debates, testimony, etc.). In this case there is no legislative history which would suggest that anything other than the plain meaning of the words used was intended by the Congress.

Accordingly, as the agency charged with implementing the statute as it applies to Vietnam, Korea and Cold War casualties, the DPMO should apply the plain meaning standard. The purpose of the statute is to effect the public disclosure of information relevant to the resolution of the cases of the unaccounted for persons. This is a pro-release piece of legislation, with some restrictions. There should be no effort to apply any further restrictive or artificially limiting meaning to the plain words.

It is not possible to provide an effective, all-encompassing definition of "treatment", "location", and/or "condition". Nevertheless, in our work thus far we have developed some examples of each category which may be helpful in your analysis of specific materials. These examples are not exhaustive or exclusive, merely illustrative:

- TREATMENT**
- * Circumstances of capture/internment
 - * Medical treatment or lack thereof
 - * Availability of food and water
 - * Interrogation techniques / torture
 - * Physical or mental abuse, threats, humiliation

LOCATION

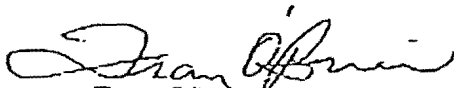

- * Identifiable geographic feature, e.g. river, lake, mountain
- * Place name (village, city)
- * Prison camp site (Hanoi Hilton/Son Tay/Zoo)
- * Distance from a known point
- * 6 digit UTM coordinate or greater
- * GEOCOORDS (degrees/minutes/seconds)

CONDITION

- * Physical or mental condition (weak, malnourished, sick, feverish, delirious, coma)
- * Specific injuries (skull fracture, broken arm, gunshot or fragment wound, concussion, etc.)
- * Description of cause/circumstances of death

As the examples illustrate, information which is logically relevant to a determination of fate should be included among that which is subject to the disclosure requirements of the McCain provision as amended.

Questions are raised regarding the application of the word "dead" as it relates to McCain. In the usual context of our work, "dead" is a status, but it can also be descriptive of a condition. Information or evidence that a person is dead is clearly relevant to a determination of fate and that information is subject to the McCain provision when it arises in the descriptive context. For the purposes of our redaction work, we must apply a sensible rule. When you encounter the word dead, and it is clearly used in the context of a previously known status, as in a compilation listing casualties, then the reference may stand without application of the PNOK release rule. However, where it is used descriptively, as in a witness statement, then the normal rules relative to the PNOK release are applicable.

If the records are in a Federal records center (FRC) attach each applicable SF 135, Records Transmittal and Receipt. For electronic records, describe any related documentation.
5. Fully identify the unit (5D) that created or organized the records. Usually this is not the agency's records management office. Place the creating unit within its organizational hierarchy (5A-5C). For example, the responsible unit is a branch (5D), within a division (minor subdivision) (5C), within an office (major subdivision) (5B), and within the agency or major component of a department (5A). Block 5A should be the official or legal name of the agency or bureau as published in the *U.S. Government Manual*. In block 5E include the name and telephone number (including the area code) of a person who should be contacted if NARA has any questions about the records. If the originating agency no longer exists, provide the name of the contact person at the successor agency.
6. **DISPOSITION AUTHORITY:** This citation must be included. It can be either the item number assigned to the records within a records disposition schedule (SF 115) approved by NARA or the item number assigned to the records within an agency records disposition manual based on a NARA-approved SF 115. If the agency manual number is used, attach a copy of the pertinent pages from the agency manual.
7. **IS SECURITY CLASSIFIED INFORMATION PRESENT?** If the records contain security classified information, check "Yes" and indicate the highest level of classification present. Indicate any additional applicable national security special access restrictions (e.g., Sensitive

Compartmented Information — SCI or North Atlantic Treaty Organization — NATO). Restricted Data and Formerly Restricted Data — RD/FRD — refers to information subject to the Atomic Energy Act of 1954. Check "Segregated" to indicate that security classified records have been segregated from unclassified records or information subject to special access restrictions has been segregated from other classified information. Check "Declassified" to indicate whether any records have been declassified, and provide both the authority for declassification and a description of the declassified records.

8. **CURRENT LOCATION OF RECORDS:** Check the appropriate box for the current location of the records. If the records currently are in a Federal records center, complete 8B. If the records are located in the transferring agency or other location, complete 8A.

8A. For records located in the transferring agency or other location, provide a complete address.

8B. For records located in a Federal records center, name the center, provide the FRC accession number and container number(s), and the FRC location.

9. **PHYSICAL FORM(S):** Check all the boxes that apply to the records included in the transfer.

10. **VOLUME:** Include both the cubic feet of the records and the number and type of containers holding the records. For example:

Cu. ft. 15; Number 15; Type FRC boxes.

Provide separate volume figures for each physical type of records, continuing on a separate sheet as necessary.

11. **DATE RECORDS ELIGIBLE FOR TRANSFER TO THE ARCHIVES:** Indicate the date the records are eligible for deposit in the National Archives. This date is determined by the disposition instructions for each item in the approved SF 115 or agency manual.

12. **ARE THE RECORDS FULLY AVAILABLE FOR PUBLIC USE?** If the records are exempt from release pursuant to the FOIA, 5 U.S.C. 552(b)(1)-(9) and (c)(1)-(3), this must be fully justified. List all exemptions that apply. If exemption (b)(1) is cited, complete block 7 accordingly. If (b)(3) is cited, include the full citation for the relevant statute. If the records are subject to copyright, identify affected items and the copyright holder.

13. **ARE THESE RECORDS SUBJECT TO THE PRIVACY ACT?** The National Archives is required to notify the public, through the *Federal Register*, when it takes custody of records subject to the provisions of the Privacy Act, 5 U.S.C. 552a. The originating agency should use this block to indicate whether the records covered by this SF 258 are part of a Privacy Act "system of records" and include a citation to and a copy of the Privacy Act notice published by the agency for the system. NARA will use the transferring agency's notice to inform the public, through the *Federal Register*, that the records have been transferred to the National Archives and that no further modification of them is possible.

14. **ATTACHMENTS:** Check the appropriate box(es) and indicate the attachment(s) being submitted with this form.

15. **SHIPPING INSTRUCTIONS TO AGENCIES/REMARKS REGARDING DISPOSITION:** NARA uses this space to provide shipping instructions relating to transfers.

16. **RECORDS ACCEPTED INTO THE NATIONAL ARCHIVES OF THE UNITED STATES:** The appropriate NARA representative signs block 16 after the records have been received at a NARA facility and NARA has confirmed that the records received are the records described in block 4. Transfers to NARA are not final until NARA has signed block 16. NARA sends the agency a copy of the completed form.

17. **NATIONAL ARCHIVES ACCESSION NO.:** NARA assigns this unique, permanent control number to each transfer of records.

