RE: Freedom of Information Act Request: NGC21-632; Civil Action No. 20-1735 (RCL)

Dear Mr. Clarke:

This is in response to your client's Freedom of Information Act (FOIA) requests to the National Archives and Records Administration (NARA), dated April 20, 2020, and May 21, 2021. We assigned your request internal tracking number NGC21-632.

This twenty-first release contains 3 electronic files, that contain 9 records totaling approximately 586 pages responsive to your request. After our review, we have determined that all pages can be released in full. One document will have to be sent to you under a different email due to its size.

As this request is now in litigation, please contact Assistant United States Attorney Thomas W. Duffey (Thomas.duffey@usdoj.gov) if you have any questions. The case number for this litigation case 20-cv-01735 (RCL).

Sincerely,

Joseph A. Scanlon

AGREEMENT TO TRANSFER RECORDS TO THE NATIONAL ARCHIVES OF THE UNITED STATES

1. INTERIM CONTROL NO. (NARA Use Only)

TERMS OF AGREEMENT

The records described below and on the attached pages are deposited in the National Archives of the United States in accordance with 44 U.S.C. 2017. The transferring agency certifies that any restrictions on the use of these records are in conformance with the requirements of 5 U.S.C. 552.

use of these records will be imposed other than the general and specific restrictions on the use of records in the National Archives of the United States that have been published in 36 CFR Part 1256 or in the Guide to the National Archives of the United States. The Archivist may destroy, donate, or otherwise dispose of any containers, duplicate copies, unused forms, blank stationery, nonarchival printed or processed material, or other nonrecord material in any manner authorized by law or regulation. Without further consent, the Archivist may destroy deteriorating or damaged documents after they have been copied in a form that retains all of the information in the original document. The Archivist will use the General Records Schedule and any applicable records disposition schedule (SF 115) of the transferring agency to dispose of nonarchival materials contained in this deposit.

Subject: Artifact

MaryLynn,

We recently received an accession of Air Force records which were sent to NWCS for review of the withdrawal of non-textual material. I have now received back the textual records and one artifact. The item, part of a weather balloon from records documenting the Roswell incident, is housed in a large triangular crate on a long john which is now in my office. This item requires a custom made box before we put it into the stacks.

Can you please advise on the length of time to provide this.

I will be on leave until next Wednesday however if you wish to come up and take the crate please feel free to do so.

Thanks

Tony Fantozzi

Hi! Tony...I dropped off this morning 9/24, inside 4500, the internal transfer to NWCTM from accession NN3-341-01-001.... that is the remaining textual files for the Roswell Source Data Files. A copy of the closed accession dossier, inventory list from USAF for each box, an annotated list of what we withdrew as special media items, 14044, etc. is included on top of the white FRC boxes....along with the large triangular wood box artifact!

Thanks

Les

>>> Anthony Fantozzi 09/19/01 06:22AM >>>
Les,

How many boxes are there? The crate is included I assume as an artifact?
You can bring the materials back to room 4500 and we will get them shelved.

Thanks,

Tony

>>> Leslie Waffen 09/18/01 05:08PM >>>

Well Tony.....we finally pulled out all the special media audio/video items from this accession you gave to me last March. We have put withdrawal sheets in the boxes, and also copied any transcripts/scripts that related to the audio cassettes and video/films. Ed McCarter in NWCS (Stills) decided that all the photos belong with the textual records and it would make no sense to withdraw those from the textual files.

We are ready to give you the remaining textual records and that wonderful wood crate (!)....along with a copy of the accession dossier. How about next week? and where should I deliver the textual records? There has been several nibbles from several media researchers who will want soon to also see the textual records, so it is best that you have these to make them available.

Subject: Re: NN3-341-01-001 Roswell

Tony.....you will be getting back 9 original FRC cartons, Bx #1-9, plus Bx 10 the artifact, but several cartons are now half empty, and you can consolidate if you wish. However, remember the USAF inventory is geared to the FRC carton numbers #1-11. We kept Box 11 of 11 since it was all videotapes.

The extra box 11A you and I saw in the transfer for the accession was actually just a group of refiles, textual and media. I put them back where they belonged based on USAF initial box list inventory. Someone at USAF rummaged through this material after the inventory was made, pulled stuff out and then created another box, and stuffed the items into the extra box rather than returning them to right boxes. It is my impression some of the textual files mentioned on the initial USAF inventory are now not in strict order according to the inventory sheets for each box.

My 14044 will mention the textual records estimate as being 7 cu.ft. and the special media being 4 cu.ft. I don't know how to list the artefact.

