RE: Freedom of Information Act Request: NGC21-632; Civil Action No. 20-1735 (RCL)

Dear Mr. Clarke:

This is in response to your client's Freedom of Information Act (FOIA) requests to the National Archives and Records Administration (NARA), dated April 20, 2020, and May 21, 2021. We assigned your request internal tracking number NGC21-632.

This thirtieth release contains two (2) electronic files, which covers 20 records totaling approximately 523 pages responsive to your request. Due to an issue with the redaction software and my laptop, I am breaking the responsive records to you in two batches. The first batch is being released to you in full, however, the second batch contains a small number of redactions that contain personal privacy information exempted under 5 U.S.C. §552 (b)(6).

Please note that the first portion of records are being delivered to you with this letter, the second batch of responsive records will be sent by me on January 2nd. I apologize for the delay.

As this request is now in litigation, please contact Assistant United States Attorney Thomas W. Duffey (Thomas.duffey@usdoj.gov) if you have any questions. The case number for this litigation case 20-cv-01735 (RCL).

Sincerely,
Joseph A. Scanlon

Good afternoon Helena,

The National Archives accessioning office has recently completed a review of remaining P2018 Late Transfer requests for Navy record groups from the Washington National Records Center (WNRC) to Archives II in College Park.

During our review, our office located forty six additional transfers which either contained possible temporary records or a mixture of permanent and possibly temporary material.

The attached spreadsheet will provide information concerning our review. Please advise our office by **Friday November 9th 2018** if you have any questions, comments, or concerns regarding this review.

MEMORANDUM FOR SECRETARIES OF THE MILITARY DEPARTMENTS
CHAIRMAN, JOINT CHIEFS OF STAFF

SUBJECT: Release of Information Obtained in Debriefings of
Returned Prisoners of War (POWs) from Indochina -
INFORMATION MEMORANDUM

Debriefing information provided by Prisoners of War (POWs) who have been returned to the United States consists of classified information and confidential source information with a direct bearing on national defense and the conduct of our foreign relations. Accordingly, in the best interest of the United States, its citizens, and its allies, the information must be protected from disclosure.

Executive Order 11652, dated March 8, 1972, was the basis for classifying major portions of the POW debriefing information. Although the Executive Order recognized that the public must be informed concerning activities of the government, it established criteria for determining when the information should be classified. The information POWs provided concerning military plans, weapons, and operations; the vulnerabilities and capabilities of certain systems and plans; and intelligence sources and methods met the criteria of Executive Order 11652 and was classified. Later, under the criteria of Executive Order 12356, dated April 2, 1982, it was determined that the information was still currently and properly classified.

POW debriefings also produced confidential information obtained under a non-disclosure promise. POWs were promised that their complete and candid statements about the conditions of their captivity and the events surrounding their capture, captivity and release would not be disclosed. Release of this confidential information would violate confidentiality agreements and constitute an unwarranted invasion of their personal privacy.

Two exceptions to this general guidance exist:

1. Family members of Americans missing and unaccounted for in Indochina have been provided a detailed summary of the POW debriefs. The summaries have included all releasable information concerning missing family members.

Dec 23, 2024

000364

2. Returned POWs who have requested release of their debriefing information have been allowed a one-time security clearance and provided access to read and review the debriefing files in a controlled environment. The authorization to review files did not constitute authorization to copy, record, or retain the debriefing file.

Questions beyond the scope of this guidance should be referred to the Principal Advisor on POW/MIA Affairs, OASD/ISA/POW-MIA.