SF 258, Continuation Sheet

Item 4a (Continued) are intelligence and counterintelligence debriefings; loss/prisoner reports; newspaper clippings; reports on and investigations into the conduct of prisoners while in POW status; copies of letters from POWs to family members; various reports and correspondence to and from Department of the Navy officials, non-governmental organizations/persons, and family members; and, in one file, several original examples of Democratic Republic of Vietnam (i.e., Communist North Vietnam) propaganda material. Many of the reports address locations, treatment and conditions under which the POWs were held. Several files contain information pertaining to individuals still identified as MIA. All files pertain to Navy and Marine Corps persons, except two that pertain to members of the United States Air Force. Several files address allegations of POW misconduct, to include accounts by members from other services. One file pertains to a POW who allegedly collaborated with the North Vietnamese Army and contains intelligence and investigative information collected by the Naval Investigative Service and its predecessor and successor organizations for use in his court martial. The records are arranged alphabetically by the individual's last name. The list also identifies the individual's service affiliation.

Item 11. SECNAVINST 5212.5C (and 5D), Navy and Marine Corps Records Disposition Manual, calls for these files to be transferred to NARA when 30 years old. Most are within four years of meeting this criterion, but several are not with one only becoming eligible in the year 2020. In recognition of the special interest in these records as evidenced by PL 102-190, as amended, they are offered for transfer as a collection prior to the elapse of the 30 years for all records. This represents, to the best of our knowledge, all records in the custody of the Naval Criminal Investigative Service under this file authority involving Vietnam Conflict POW/MIAs. The Defense POW/MIA Office (DPMO) is aware of and has reviewed most of these records. The Department of Defense Joint Services Survival, Evasion, Resistance and Escape (SERE) Agency (JSSA) received a copy of some of these records on 20 November 1997. A copy of the remainder will be provided in August or September 1998. The records will be available for transfer to NARA by mid September 1998.

Item 12. Exemptions (b)(1) and (b)(7) of the Privacy Act of 1974, as amended, as specified in item 13, apply. A declassification review under the provisions of EO 12958 has been accomplished. The review determined that some of these records remain classified. Tabs identifying documents belonging to other classifying authorities mark these pages. Interrogation debriefing reports remain classified pending resolution of JSSA's and DPMO's proposed legislation as specified in JSSA's letter at item 14. Other exemptions that apply are cited in PL 102-190, as amended (FY 95 National Defense Authorization Act), for information concerning persons still unaccounted for, as specified in item 14. This includes individuals mentioned in, though not the subject of, the case file. Refer issues of declassification and disclosure of debriefing reports, POW letters and certain other materials to JSSA, Fort Belvoir, VA 22060-5212.

Reciprocal investigative files regarding requests for investigative assistance from other Federal, state and local law enforcement agencies are disposed of as prescribed for the criminal investigative reports and ICRs, as appropriate.

Polygraph examinations conducted for criminal investigations are quality assured and filed in the associated criminal investigation. Disposition is in accordance with the guidance for the investigative case file.

Wire, Electronic, Oral Interception Index computer entries are deleted upon destruction or transfer to NARA of the case file containing intercept information. Disposition of the case files is governed by the NARA approved retention period applied to the case dossier. Hardcopy records used to create the index are destroyed upon verification that the indexing information has been fully and accurately entered into the automated index.

National Crime Information Center (NCIC) records that support Department of the Navy entries into the FBI's National Crime Information Center are destroyed after the related entry is deleted from the National Crime Information Center computer. Microfiche copies are destroyed when all cases on the fiche are cleared from the National Crime Information Center.

Laboratory fingerprint card files are disposed of as follows:

(1) one fingerprint card set is forwarded to the Federal Bureau of Investigation; the other set is destroyed when 75 years old

(2) fingerprint card indices and related correspondence are destroyed

when all administrative needs have expired.

Counterintelligence records on persons not affiliated with DoD must be destroyed within 90 days or one year under criteria set forth in DoD Directive 5200.27, unless retention is required by law or specifically approved by the Secretary of the Navy.

Files retained in the Naval Criminal Investigative Service Field Offices and Naval Criminal Investigative Service Resident Agencies and Polygraph sites are temporary and are destroyed after 90 days or one year, as appropriate.

Destruction of records will be by shredding, burning, or pulping for paper records; burning for microform records; and magnetic erasing for computerized records. Optical digital data and CD ROM records are destroyed as specified by NAVSO P-5239-26, 'Remanence Security Guidebook' of September 1993.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the EIA is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The EIA, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing reporting forms. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Also, EIA will later seek approval by the Office of Management and Budget (OMB) for the collections under Section 3507(h) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, Title 44, U.S.C. Chapter 35).

Confidentiality Notice

The issue of the confidential treatment of data collected on any of the forms listed above is being addressed and will be resolved as a separate matter under other Federal Register notices. Whatever final confidentiality procedures are implemented will be applied to each of the EIA survey forms above as appropriate.

II. Current Actions

The EIA will request (a) a 3-year extension, through December 31, 2001, for all forms listed, and (b) modifications to the specific forms as described below. The proposed changes the EIA is requesting through this action reflect the current state of the electric power industry.

Additional changes may be required, prior to the new expiration date, in order to be up-to-date with the rapidly changing industry.

Form EIA-411, "Coordinated Bulk Power Supply Program," Propose changing planning projections period (Items 1, 2, and 4) from 10 years to 5 years. The form and instructions will be modified to show this change.

Form EIA-412, "Annual Report of Public Electric Utilities," Propose changing the reporting threshold from 120,000 MWh to 150,000 MWh. The instructions will be modified to show this change.

Form EIA-417R, "Annual Summary of Emergency Occurrences," no change.

Form EIA-759, "Monthly Power Plant Report," no change.

Form EIA-767, "Steam-Electric Plant Operation and Design Report," no change.

Form EIA-826, "Monthly Electric Utility Sales and Revenue Report with State Distributions," Propose adding

PUBLIC LAW 102-190 - December 5, 1991
As Amended - FY 95 National Defense Authorization Act

Section 1082. "DISCLOSURE OF INFORMATION CONCERNING
UNACCOUNTED FOR UNITED STATES PERSONNEL OF THE
COLD WAR, THE KOREAN CONFLICT, AND THE VIETNAM
ERA".

(a) PUBLIC AVAILABILITY OF INFORMATION - (1) Except as provided in subsection (b), the Secretary of Defense shall, with respect to any information referred to in paragraph (2), place the information in a suitable library-like location within a facility within the National Capital region for public review and photocopying.

(2) (A) Paragraph (1) applies to any record, live-sighting report, or other information in the custody of the official custodian referred to in subsection (d)(3) that may pertain to the location, treatment, or condition of (A) United States personnel who remain not accounted for as a result of service in the Armed Forces or other Federal Government service during the Korean conflict, the Vietnam era, or the Cold War, or (B) their remains."

(B) For purposes of this section, a Vietnam-era POW/MIA is any member of the Armed Forces or civilian employee of the United States who was at any time classified as a prisoner of war or missing in action during the Vietnam era and whose person or remains have not been returned to United States control.