How about I bring the material to you on Monday, say 11 am or so?

Les

Ms. Cheryle Gumaer
Records Officer
United States Air Force
AF/SCTIR
1250 Air Force Pentagon
Washington DC 20330-1250

Dear Ms. Gumaer:

The National Archives and Records Administration (NARA) has completed its review of the permanent records of U.S. Air Force Commands, Activities, and Organizations stored at the Washington National Records Center (WNRC) and eligible for transfer to NARA in 2002. As a result of this review, we have prepared the enclosed SF 258s, "Agreement to Transfer Records to the National Archives of the United States" covering 49 cubic feet of unclassified and 97 cubic foot of security classified eligible permanent records.

Please review the SF 258s for accuracy, sign them in Block 2A and return them to:

Richard Wood
Initial Processing and Declassification Division (NWMD) Room 2600 National Archives at College Park
8601 Adelphi Road
College Park MD 20740-6001

If you have any further questions about these textual records accessions please contact Mr. Wood on 301-713-7159

Sincerely,

JEANNE SCHAUBLE
Director

Ms. Olthea S. Croom
Records Officer
Department of the Air Force
1250 U.S. Air Force Pentagon
Washington DC 20330-1250

Dear Ms. Croom:

Enclosed are signed copies of Standard Form 258 (our numbers NN3-334-02-001 and NN3-342-02-004) for records of your agency recently transferred to the custody of the National Archives and Records Administration. The signature on Line 16 confirms that the records have been accepted into the archives of the United States.

Please note the following items concerning this job.

Box 31 of Accession 342-92-0382 was missing at the time of transfer.
Box 12 of Accession 342-92-0483 was missing at the time of transfer.
Boxes 4 and 10 of Accession 342-91-0312 were missing at the time of transfer.

These records were not transferred to the National Archives. If you should locate them in your agency, please send them directly to the National Archives at College Park and do not return them to the Washington National Records Center (WNRC).

If you have any questions about this transfer, please let me know by telephone (301-837-0595) or by e-mail Richard.Wood@nara.gov

Sincerely,

RICHARD E. WOOD
Supervisory Archivist

AGREEMENT TO TRANSFER RECORDS TO THE NATIONAL ARCHIVES OF THE UNITED STATES

1. INTERIM CONTROL NO. (NARA Use Only)

TERMS OF AGREEMENT

The records described below and on the attached _____ pages are deposited in the National Archives of the United States in accordance with 44 U.S.C. 2107. The transferring agency certifies that any restrictions on the use of these records are in conformance with the requirements of 5 U.S.C. 552.

use of these records will be imposed other than the general and specific restrictions on the use of records in the National Archives of the United States that have been published in 36 CFR Part 1256 or in the *Guide to the National Archives of the United States*. The Archivist may destroy, donate, or otherwise dispose of any containers, duplicate copies, unused forms, blank stationary, non-archival printed or processes material, or other non-record material in any manner authorized by law or regulation. Without further consent, the Archivist may destroy deteriorating or damaged documents after they have been copied in a form that retains all of the information in the original document. The Archivist will use the General Records Schedule and any applicable records disposition schedule (SF 115) of the transferring agency to dispose of non-archival materials contained in this deposit.

In accordance with 44 U.S.C. 2108, custody of these records becomes the responsibility of the Archivist of the United States at the time of transfer of the records. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 36 CFR XII, 36 CFR Part 1256 and such other rules and regulations as may be prescribed by the Archivist of the United States (the Archivist). Classified Records Transfer Checklist

The National Declassification Center (NDC) requests agencies provide documentation certifying a review for declassification and referrals has been completed as required by Executive Order 13526 and the Special Historical Records Review Plan (Public Laws 105-261 and 106-65).

These criteria are outlined on NA Form 14130, Classified Records Transfer Checklist. This form, or a comparable form created by your agency containing the same information, must be completed in its entirety for each classified accession proposed for transfer to the National Archives. The completed form must accompany each ERA Transfer Request (TR) as an attachment (or Agreement to Transfer Records to the National Archives (SF 258) if special circumstances merit use).

Questions concerning the attached form should be directed to Don McIlwain, FOIA and Mandatory Review Chief, NDC at (301) 837-0587 or David Mengel, NDC Deputy Director, at (301) 837-1975.

Terms of Agreement

The records described above are deposited in the National Archives of the United States in accordance with 44 U.S.C. 2107. The transferring entity certifies that any restrictions on the use of these records are in conformance with the requirements of 5 U.S.C. 552.

In accordance with 44 U.S.C. 2108, custody of these records becomes the responsibility of the Archivist of the United States at the time of transfer of the records. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 36 CFR XII, 36 CFR Part 1256 and such other rules and regulations as may be prescribed by the Archivist of the United States (the Archivist). Unless specified and justified above, no restrictions of the use of these records will be imposed other than the general and specific restrictions on the use of the records in the National Archives of the United States that have been published in 36 CFR Part 1256 or in the *Guide to the National Archives of the United States*.

The Archivist may destroy, donate, or otherwise dispose of any containers, duplicate copies, unused forms, blank stationary, non-archival printed or processed material, or other non-record material in any manner authorized by law or regulation. Without further consent, the Archivist may destroy deteriorating or damaged documents after they have been copied in a form that retains all of the information in the original document. The Archivist will use the General Records Schedule and any applicable records disposition schedule (SF 115) of the transferring agency to dispose of non-archival materials contained in this deposit.

Classified Records Transfer Checklist

The National Declassification Center (NDC) requests agencies provide documentation certifying a review for declassification and referrals has been completed as required by Executive Order 13526 and the Special Historical Records Review Plan (Public Laws 105-261 and 106-65).

These criteria are outlined on NA Form 14130, Classified Records Transfer Checklist. This form, or a comparable form created by your agency containing the same information, must be completed in its entirety for each classified accession proposed for transfer to the National Archives. The completed form must accompany each ERA Transfer Request (TR) as an attachment (or Agreement to Transfer Records to the National Archives (SF 258) if special circumstances merit use).

Questions concerning the attached form should be directed to Don McIlwain, FOIA and Mandatory Review Chief, NDC at (301) 837-0587 or David Mengel, NDC Deputy Director, at (301) 837-1975.

Terms of Agreement

The records described above are deposited in the National Archives of the United States in accordance with 44 U.S.C. 2107. The transferring entity certifies that any restrictions on the use of these records are in conformance with the requirements of 5 U.S.C. 552.

In accordance with 44 U.S.C. 2108, custody of these records becomes the responsibility of the Archivist of the United States at the time of transfer of the records. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 36 CFR XII, 36 CFR Part 1256 and such other rules and regulations as may be prescribed by the Archivist of the United States (the Archivist). Unless specified and justified above, no restrictions of the use of these records will be imposed other than the general and specific restrictions on the use of the records in the National Archives of the United States that have been published in 36 CFR Part 1256 or in the *Guide to the National Archives of the United States*.

The Archivist may destroy, donate, or otherwise dispose of any containers, duplicate copies, unused forms, blank stationary, non-archival printed or processed material, or other non-record material in any manner authorized by law or regulation. Without further consent, the Archivist may destroy deteriorating or damaged documents after they have been copied in a form that retains all of the information in the original document. The Archivist will use the General Records Schedule and any applicable records disposition schedule (SF 115) of the transferring agency to dispose of non-archival materials contained in this deposit.

61A. ADMINISTRATIVE HISTORY: NORAD is a binational command that was established in 1958 after lengthy discussions between the United States and Canada. NORAD placed elements of the U.S. and Canadian air defense forces under a joint command. The major command elements under NORAD were the U.S. Air Force Air Defense Command (USAFDC), the U.S. Army Air Defense Command (ARADCOM), and the Canadian Forces Air Defense Command (CFADC). In 1960 NORAD began operating the Ballistic Missile Early Warning System (BMEWS)--a system for detecting and tracking missiles launched against North America--with stations located in Alaska, Greenland and the British Isles. In 1961 NORAD initiated the SAGE/BUIC system for defense against manned bombers. NORAD also tracks man made objects in space using the Space Detection and Tracking System (SPADATS).

the specifications of the SAGE/BUIC air defense system and training procedures for its use. SAGE/BUIC was installed in 1961 as a system for integrating the defenses against a manned bomber attack. In SAGE, computers receive and process radar data and display the situation so that air defense commanders can follow the battle situation and direct the defense weapons. Intercepting planes are equipped with auto pilots which can be guided from the ground. In the event SAGE becomes inoperative, its functions can be taken over by BUIC--the Back Up Interceptor Control System--with widely dispersed automated control centers.

This letter pertains to Semiautomatic Ground Environment/Backup Intercept Control System (SAGE/BUIC) Records being offered for permanent retention.

Classified SAGE/BUIC records have been reviewed, downgraded and declassified where possible. Certain parameters from the SAGE/BUIC weapons package were updated and incorporated into the current Joint Surveillance System (JSS) weapons package. Because this weapons package is currently and properly classified, continued classification is required for a portion of the SAGE/BUIC records offered for permanent retention.