(b) EXCEPTIONS - (1) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if -

(A) the record or other information is exempt from the disclosure requirements of section 552 of title 5, United States Code, by reason of subsection (b) of that section; or

(B) the record or other information is in a system of records exempt from the requirements of subsection (d) of section 552a of such title pursuant to subsection (j) or (k) of that section.

(2) The Secretary of Defense may not make a record or other information available to the public pursuant to subsection (a) if the record or other information specifically mentions a person by name unless -

(A) in the case of a person who is alive (and not incapacitated) and whose whereabouts are known, that person expressly consents in writing to the disclosure of the record or other information; or

(B) in the case of a person who is dead or incapacitated or whose whereabouts are unknown, a family member or family members of that person determined by the Secretary of Defense to be appropriate for such purpose expressly consent in writing to the disclosure of the record or other information.

(3) (A) The limitation on disclosure in paragraph (2) does not apply in the case of a person who is dead or incapacitated or whose whereabouts are unknown if the family member or members of that person determined pursuant to subparagraph (B) of that paragraph cannot be located after a reasonable effort.

(B) Paragraph (2) does not apply to the access of an adult member of the family of a person to any record or information to the extent that the record or other information relates to that person.

(C) The authority of a person to consent to disclosure of a record or other information for the purposes of paragraph (2) may be delegated to another person or an organization only by means of an express legal power of attorney granted by the person authorized by that paragraph to consent to the disclosure.

(c) DEADLINES - (1) *In the case of records or other information originated by the Department of Defense, the official custodian shall make such records and other information available to the public pursuant to this section not later than September 30, 1995. Such records or other information shall be made available as soon as a review carried out for the purposes of subsection (b) is completed.*

(2) *Whenever a department or agency of the Federal Government receives any record or other information referred to in subsection (a) that is required by this section to be made available to the public, the head of that department or agency shall ensure that such record or other information is provided to the Secretary of Defense, and the Secretary shall make such record or other information available in accordance with subsection (a) as soon as possible and in any event not later than one year after the date on which the record or information is received by the department or agency of the Federal Government.*

(3) If the Secretary of Defense determines that the disclosure of any record or other information referred to in subsection (a) by the date required by paragraph (1) or (2) may compromise the safety of any *United States personnel referred to in subsection (a)(2) who remain not accounted for but who may still be alive in captivity*, then the Secretary may withhold that record or other information from the disclosure otherwise required by this section. Whenever the Secretary makes a determination under the preceding sentence, the Secretary shall immediately notify the President and the Congress of that determination.

(d) DEFINITIONS - *For purposes of this section:*

(1) *The terms "Korean conflict" and "Vietnam era" have the meanings given those terms in section 101 of title 38, United States Code.*

(2) *The term "Cold War" means the period from the end of World War II to the beginning of the Korean conflict and the period from the end of the Korean conflict to the beginning of the Vietnam era.*

(3) *The term "official custodian" means -*

INFORMATION SHEET
TREATMENT, LOCATION and/or CONDITION

The words treatment, location or condition appear in that paragraph of Public Law 102-190 (referred to as the McCain Bill) which defines the class of information to which the public disclosure requirement is applicable. The words themselves are not further defined in the statute.

In accordance with the normal rules of statutory construction we look to the plain meaning of the words in the context in which they appear. We also may consider the legislative intent which is intrinsically obvious in the legislation itself or is further evidenced in the legislative history of the provision (e.g. Committee Reports, speeches, debates, testimony, etc.). In this case there is no legislative history which would suggest that anything other than the plain meaning of the words used was intended by the Congress.

Accordingly, as the agency charged with implementing the statute as it applies to Vietnam, Korea and Cold War casualties, the DPMO should apply the plain meaning standard. The purpose of the statute is to effect the public disclosure of information relevant to the resolution of the cases of the unaccounted for persons. This is a pro-release piece of legislation, with some restrictions. There should be no effort to apply any further restrictive or artificially limiting meaning to the plain words.

It is not possible to provide an effective, all-encompassing definition of "treatment", "location", and/or "condition". Nevertheless, in our work thus far we have developed some examples of each category which may be helpful in your analysis of specific materials. These examples are not exhaustive or exclusive, merely illustrative:

- TREATMENT**
- * Circumstances of capture/internment
 - * Medical treatment or lack thereof
 - * Availability of food and water
 - * Interrogation techniques / torture
 - * Physical or mental abuse, threats, humiliation

LOCATION

- * Identifiable geographic feature, e.g. river, lake, mountain
- * Place name (village, city)
- * Prison camp site (Hanoi Hilton/Son Tay/Zoo)
- * Distance from a known point
- * 6 digit UTM coordinate or greater
- * GEOCOORDS (degrees/minutes/seconds)

CONDITION

- * Physical or mental condition (weak, malnourished, sick, feverish, delirious, coma)
- * Specific injuries (skull fracture, broken arm, gunshot or fragment wound, concussion, etc.)
- * Description of cause/circumstances of death

As the examples illustrate, information which is logically relevant to a determination of fate should be included among that which is subject to the disclosure requirements of the McCain provision as amended.

Questions are raised regarding the application of the word "dead" as it relates to McCain. In the usual context of our work, "dead" is a status, but it can also be descriptive of a condition. Information or evidence that a person is dead is clearly relevant to a determination of fate and that information is subject to the McCain provision when it arises in the descriptive context. For the purposes of our redaction work, we must apply a sensible rule. When you encounter the word dead, and it is clearly used in the context of a previously known status, as in a compilation listing casualties, then the reference may stand without application of the PNOK release rule. However, where it is used descriptively, as in a witness statement, then the normal rules relative to the PNOK release are applicable.

MEMORANDUM FOR: Naval Criminal Investigative Service
Attn: Mr. Henry Persons

FROM: HQ JSSA/DOIL

Ft. Belvoir, VA 22060-5212

SUBJECT: POW Debriefing Records

1. The debriefing of POWs was accomplished for the purpose of obtaining intelligence information, a great deal of which would play an important role in improving the Joint Services Survival, Evasion, Resistance and Escape (SERE) training program and operations throughout DOD. These records contain classified information and personal sensitive information and must be protected from disclosure and automatic declassification rules of the EO 12958.
2. DPMO, with coordination from JSSA, has drafted proposed legislation to OSD/GC requesting that Korea and Vietnam-era debriefings should only be released following an appropriate security and privacy review by either DPMO or JSSA. This office accepts full responsibility to review these documents before their release to the public.
3. If you have any questions, please contact me at 703-806-5074. Thank you for your support in restricting access to these sensitive records.

61. ADMINISTRATIVE HISTORY: The U.S. Army 25th Infantry Division was activated in Hawaii on 10 Oct 1941. The division saw combat service in the Pacific Theater during World War II and later served in the Korean Conflict during 1951 - 53. In 1965 the division was serving as the Pacific contingency reserve force from its base at Schofield Barracks, Hawaii, when orders were received to begin deployment of the division to Vietnam. In December 1965, the division's 3d Brigade was airlifted to Pleiku, Republic of Vietnam, for operations in the II Corps Central Highlands. Meanwhile, beginning in January 1966, the remainder of the 25th Division began its movement by sea to Vietnam. By the end of April 1966, the 1st and 2d Brigades and Division headquarters and support elements had all arrived in Vietnam and began operations in the western provinces of III Corps Tactical Zone (CTZ) near Saigon.

During 1966 and 1967, the 25th Infantry Division along with the attached 3d Brigade, 4th Infantry Division, participated in combat operations in the provinces of Hau Nghia, Tay Ninh, Binh Duong, and Long An in III CTZ, including large operations against the "Iron Triangle" region near Saigon and against communist War Zone "C" in Tay Ninh. On 1 August 1967, the attached 3d Brigade, 4th Division, was officially redesignated as the 3d Brigade, 25th Infantry Division, while the original 3d Brigade that had remained in the II Corps Central Highlands since 1965 became part of the 4th Infantry Division based in Pleiku, II CTZ. During the TET counteroffensive of 1968, 25th Division units fought in the immediate area around Saigon in Gia Dinh Province to help regain control of the military situation in the Capital Military District. During 1968 and 1969, the division continued operations in Hau Nghia, Tay Ninh, and Binh Duong Provinces, by conducting anti-infiltration operations along the Cambodian border, assisting Vietnam Government forces in area pacification, and repelling North Vietnamese and Viet Cong attacks against Tay Ninh City, Dau Tieng, and other population centers. During the Spring of 1970, the 25th Division participated in the Allied incursion against North Vietnamese sanctuaries in Cambodia. In October 1970 the division was ordered to begin preparations for redeployment back to the United States, and in December the bulk of the division was withdrawn from Vietnam as part of increment V of the U.S. withdrawal. The 2d Brigade of the 25th Division was ordered to remain in Vietnam and became a separate brigade, serving to protect the northeastern and eastern approaches to Saigon in the eastern III Corps provinces of Long Khanh, Phuoc Tuy, and Bien Hoa. In March 1971, the 2d Brigade, 25th Infantry Division (Separate), was withdrawn from the Republic of Vietnam as part of increment VI of the U.S. withdrawal and redeployed to Hawaii to rejoin the rest of the 25th Infantry Division. The 25th Infantry Division served some 1716 days in the Republic of Vietnam.

61A. ADMINISTRATIVE HISTORY:

Established ca. 1962 as the U.S. Army Advisory Group, I Corps Tactical Zone (USAAG ICTZ), by the U.S. Military Assistance Advisory Group Vietnam, with the mission of advising and supporting Army of the Republic of Vietnam (ARVN) I Corps Headquarters and units in the northernmost region of the Republic of Vietnam.

USAAG ICTZ came under command and control of U.S. Military Assistance Command Vietnam in 1964. USAAG ICTZ was further subordinated to command and control of the U.S. III Marine Amphibious Force in 1965, but continued with the mission of advising and supporting ARVN I Corps Headquarters and units in the I Corps Tactical Zone.

In 1970, USAAG ICTZ was redesignated U.S. Army Advisory Group, I Corps & Military Region I (USAAG IC & MRI), and came under command and control of the U.S. Army XXIV Corps.

In March 1972, USAAG IC & MRI was reorganized and reactivated as the First Regional Assistance Command (FRAC), with the expanded missions of providing advisory support to ARVN I Corps Headquarters and units, serving as the primary U.S. tactical and administrative headquarters for Military Region I, and administering the pacification program in the region. FRAC played a major role in assisting ARVN I Corps to slow down and eventually halt the North Vietnamese conventional invasion of Military Region I in 1972, and was deactivated in March 1973 after the Paris Accords cease-fire went into effect.

61A. ADMINISTRATIVE HISTORY:

United States Army Support Element Military Region I (USASE MRI) was activated on 4 April 1972, utilizing elements from the just-deactivated U.S. Army Support Command, Da Nang. USASE MRI's mission was to supervise and coordinate administrative and

logistical support and services to all U.S. Army units in Military Region I (MRI), and to advisory teams and units of other services and allied nations as directed. Additionally, USASE MRI served as an administrative command and control headquarters for U.S. tactical and support units in Military Region I, as the primary element performing MRI zone coordination functions and tasks, and as the headquarters responsible for overseeing remaining U.S. Army installations and base property in MRI. The Commanding General, First Regional Assistance Command, served as the overall commander of USASE MRI, but day-to-day command and coordination functions were carried out by the Army Support Element Commanding Officer. USASE MRI was deactivated on 24 March 1973, shortly after the signing of the Paris Peace Accords cease-fire.

61. ADMINISTRATIVE HISTORY: The 1st Brigade, 5th Infantry Division (Mechanized), was notified in March of 1968 at its home base in Fort Carson, Colorado, to begin preparations for deployment to the Republic of Vietnam. After a reorganization of brigade units and pre-deployment training, the brigade was sent to Vietnam in July 1968, where it was assigned to the Northern I Corps province of Quang Tri just below the Demilitarized Zone (DMZ).

During the rest of 1968 and in 1969, the brigade participated in operations with the U.S. 3d Marine Division to secure the DMZ, protect the Quang Tri coastal plains against enemy attacks from the north and west, and carry out pacification operations to protect the populace. During 1970, the brigade operated closely with the South Vietnamese 1st Infantry Division and Territorial Forces to protect the Quang Tri population from North Vietnamese attacks and Viet Cong infiltration. In early 1971, the brigade participated in the U.S. portion of Operation LAM SON 719, securing the extreme western areas of Quang Tri Province and thus permitting South Vietnamese forces to enter Laos in an attempt to disrupt the enemy Ho Chi Minh Trail system. In August 1971, the 1st Brigade, 5th Infantry Division (Mechanized), was withdrawn from Vietnam as part of Increment VIII of the U.S. withdrawal.

61A. ADMINISTRATIVE HISTORY:

On January 27, 1973, the Agreement on Ending the War and Restoring Peace in Vietnam (Paris Agreement) was signed. Article 16 required each party to designate representatives to form a Four Party Joint Military Commission (FPJMC) which was to ensure joint action by the parties to implement specific provisions of the agreement. Of importance to the United

States was Article 8, which compelled all parties "...to get information about those military personnel and foreign civilians of the parties missing in action, to determine the location and take care of the graves of the dead ... and to get information about those still considered missing in action."

The United States Delegation to the FPJMC was activated January 26, 1973, per MACV General Order No. 186. Major General Woodward, the MACV Chief of Staff, was designated the chief of the delegation and his entire office was transferred intact to the new organization. In addition, Col. Edward C. O'Connor, MACV Secretary of the Joint Staff, became the secretary to the delegation with duties similar to those of a chief of staff. Upon the inactivation of MACV on March 29, the U.S. Delegation, FPJMC, continued as a separate military organization in the Republic of Vietnam. It was discontinued in accordance with the terms of the Paris Agreement on March 31, 1973.