The security classification guide for the SAGE/BUIC system was superseded and incorporated into the current Joint Atmospheric Connectivity Security Classification Guide dated 1 February 1988.

There are no restrictions on release of unclassified SAGE/BUIC records.

Deputy Director for Air Defense Operations

History: JBUSMC established in Rio de Janeiro by Recommendation 10, Joint Brazil-United States Defense Commission (JBUSDC), Washington, DC, October 28, 1942, implementing Political-Military Agreement, effective May 23, 1942, providing for formation of two Brazilian-American technical military commissions to prepare mutual defense plans, each commission to consist of representatives of both countries' armed services. JBUSMC, consisting of an army and a navy element, reported through JBUSDC to the Operations Division, War Department General Staff. U.S. Army Section, JBUSMC, consisting of a Ground Division and an Air Division, organized December 1942. Transferred to administrative control of Commanding General, U.S. Army Forces, South Atlantic (USAFSA), effective March 1, 1945, by War Department classified message WARX 37844, February 12, 1945. Returned to prior status upon abolishment of USAFSA by General Order 37, HQUSAFSA, October 31, 1945, pursuant to War Department classified message WARX 78180, October 24, 1945. JBUSMC functions expanded to include training and equipping Brazilian armed forces; making recommendations to both countries' military departments; and examining all matters affecting defense of the western hemisphere, by Recommendation 16, JBUSMC, October 15, 1945, approved by Brazilian government, October 23, 1945 and by U.S. War and Navy Departments, October 27, 1945. U.S. Army Section abolished, and U.S. Army Section--Ground and U.S. Army Section--Air established, with administration handled by Joint Air-Ground Secretariat, effective October 31, 1945, by General Order 3, HQ U.S. Army Section, JBUSMC, October 30, 1945. U.S. Army Section--Ground redesignated U.S. Army Section by General Order 1, HQ U.S. Army Section, JBUSMC, December 2, 1947; and U.S. Army Section--Air redesignated U.S. Air Force Section by General Order 1, HQ U.S. Air Force Section, JBUSMC, December 5, 1947, pursuant to establishment of U.S. Air Force by the National Security Act of 1947 (61 Stat. 503), July 26, 1947. U.S. Army Section redesignated U.S. Army Element, January 1957. JBUSMC terminated

by announcement of Brazilian President Ernesto Geisel, September 17, 1977, confirmed in Jornado do Brasil, September 19, 1977.

Dear Ms Phillips:

Per our telephone conversation on April 18, 1990, I attach Standard Form 258, dated May 6, 1988, regarding the transfer of technical memoranda for SAGE/BUIC System (Semiautomatic Ground Environment/Backup Intercept Control System) records from the Air Force to National Archives. We did not receive a notice of your control number. We know the SF 258 was received. We talked to Mr. Guftafson about it when he was in the Printed Archives section. We are very anxious to make this transfer. We have the boxes stored in one of our office areas at the Air Force Space Command, Peterson Air Force Base, CO since 1988. The office needs the space very badly now.

I will really appreciate anything you can do to get this request back in the processing channels. If you wish to discuss, please call me at 694-3527.

Sincerely,

Per SAF/AAIA Ltr, 16 May 90, Subj: Retirement of SAGE/BUIC Records, and National Archives Ltr, May 11, 1990, SAGE/BUIC records are offered to the National Archives for permanent retention under JOB NN3-342-88-01. A copy of the approved SF 258 is at attachment 1.

There are no restrictions on release of unclassified records. The classified records have been downgraded or declassified, where possible. SAGE/BUIC records that must remain classified have been reviewed and classification authority has been updated. HQ NORAD/J30, letter is at attachment 2. A copy of this letter has been placed in each folder affected by classification action.

A complete listing of all records being transferred, both classified and unclassified, is at attachment 3. Each box contains a copy of the SF 258 with listing attached.

The original paper copies of many of the SAGE/BUIC records had been destroyed after they were placed on microfiche. Because the microfiche is not archival, paper copies were reproduced. We are including the microfiche as informational source documents only. A complete listing of the microfiche (classified and unclassified) is at attachment 4.

DOD 5200.1R/AFR 205-1 requires that we obtain a signed receipt for classified shipments. In addition to the SF 258, would you please sign the AF Form 310 and forward copies of both forms to HQ AFSPACECOM/IMD. A self-addressed envelope is attached for your convenience.

This letter pertains to Semiautomatic Ground Environment/Backup Intercept Control System (SAGE/BUIC) Records being offered for permanent retention.

Classified SAGE/BUIC records have been reviewed, downgraded and declassified where possible. Certain parameters from the SAGE/BUIC weapons package were updated and incorporated into the current Joint Surveillance System (JSS) weapons package. Because this weapons package is currently and properly classified, continued classification is required for a portion of the SAGE/BUIC records offered for permanent retention.

The security classification guide for the SAGE/BUIC system was superseded and incorporated into the current Joint Atmospheric Connectivity Security Classification Guide dated 1 February 1988.

There are no restrictions on release of unclassified SAGE/BUIC records.

Dear Mr. Swerczek:

I refer to our recent conversation regarding NORAD records. Attached is a group of documents furnished by the Records Manager of the Air Force Space Command that I believe will be of interest to you. The Air Force Space Command is a support facility for NORAD.

I hope you will find the attached documents helpful.

Sincerely,

NORAD/CONAD/ADC Documentation

HQ USAF/DAD

1. Since the staffs of HQ NORAD/CONAD and HQ ADC have been consolidated, assigned personnel perform the same functions for each Headquarters. (Headquarters NORAD, Headquarters CONAD, and Headquarters ADC remain distinctly separate organizations.)

2. Present Command policy requires documentation of each headquarters to be filed separately, and listed on separate AF Form 80, "Files Maintenance and Disposition Plan." This policy has met with considerable resistance for the following reasons:

a. Although the majority of offices perform functions for each command, the staff elements primarily create and receive documentation related to one command.

b. Quantity of documentation accumulated for the other commands is minimal, and is related to actions normally taken by one command on behalf of the others. For example, the minimal amount of correspondence processed for NORAD/CONAD by an ADC staff element is not sufficient to warrant the creation of a separate file, and would cause additional loss of time in the search for record copies (that is, looking in the ADC files; finding the cross-reference sheet, then retrieving documentation from the appropriate file, etc.).

c. Existing policy causes offices to prepare/use additional AF Forms 80 and 82, guide cards, file folders and labels, and cross-reference sheets, in order to maintain small volumes of documentation.

3. We propose to authorize offices to maintain a combined file for HQ NORAD/CONAD/ADC documentation with short term retention (8 years or less), and to list all such documentation on one AF Form 80. Documentation which AFM 12-50 requires to be retired to a records center, and documentation which has access restrictions, will continue to be filed separately and will be listed on separate AF Form 80.

4. We believe the proposed policy will be beneficial to efficiency of files maintained in the Headquarters; use less administrative supplies; save manpower; and reduce the need for filing equipment, thus saving premium office space.

5. To further substantiate our proposal, the Joint Chiefs of Staff and HQ USAF/CHO have agreed to the consolidation of the ADC history with the CONAD history. (See Attachment 1). Request approval be granted to implement the proposed policy outlined in paragraph 3 above throughout HQ NORAD/CONAD/ADC.

6. Further request clarification on whether NORAD/CONAD Regions should be considered major subordinate commands for documentation purposes. These regions are directly subordinate to HQ NORAD/CONAD. They are collocated with the ADC Air Divisions and, in most cases, the Air Division Commander is also the Region Commander. The Region Commander exercises operational control over all ADC, Army Air Defense Command, and Canadian Air Defense units in his region, but the regions do not have subordinate units in the sense that the Air Divisions do. The seven regions have a total of seven control centers under their jurisdiction. In the CONUS, a control center is one section within an ADC radar squadron. Clarification is also requested as to whether ADC Air Divisions are major subordinate commands for documentation purposes, specifically, correspondence files and standard publications.

OFFICE OF THE SECRETARY

Colonel James H. Rix
HQ NORAD/DA
Peterson AFB, CO 80914

Dear Colonel Rix:

During the past several months, this office acted upon appeals from denials of Freedom of Information Act (FOIA) requests made of Headquarters, North American Aerospace Defense Command (HQ NORAD). In the consideration of these appeals, the question of the applicability of the FOIA to NORAD arose, and a decision has been made as to the processing of similar appeals in the future.

NORAD was established as a joint United States-Canada organization under the North Atlantic Treaty, and as an international organization it is our view that it is not subject to the FOIA. Thus, any records validly held in a NORAD denominated and controlled records system would be outside the purview of the FOIA, and it would be inappropriate for the office of the Secretary of the Air Force to act as the appellate authority for a requester's appeal of a NORAD denial. Accordingly, this office will no longer substantively consider FOIA appeals for records validly held in records systems identified as controlled by NORAD, but will return such applications to requesters without further action.