Seven sites in the Republic of Vietnam were established as coordination points for liaison officers of the four governments and representatives of the International Commission of Control and Supervision (ICCS). These were Hue (Region I), Da Nang (Region II), Pleiku (Region III), Phan Thiet (Region IV), Bien Hoa (Region V), My Tho (Region VI) and Can Tho (Region VII). Due to the failure of the People's Revolutionary Government ("Viet Cong") delegation to provide field representatives, these field sites were not as effective as envisioned in the Paris Agreement.

61A. ADMINISTRATIVE HISTORY:

A. PURPOSE OF THE INQUIRY

On November 26, 1969, the Secretary of the Army and the Chief of Staff, U.S. Army, issued a joint memorandum directing Lt. Gen. William R. Peers to explore the nature and scope of the original Army investigations of what occurred on March 16, 1968, in Son My Village, Quang Ngai Province, Republic of Vietnam, and to determine:

- 1) The adequacy of such investigations or inquiries and subsequent reviews and reports within the chain of command;
- 2) Whether any suppression or withholding of information by persons involved in the incident had taken place.

The same memorandum specified that the Inquiry would be concerned with the time period beginning March 1968 and continuing until receipt by the Secretary of Defense and others of information concerning the incident in a letter by Mr. Ron Ridenhour dated March 29, 1969. It was further provided that the Inquiry would neither include nor interfere with criminal investigations in progress. Mr. Bland West, Assistant General Counsel of the Army, was named as General Peers' deputy for purposes of the inquiry.

B. SCOPE OF THE INQUIRY

The primary focus of the inquiry was on the subsequent reports and investigations of the Son My incident rather than on the incident itself; however, it became apparent at an early stage that the adequacy of those reports and investigations could not be evaluated intelligently without a thorough understanding of what actually took place during Task Force (TF) Barker's operations in the Son My area on March 16-19, 1968. Additionally, knowledge of the operational facts, including those related to the commission of atrocities was essential to a determination as to whether there had been any subsequent suppression or withholding of information by persons having a duty to report.

For these reasons, the scope of the inquiry included a complete examination into the operational situation throughout TF Barker's area of operations (AO) during the period March 16-19, 1968, together with an exploration of the facts relating to atrocities committed in the course of such operations. The latter aspect was pursued in sufficient depth to determine the substantive facts concerning such atrocities, but no direct effort was made to establish the criminal liability of particular individuals for possible violations of criminal statutes or the law of war. The Office of the Provost Marshal General of the Army assumed responsibility for investigation of these possible violations in July 1969, and certain testimony and other evidence developed in the course of that investigation were made available and incorporated in the record of the Inquiry.

C. ORGANIZATION AND GENERAL CONDUCT OF THE INQUIRY

General Peers informed the Chief of Staff and Secretary of the Army on November 30, 1969, that he intended to proceed by:

- 1) Reviewing the facts then available for background information;
- 2) Collecting pertinent official records of units in Vietnam;

- 3) Locating and interrogating all witnesses known or determined to have information bearing on the incident; and
- 4) Preparing a report on the results of the investigation, including appropriate findings and recommendations.

On that same date, General Peers also recommended that a distinguished lawyer be made available to the investigative team in order to promote public recognition and acceptance of the objectivity of the Inquiry and to enhance its effectiveness. In response to this request, the Secretary of the Army obtained the services of Robert MacCrate, Esq., a partner in the New York law firm of Sullivan & Cromwell and a Vice President of both the New York State Bar Association and the Association of the Bar of the City of New York, who agreed to serve as special counsel. Jerome K. Walsh, Jr., Esq., of the New York law firm of Walsh & Frisch, was appointed associate special counsel.

An investigating team of Department of the Army personnel, including field grade officers having extensive experience in battalion-size combat operations in Vietnam and administrative and support personnel, was assembled to assist General Peers. Additional personnel were added to the team as requirements became more clearly defined. On December 9, 1969, the Inquiry was officially designated as "The Department of the Army Review of the Preliminary Investigation into the My Lai Incident" and was given the short title of "The Peers Inquiry."

The first phase of the Inquiry began at the Pentagon on December 2, 1969, with the taking of testimony from witnesses and the collection and review of documentary evidence. Interrogation of witnesses proceeded on a 6-day per week basis, and by December 24, 39 witnesses had given testimony, some of them on more than one occasion. Simultaneously, the investigative team was assembling and studying numerous directives, orders, logs, reports, maps, photographs, and other evidentiary materials bearing upon the matters under review. On December 13, two officers departed for Vietnam to provide the team with continuing in-country representation and to complete arrangements for the Vietnam phase of the inquiry.

On December 26, General Peers, the civilian special counsel, and other members of the investigating team departed for Vietnam. Other members of the team, under direction of the deputy, Mr. West, continued to examine additional witnesses at the Pentagon during the period General Peers was in Vietnam.

The Vietnam phase of the Inquiry, which continued from December 28, 1969, until January 8, 1970, involved the taking of testimony from or interviews with key personnel throughout the U.S. military chain of command, U.S. civilian personnel, officials of the Government of Vietnam, Army of the Republic of Vietnam (ARVN) officers and enlisted personnel, and Vietnamese civilians residing in the Son My Village area. Documents considered relevant to the Inquiry were obtained from various headquarters, including U.S. Military Assistance Command, Vietnam (MACV); U.S. Army Vietnam (USARV); III Marine Amphibious Force (III MAF); 23d (Americal) Infantry Division, and the 11th Infantry Brigade. Further

documentation was made available to the team by various Republic of Vietnam (RVN) officials and ARVN headquarters. General Peers, the civilian special counsel, and other members of the investigative team made an on-site inspection of certain significant areas within Son My Village, and other such areas were closely inspected by General Peers at very low altitude utilizing an OH-6, a small observation-type helicopter. Two members of the investigating team remained in Vietnam to continue the assembling of documents and to obtain further information from in-country witnesses as developments indicated the need.

The third phase of the Inquiry began with the return of General Peers and party to Washington on January 8, 1970. During his absence, the portion of the team working under Mr. West in Washington had interrogated 41 additional witnesses. In order to enable the investigative team to interrogate every person who might reasonably be expected to have useful information without unduly delaying completion of the Inquiry, General Peers established three interrogation teams to take testimony concurrently. A fourth team was later added for a limited purpose. This procedure made it possible for the Inquiry to interrogate a total of 399 witnesses, some of them on several different occasions, and nevertheless complete the taking of testimony by March 7, 1970.

Editing, reviewing, and summarizing of the transcripts of testimony, preparation of exhibits, analysis of the issues and evidence, and drafting of portions of the report were carried forward by other members of the investigative team concurrently with the taking of testimony. Consequently, upon the completion of hearings in early March and despite the vast volume of assembled evidence, General Peers was in a position to complete his review and analysis of the evidence and to prepare the Final Report within a minimum of time.

The Peers Inquiry Final Report was completed and presented to the Secretary of the Army and the Army Chief of Staff in May 1970. Concurrent with the presentation of the Final Report, the Peers Inquiry concluded its work and disbanded, leaving a small residual element in-place to complete any remaining administrative work that needed to be done. In July 1970, custody of all Inquiry records and files was transferred from the Peers residual element to The Army Adjutant General's Office (TAGO). In August 1970, the Peers Inquiry residual element concluded its work and also disbanded, thus bringing the existence of the Peers Inquiry to an end.

Gen. Peers, personal files kept by key investigators of the inquiry, summaries of testimony by key participants implicated in the incident, records pertaining to Congressional hearings on My Lai, and individual case files of all persons who were directly or indirectly involved in the My Lai incident (both American and Vietnamese).

RECORDS UNIT DESCRIPTION: Series consists of records pertaining to the My Lai case and other war crime investigations created and maintained by the Army Staff after the completion of the Peers Inquiry investigation. Most of the records are from the period May 1970, when the Peers Inquiry completed its investigation and disbanded, through March 1975, when the Peers final report was released to the public. Much of the records pertain to developments in the My Lai case after the completion of the Peers investigation, while other files relate to access to and

publication of the Peers final report and supporting records. There are also case and investigation files of non-My Lai war crimes, as well as records dealing with U.S. Army policy formulation and implementation in response to allegations of war crimes in Vietnam.

61A. ADMINISTRATIVE HISTORY: The Office of Civil Operations and

Rural Development Support, (CORDS), MR III was organized on May 28, 1967.

The various divisions within CORDS, MR III changed names several times over a period of six years, but their functions remained fairly constant. The hierarchy was generally as follows: Deputy for CORDS (DEPCORDS), an assistant Deputy for CORDS, and then two offices; the Office of the Executive Secretary and the Office of Program Coordination. Under these there were eleven divisions: the Public Safety Division, the Pacification and Security Coordination Division; the RF/PF (Regional and Popular Forces) Advisory Division (which became the Territorial Forces Advisory Division in 1970); the Phoenix Division (which became the Phung Hoang Division in 1971); the Chieu Hoi Division; the Psychological Operations Division; the Refugee Division (which became the War Victims Division in 1971); the Public Health Division; the Management Support Division; the Political Advisor; and the New Life Development Division (which became the Development Division in 1971).

The Deputy for CORDS (DEPCORDS) supervised the formulation and execution of all military and civilian plans, policies, and programs which supported the Pacification Program of the Government of Vietnam (GVN). Additionally the DEPCORDS supervised all the Province Senior Advisors in MR III.

The Assistant Deputy for CORDS headed the CORDS, MR III staff. In doing so he formulated policy for the general operation of the staff, directed, supervised, and integrated the work of the staff and insured that orders and instructions of the DEPCORDS were executed. In the absence of the DEPCORDS the Assistant Deputy served in his place.

The Office of the Executive Secretary coordinated communications between the command group and all the divisions of CORDS, MR III. The Office assigned action responsibility to elements of CORDS, MR III staff for matters relating to requirements originating from higher headquarters and the command group. The Office issued directives for the operation of CORDS, MR III based on policies established by the Assistant DEPCORDS. The Office was also responsible for keeping the command group advised on all matters of executive interest relating to management and operations within CORDS, MR III. The Office additionally served as a recording and control center for executive information and monitored the military awards and decorations program.

The Office of Program Coordination served as the supervisory office of all programs within MR III. The Office established program policy and coordinated all civil and military US program planning, funding, reporting, and evaluating for the GVN Pacification and Development Program in MR III. The Office developed and elicited information and evaluations of on-going projects from MR III

division directors and made recommendations to the DEPCORDS regarding these evaluations. Additionally, the Office supervised the management of the CORDS MR III reports system and prepared the CORDS MR III Overview based on information obtained from CORDS MR III divisions, province advisory teams and field trips.

The Public Safety Division was responsible for implementing public safety programs and US mission support to various GVN agencies assigned to Public Safety. The Division recommended and implemented policies from the guidelines provided by headquarters and provided planning and technical advice to those GVN agencies at the MR III level. The PSD had three basic programs for which they were responsible for: the National Police; Telecommunications; and Corrections and Detentions.

The Pacification and Security Coordination Division (PSC) was responsible for coordinating the CORDS MR III activities relating to pacification security.

The Regional and Popular Forces (RF/PF) Advisory Division was responsible for advising the RF/PF Commander and his staff on policies and programs on employment of the RF/PF and evaluating their effectiveness. Additionally, they kept the DEPCORDS informed of the progress and status of the RF/PF as well as acting as a coordinating office with other MACV staff agencies for RF/PF activities. The RF/PF were in charge of territorial security in MR III. The Regional Forces were to seek out and destroy the enemy, protect key installations, lines of communications and maintain security for the populace. The Popular Forces were to protect hamlets and villages as well as key installations and lines of communications.

The mission of the PHOENIX program was to assist and advise the GVN in its effort to identify, apprehend, and neutralize the Viet Cong Infrastructure within MR III. The Division was responsible for managing the US PHOENIX program within MR III. The Division provided technical advice, support and assistance to the Capital Military District (CMD) PHOENIX Coordinator and the GVN MR III PHUNG HOANG Program. The Division also promoted and provided coordination between GVN and US/Free World Military Assistance Forces (FWMAF) in the conduct of anti-Viet Cong Infrastructure (VCI) operations and activities within MR III. Additionally, the Division was responsible for keeping the MACCORDS PHOENIX Directorate, Saigon informed of PHOENIX/PHUNG HOANG activities within MR III and reported problems for which there were no locally available solutions. The Division also served as the CORDS MR III staff point of contact for intelligence.

The Chieu Hoi ("Open Arms") Program was directed primarily toward Vietnamese people who had given military, political, or economic support to the Viet Cong within MR III, offering those who wished it an opportunity to come over to the side of the GVN. The program

tried to induce members of the Viet Cong, North Vietnamese Army, and their supporters to come over to the side of the GVN. The program would then try and convert these people into useful citizens, by means of reindoctrination and training. The program also attempted to collect information from the converts to be used for intelligence and psychological operations purposes. Ultimately, the goal of the program was to weaken the Viet Cong and North Vietnamese Army by loss of military and civilian personnel and weapons while simultaneously strengthening the GVN.

The Psychological Operations Division provided informational and psychological operations support to the GVN pacification and development effort and programs and activities conducted by CORDS within MR III. The Division tried to fulfill three objectives: creating a communications infra-structure by which the GVN could talk to its people; providing training and advice for Vietnamese who were responsible for talking to their people; and providing support to PHOENIX, Chieu Hoi, New Life Development and other CORDS projects. Additionally, the Division served as the principal advisor to the Commanding Generals, II FFV and MR III, preparing analyses of the shifting psychological climate within MR III and recommending psychological operations in support of CORDS policies and programs.

The Refugee Division, and the Province Refugee Advisors whom it supported, provided assistance and advice to GVN (primarily the Ministry of Social Welfare, and Relief) officials on the care and handling of refugees from the time of their entrance into refugee status until their re-establishment into Vietnamese society.

The Public Health Division was responsible for supporting many programs aimed at improving the health of the populace of MR III. They provided assistance at province hospitals; trained health personnel; provided preventative medicine teams that investigated epidemic diseases and supported programs for the containment and/or prevention of epidemics; assigned American Public Health Nurses to provinces and municipalities within MR III and taught public health programs. Additionally, they supported the GVN Minister of Health programs in the fields of nursing, medical logistics, medical construction, refugee health, and hospital administration.