Sincerely,

STEVEN A. THOMPSON

RECORDS KEEPING PRACTICE
NORAD HQ - CANADA/USA

Reference: A. Your letter dated 28 Jan 81

1. Reference A has been reviewed.
2. It is confirmed that the Canadian Forces contingent of NORAD HQ agrees in principle that NORAD records i.e. USAF, CF's should be maintained and disposed of as per USAF regulations.

Memo of Record:

Col Moton CF asked Maj Crabbe to respond in this manner, as CFSU is a Command billet. An atch memo,

Colonel R. W. Morton, CFC
 HQ NORAD/J5A

20 JAN 1981

Dear Colonel Morton

This concerns records-keeping practices here at NORAD HQ and at the NORAD Regions. Major Tracy of Public Affairs has suggested that we bring to your attention a matter that we perceive as a problem and ask for your recommendation as to the proper course of action.

Basically, here is the situation:

a. NORAD records are probably the property of both the United States and Canada. Here we would define NORAD records as those documents created or received by those staff functions at NORAD HQ and the NORAD Regions that are identified in the HQ organizational manual and Region mission directives as being a part of the NORAD organization. Units over which CINCNORAD has only operational control are not considered to be affected by NORAD records-keeping policies.

b. To our knowledge, there is no agreement between the two Governments concerning the maintenance and disposition of NORAD records. However, it seems that years ago NORAD HQ and the NORAD Regions, except 22 NR HQ, elected to use existing US and Air Force standards and procedures. We do not know what practices the 22 NR HQ is using or the eventual disposition of their NORAD records.

c. When NORAD HQ and the US-based regions merged with the then USAF ADCOM, records having a total retention period of less than nine years were, in many cases, combined. Thus, a single file was maintained for records of NORAD, U.S. ADCOM (specified) and USAF major commands; and now, here at the headquarters, the Aerospace Defense Center. Separate files, by each organization, were required to be maintained for records having a retention period of nine years or more. However, in practice, this has not always been the case.

d. NORAD records (except those of the 22 NR HQ) having a retention period of nine years to permanent, have been retired to US records repositories operated by the US Air Force and the US General Services Administration. These records will belong to NORAD, in most cases, until they are fifty years old. They will then be permanently transferred to the exclusive custody and control of the Archivist of the United States, under present practices.

We believe there needs to be an understanding about how NORAD records are to be maintained and disposed of. We would prefer to continue the present practice, except we suggest that in offices in the HQ that have a joint function (i.e., NORAD/ADCOM (Specified)/ADC) joint files be permitted regardless of retention period. This practice would require consent of the USAF Records Management Officer, the US Departments of the Army and Navy as well as the Archivist of the US and, we suggest, Canadian Government authorities. If this practice is not concurred in, it would be a considerable task to reverse the present practices.

We would appreciate your advice and recommendations in this matter.

At Major Tracy's suggestion, an identical letter is being sent to Major Ray Crabbe. I will also add that we appreciate the advice and assistance provided by Major Tracy of Public Affairs.

Sincerely

1. We agree with your conclusions on the practicality of an integrated record-keeping system for the three organizations. We do, however, see the possibility of legal problems stemming from NORAD's bi-national status. We discussed your proposal with AF/JACI and recommend that you review the proposal with your Staff Judge Advocate.
2. NORAD's bi-national status would seem to give the Canadian government a property interest in the documents. Its status also raises questions on the applicability of Federal laws and regulations pertaining to the records of "Federal agencies."
3. Combining the documents of the three organizations would commit NORAD documents to the Federal record-keeping system. This would seem to call for Canadian consent.
4. If we can help you in reviewing this, please contact Mr. Speed of my staff at AV 224-3494.

1. Approval is granted for Headquarters offices of NORAD, CONAD, and ADC, including their Region Headquarters, to maintain one integrated file for all records with a retention period of 8 years or less, and to list all such records on one file plan for each office accumulating such records. Exceptions would be for records which each respective Headquarters' office specifies for separate identification and maintenance, such as records with access restrictions or which should be maintained separately to satisfy requirements of Army, Navy, or Air Force directives. Records which AFM 12-50 requires to be retained beyond 8 years would continue to be filed separately, listed on separate file plans, and eventually retired under the name of the respective Headquarters.

2. The above has the approval of the Departments of the Army and Navy. Further, the National Archives and Records Service has indicated that they would consider a proposal to integrate all permanent files for the three Headquarters. The advantage would be that the National Archives could accession the records under one record group rather than three record groups, when and if the records are offered and accepted for deposit into the National Archives. You may want to consider this at some future date if the parent Services of the three Headquarters would agree.