The Management Support Division advised the DEPCORDS on matters relating to management and was the principal CORDS, MR III representative with respect to administrative and support matters.

The Political Advisor provided information and advice on political matters which affected pacification and development in MR III to the DEPCORDS, and to other interested elements of II Field Force Vietnam and CORDS, MR III. Additionally, the Advisor maintained a liaison between CORDS, MR III and the Embassy Political Section.

The New Life Division mission was to promote the ultimate existence

of self-sufficient villages with a strong and positive link to the National Government. In order to fulfill their mission, the Division supported programs dealing with Agriculture, Education, Engineering, Logistics, Community Development, and Public Administration.

CORDS, MR III functioned as a unit until early 1973 when it was dissolved as part of the withdrawal of American troops from Vietnam.

61A. ADMINISTRATIVE HISTORY:

The mission and function of the Defense Attache's Office (DAO)

were finalized by the Joint Chiefs of Staff on January 15, 1973 in Joint Chiefs of Staff Memo 25-73. The office itself was activated on January 28, 1973. The DAO, however, only assumed its full responsibilities with the departure of the Military Assistance Command Vietnam (MACV) from the Republic of Vietnam on March 29, 1973.

The primary objectives of the DAO remained fairly constant throughout its existence. They were originally outlined as the following:

Provide surveillance over the use of US Department of Defense resources furnished to the Republic of Vietnam Armed Forces (RVNAF)

Provide technical assistance to the RVNAF in attaining self-sufficiency of logistic and administrative elements, thus completing Vietnamization in these fields.

Phase out US contractual support, thereby fostering beneficial economic effects in the application of US resources through such techniques as local procurement and greater use of local nationals, in place of foreign labor.

Coordinate US military activities in-country including Psychological Operations, Joint Casualty Resolution Centers, and Search and Rescue Operations.

Evaluate and report on RVN operational activities.

To meet these objectives, the DAO was organized into six major operating divisions and a Special Staff Directorate. Those six operating divisions were: Army Division, Navy Division, Air Force Division, Communication/Electronics Division, Operation and Plans Division, and the Support Division.

The service divisions (Army, Navy, Air Force, and the Communications-Electronics Division) corresponded to the predecessor elements in the MACV. They were not in an advisory role, and their basic mission was to promote self-sufficiency of the RVNAF. Additionally, the service divisions were all responsible for providing miscellaneous technical assistance and support functions in the areas of transportation, supply, maintenance, medical, property disposal, and contract monitoring. The Army Division was to supervise and monitor the ARVN Military Assistance Service Funded (MASF) materiel programs, especially the Army Arsenal; the ARVN Medium Support Maintenance Program; the Tube-launched Optically tracked Wire-guided (TOW) Weapons System; the RVNAF Automated Materiel Management System (RAMMS) the ARVN Associated Depot; and Engineer Services and Facility Maintenance. The Navy Division was to supervise and monitor the VNN/VNMC MASF materiel programs, with emphasis on: the VNN Supply Center; the VNN

Shipyard; the VNN Logistics Support Bases (LSB), the Intermediate Support Bases (ISB), the Afloat Support Bases (ASB); the materiel readiness of microwave and other electronic equipment; and base construction and maintenance. The Air Force Division supervised and monitored the VNAF MASF materiel programs in the following areas: the augmentation of operational VNAF units as necessary to provide maintenance and supply capabilities until VNAF personnel shortfalls were reduced; and the expansion of the Air Logistics Command Depot Maintenance/Supply capabilities. The Air Force Division also assisted in equipment storage and maintenance operations; operation and maintenance of VNAF bases; and the development of VNAF C-E operators and maintenance personnel. The Communications-Electronics (C-E) Division ensured continued effective communications in support of DAO and US Embassy; provided for supervision of C-E contractors supporting operations and maintenance of RVNAF and residual US C-E systems; and provided technical and managerial guidance to the RVNAF Single Integrated Military (SIMS) Telecommunications System.

The Support Division was the Headquarters Commandant and administrative support manager for the Defense Attache (DATT). The Operations and Plans Division coordinated US military activities and evaluated and reported on RVNAF operations. The Special Staff Directorate was organized to coordinate the activities of administrative staff elements.

On January 20, 1974, the DAO was reorganized to provide a more efficient Security Assistance capability to the RVNAF and to reduce manpower resources (this was in response to a cut in funds from Congress). The Director Special Staff was disestablished and its security assistance functions were assumed by the new Deputy for Security Assistance. On April 3, 1974, the Deputy for Security Assistance was redesignated as the Security Assistance Division. During the third quarter of 1973 (July-September), the Property Disposal Division was added, only to be disestablished in the fourth quarter (October-December 1974).

The DAO was evacuated from the Republic of Vietnam under emergency conditions April 29, 1975 and performed residual functions at Fort Shafter, Hawaii, until August 31, 1975.

61A. ADMINISTRATIVE HISTORY: The Office of Civil Operations and Rural Development Support, Military Region 1 (CORDS MR1), was activated on May 28, 1967, with the mission of coordinating and managing all pacification and rural development operations and activities in support of the Republic of Vietnam Government in I Corps Tactical Zone/Military Region 1 (ICTZ/MR1).

Organized from various separate offices of the defunct Office of Civil Operations (OCO) Region I, and from MACV ICTZ advisory assets, CORDS MR1 was a subordinate component of the senior U.S. military command in ICTZ/MR1 (III MAF during May 1967-March 1970;

XXIV Corps during April 1970-March 1972; and First Regional Assistance Command [FRAC] during March 1972-March 1973), with policy guidance and administrative support provided by MACCORDS Headquarters in Saigon. In carrying out its mission, CORDS MR1 operated both at the regional level, through its subordinate divisions and branches; and at the provincial and local levels, through command and control of province and municipal advisory teams.

CORDS MR1 was organized with the Deputy for CORDS (DFC) as the head of the agency, supported by the Assistant Deputy for CORDS and Program Coordination (ADFC), and an immediate staff office. This staff office was initially organized as the Joint Staff in May 1967, was reorganized as the Program Coordination Staff (PCS) in May 1969, and was again reorganized as the Executive Secretariat in late 1970. Supporting this structure were two divisions providing management and planning support, as follows:

-Management Support Division (MSD): MSD had the mission of providing administrative, technical, and logistical support to CORDS MR1 offices and personnel.

-Plans, Programs, and Reports Division (PPR): PPR had the mission of formulating and coordinating short- and long-range pacification and development plans for ICTZ/MR1, integrating CORDS planning with those of other ICTZ/MR1 commands, and preparing reports and data relating to CORDS activities in ICTZ/MR1.

Subordinate to this hierarchy were the functional field program divisions, which changed designations and missions as the war progressed. These field program divisions included the following:

-PHUNG HOANG Division: PHUNG HOANG Division had the mission of advising and assisting South Vietnamese authorities with its anti-Viet Cong Infrastructure program. (Previously known as the PHOENIX Division prior to 1971).