3. - Reference your paragraph 6 request for clarification. We consider the NORAD and CONAD Regions as falling under organization level code 3 in AFM 300-4, Volume III, ADE OR-250, 2 September 1974. Therefore, for documentation management purposes they should be considered major subordinate commands.

Dear General James:

As you know, there have been discussions between the Governments of Canada and the U.S.A. concerning the desirability of formulating a set of unclassified Terms of Reference for the Commander-in-Chief of NORAD, for his Deputy and for component commanders. United States and Canadian officials have subsequently worked out texts and both Governments have approved them. They are attached and should be considered to be effective as of the day you receive them. They should also be considered as being unclassified as of that time.

No publicity has been given in either Ottawa or Washington to the approval and transmittal to you of these new Terms of Reference. A copy has been transmitted, however, to the Chairman of the Standing Committee on External Affairs and National Defence of the Canadian House of Commons. There would be no objection should you consider it desirable for some sort of public announcement to be made by your headquarters.

NOTE(S):

1. Justification files for special authorizations, theater clearances, and other coordinations, approvals, or other records such as letters, messages, etc., which support the content or need for the orders, are maintained by orders-issuing/approval officials per AFI 37-128.

2. (RESERVED)

3. Transfer to National Archives in 10-year blocks when latest records in block are 25 years old.

4. Aeronautical, reserve, and A-series orders dated prior to May 1964 may be retained at NPRC for reconstruction of military personnel records destroyed by the 1973 fire, until no longer needed. When no longer needed, apply approved retention period.

5. The "Y", "O", and "X" series of orders are shreds of certain types of civilian travel. The "Y" order replaces the "T" for all civilian TDY to attend training. "T" is used for all other temporary duty actions for both military and civilian employees. "O" replaces "A" for all PCS-AFCPMC funded career program selections. "A" series is used for all military PCS orders, separations and certain appointments. "X" replaces "A" for all other civilian PCS orders.

Dear Ms. ^{Emma} Hochgesang-Noffsinger:

Enclosed is a copy of the Standard Form 258 (our number NN3-342-00-001) for records of your agency recently transferred to the custody of the National Archives and Records Administration. These records were originally scheduled for transfer in 2000. The signature on Line 16 confirms that the records have been accepted into the Archives of the United States.

If you have any questions about this transfer, please let me know by telephone (301-837-1647) or by e-mail alex.daverede@nara.gov

Sincerely,

ALEX J. DAVEREDE III
Supervisory Archivist

Dear Ms. Hochgesang-Noffsinger: *Emma*

Enclosed is a copy of the Standard Form 258 (our number NN3-342-00-001) for 1 cubic foot of records of your agency transferred in August 2005 to the custody of the National Archives and Records Administration. This letter documents the late shipment of Box 32 of WNRC transfer 342-70H6181 which was originally scheduled to be delivered in the year 2001. The signature on Line 16 confirms that the records have been accepted into the Archives of the United States.

If you have any questions about this transfer, please let me know by telephone (301-837-1647) or by e-mail alex.daverede@nara.gov

Sincerely,

ALEX J. DAVEREDE III

AGREEMENT TO TRANSFER RECORDS TO THE NATIONAL ARCHIVES OF THE UNITED STATES

JRC

1. INTERIM CONTROL NO. (NARA Use Only) NWD 04-4857

TERMS OF AGREEMENT

The records described below and on the attached pages are deposited in the National Archives of the United States in accordance with 44 U.S.C. 2107. The transferring agency certifies that any restrictions on the use of these records are in conformance with the requirements of 5 U.S.C. 552.

restrictions on the use of these records will be imposed other than the general and specific restrictions on the use of records in the National Archives of the United States that have been published in 36 CFR Part 1256 or in the Guide to the National Archives of the United States. The Archivist may destroy, donate, or otherwise dispose of any containers, duplicate copies, unused forms, blank stationery, nonarchival printed or processed material, or other non-record material in any manner authorized by law or regulation. Without further consent, the Archivist may destroy deteriorating or damaged documents after they have copied in a form that retains all of the information in the original document. The Archivist will use the General Records Schedule and any applicable records disposition schedule (SF 115) of the transferring agency to dispose of nonarchival materials contained in this deposit.

In accordance with 44 U.S.C. 2108, custody of these records becomes the responsibility of the Archivist of the United States at the time of transfer of the records. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 36 CFR XII, 36 CFR Part 1256, and such other rules and regulations as may be prescribed by the Archivist of the United States (The Archivist). Unless specified and justified below, no restrictions of the use of these records will be imposed other than the general and specific

Subject: Re: DIA delivery

There were 258s inside the boxes, and I will bring them up to you this morning. They all have letters to the equity agencies, and I assume the boxes are supposed to go to Meredith's referral center at some point. One 258 (five boxes) is marked RD and SCI. One of its boxes was marked declassified in pencil on the outside and contained no copy inside. Another 258 (three boxes) is marked RD. The last 258 (one box) has no special markings indicated. I will leave all the boxes in the SCIF and give you the locations. Do you need an escort to see them?