-New Life Development Division (NLD): NLD had the mission of coordinating advisory efforts in development programs such as agriculture, education, logistics, and public works. (NLD was deactivated in mid-1969 and its missions assumed by the newly-activated Government Development Division and Economic Development Division).

-Government Development Division (GDD): Activated in mid-1969, GDD had the mission of coordinating advisory efforts in public administration, education, community development, and youth affairs.

-Revolutionary Development Cadre Division (RDC): RDC had the mission of advising and assisting the South Vietnamese RD Cadre Program. (RDC became a subordinate branch of the Government Development Division in 1970).

-War Victims Division (WVD): WVD had the mission of coordinating advisory efforts in support of South Vietnamese Government programs to care for and assist displaced refugees, disabled veterans, and other war victims in ICTZ/MR1. (Previously known as the Refugee Division prior to 1971).

-CHIEU HOI Division (CHD): CHD had the mission of advising and assisting South Vietnamese authorities in its administration of the CHIEU HOI ("Open Arms") Program, which was a program to encourage enemy personnel to defect to the Allied cause for eventual integration back into South Vietnamese society.

-Economic Development Division (EDD): Activated in mid-1969, EDD had the mission of coordinating advisory efforts in agriculture, industries, engineering, and logistics.

-Engineering Division (ENG): ENG had the mission of advising and assisting the South Vietnamese in such engineering matters as public works, construction activities, and infrastructure planning. (Previously a subordinate branch of Economic Development Division, upgraded to a division in Oct. 1971).

-Public Health Division (PHD): PHD had the mission of advising and assisting South Vietnamese authorities on such matters as public health, medical support, and sanitation; and coordinating the activities of U.S. Military Provincial Health Assistance Program (MILPHAP) Teams and Free World Medical Teams in ICTZ/MR1.

-Public Safety Division (PSD): PSD had the mission of providing advisory support for and assistance to the South Vietnamese National Police, correctional facilities, and other civilian public safety agencies and programs in ICTZ/MR1.

-Psychological Operations Division (PSYOPS): PSYOPS had the mission of providing advisory assistance to South Vietnamese psychological warfare and public information programs and campaigns, supporting the PSYOPS activities of other CORDS MR1 offices, and coordinating CORDS PSYOPS operations with those of other Free World forces in ICTZ/MR1.

-Territorial Forces Division (TFD): TFD had the mission of providing advisory and assistance support in the organization, training, employment, operation, and maintenance of South Vietnamese Regional Forces (RF), Popular Forces (PF), and People's Self Defense Forces (PSDF) in ICTZ/MR1. (Previously known as the RF/PF Advisory Division up through mid-1969).

CORDS MR1 continued with its missions until early 1973, when it was deactivated as part of the U.S. withdrawal from Vietnam.

61A. ADMINISTRATIVE HISTORY: The Office of Civil Operations and Rural Development Support, Military Region 2 (CORDS MR2), was activated on May 28, 1967, with the mission of coordinating and managing all pacification and rural development operations and activities in support of the Republic of Vietnam Government in II Corps Tactical Zone/Military Region 2 (IICTZ/MR2).

Organized from various separate offices of the defunct Office of Civil Operations (OCO) Region II, and from MACV IICTZ advisory assets, CORDS MR2 was a subordinate component of the senior U.S. military command in IICTZ/MR2 (IFEV) during May 1967-April 1971 and

SRAC during May 1971-March 1973), with policy guidance and administrative support provided by MACCORDS Headquarters in Saigon. In carrying out its mission, CORDS MR2 operated both at the regional level, through its subordinate divisions and branches; and at the provincial and local levels, through command and control of province and municipal advisory teams. Additionally, due to the large population of highland ethnic minorities (commonly known as Montagnards) in IICTZ/MR2, CORDS MR2 managed a number of programs in support of the highland population, eventually organizing an office that specialized in highland affairs.

CORDS MR2 was organized with the Deputy for CORDS (DEPCORDS) as the head of the agency, supported by the Assistant Deputy for CORDS (ADEPCORDS), and an immediate staff known as the Office of the Executive Secretary (ExSec). Supporting this structure were two offices providing management and planning support as follows:

-Office of Management Support (OMS): OMS had the mission of providing administrative, technical, and logistical support to CORDS MR2 offices and staff.

-Office of Plans, Reports, and Evaluations (OPRE): OPRE had the mission of formulating and integrating pacification planning in II CTZ/MR2, performing evaluations of IICTZ/MR2 pacification operations to determine effectiveness, and maintaining staff coordination and liaison with all U.S. advisory elements in IICTZ/MR2 regarding pacification.

Subordinate to this hierarchy were the functional field program units. These units initially operated as divisions with subordinate branches, but as the nature of the war in IICTZ/MR2 changed and evolved, these field divisions were eventually upgraded to full field offices with subordinate divisions and branches managing sub-programs and activities. By 1972, these field offices had evolved into the following:

-Office of Public Health (OPubH): OPubH had the mission of advising and assisting South Vietnamese authorities on such matters as public health, medical support, and sanitation; and coordinating the activities of U.S. Military Provincial Health Assistance Program (MILPHAP) Teams and Free World Medical Teams in IICTZ/MR2.

-Office of Territorial Forces (OTF): OTF had the mission of providing advisory and assistance support in the organization, training, employment, operation, and maintenance of South Vietnamese Regional Forces (RF), Popular Forces (PF), and People's Self-Defense Forces (PSDF) in II CTZ/MR2.

-Office of PHUNG HOANG (OPH): OPH had the mission of advising and assisting South Vietnamese authorities with its anti-Viet Cong Infrastructure program.

-Office of Highland Affairs (OHA): OHA had the mission of managing and overseeing programs that assisted the Central Highlands ethnic minority (Montagnard) population in IICTZ/MR2.

-Office of Public Safety (OPS): OPS had the mission of providing advisory support for and assistance to the South Vietnamese National Police, correctional facilities, and other civilian public safety agencies and programs in IICTZ/MR2.

-Office of Psychological Operations and CHIEU HOI (OPC): OPC had the dual missions of: 1) providing advisory assistance to South Vietnamese psychological warfare and public information programs and campaigns; 2) advising and assisting South Vietnamese authorities in its administration of the CHIEU HOI ("Open Arms") program for Viet Cong and North Vietnamese defectors. (Prior to 1972, Psychological Operations and CHIEU HOI were organized as two separate independent field divisions).

-Office of Regional Development (ORD): ORD had the mission of coordinating advisory efforts in development programs such as agriculture, public administration, education, public works, war victims assistance, and commodities distribution. (Known as the Office of Development Operations [ODO] prior to 1972. ODO had previously absorbed the functions and missions of the deactivated New Life Development Division [NLD] and Revolutionary Development Cadre Division [RDC]).

CORDS MR2 continued with its missions until early 1973, when it was deactivated as part of the U.S. withdrawal from Vietnam.