FYI, NN3-373-04-048 (WNRC 373-84-0100) are temporary records scheduled for disposal 07/2004.

1100 SERIES
INTELLIGENCE COLLECTION MANAGEMENT RECORDS
(NARA Approval follows each File Disposition)

Records pertaining to the general policy, intelligence planning, intelligence data bases, collection management, data systems, production and administrative management functions of the intelligence collection management offices.

- 1100 INTELLIGENCE COLLECTION RECORDS. Records pertaining to the review, validations, coordination, analysis, and evaluation of raw intelligence. Reference/Information Copy — TEMPORARY — Cut off annually, hold 1 year, and destroy. (NN 171-12, Item 530)
- 1102 SPECIAL INTELLIGENCE RECORDS. Biographic and classified data related to a classified mission. Record copies retained by Defense Source Register Branch. PERMANENT — Destruction not authorized. *By NIRM memo in part 87*
- 1106 COLLECTION REQUIREMENTS. Correspondence, messages, and documents pertaining to levy and collection action. *DIAM 13-1 CUP 2-19-91*
TEMPORARY — Hold 3 year after cancellation; destroy. (NN 171-12, Item 531)
- 1108 FUNCTIONAL INTELLIGENCE MANAGEMENT PUBLICATIONS. Records consist of collection management; Signals Intelligence (SIGINT), Human Intelligence (HUMINT), and other intelligence plans.
a. Record Copy — PERMANENT — Maintained by the administrative publications office for 1 year after supersession or rescission, then retired to WNRC. When 20 years old transfer to the National Archives. (NC1 373-77-7, Item 241a)
b. Reference/Information Copy — TEMPORARY — Destroy when superseded, obsolete or no longer needed for reference purposes. (NC1 373-77-7, Item 241b)
- 1110 INTELLIGENCE DATA BASE RECORDS. A collection of intelligence reference materials maintained to support intelligence analysis and/or planning and to aid in the development of finished intelligence products.
TEMPORARY — Destroy when superseded, obsolete or no longer needed for current operations. (NN 171-12, Item 515)
- 1120 TARGET JACKETS. Photos, copies of intelligence reports and various articles accumulated on specific targets such as bridges, railroads, terrain, munition factories, power plants, etc. filed by B.E. number. These target jackets are used as inputs to transportation, lines of communications, and integrated operational support studies. Studies are disseminated to the U & S commands and 2 copies are sent to our Reference Library as intelligence publications. 1 copy becomes the permanent copy that will be transferred to the National Archives after 40 years.
TEMPORARY — Retire to WNRC when no longer needed for frequent reference. Destroy 20 years after date of transfer. (NC1 373-83-4, Item 1)

Marvin,

I just spoke with Melissa about the boxes. Our records indicate that 373-78-0008 (vol. 3) was destroyed 7/84, 373-84-0100 (vol. 40) is up for disposal 7/2004. She said that 373-0014196 should have had a SF 258 with it. I don't know where the other 3 boxes are. I explained that before she transferred them to you, she had to give us an OF-11 to permanently withdraw them from WNRC.

I told her to give you a call to get this straightened out.

>>> Marvin Russell 07/01/04 03:07PM >>>

Ed Smith was expecting a delivery from DIA today. When it arrived he had no 258s or other paper work except a manifest listing 32 boxes. Since the boxes appeared to be records center material he called me.

23 of the boxes were the return or an accession which had been temporarily withdrawn. The other boxes all bore labels and comments indicative of declassification reviews. None of them were previously in stack 24. It is possible that they were reused boxes since the comments refer to referrals and declassified documents. I did not open them and examine the contents.

I checked our data base for accessions that have somewhat similar accession numbers to see if I could identify your five boxes. I also checked the stacks for 373-87-0100. I'm not finding anything.

All boxes from 373-84-0100 are here as are the boxes for 373-87-0100.

Don,

These records are indeed in the SCIF. Marvin Russell put them in there for us. His list of Stack 630A locations are attached. The way in which Melissa Folz sent these records over is very confusing to us. We still are not sure about what she has sent us, or what she wants us to do with it. Dick is familiar with the situation, so you might want to talk to him.

Sincerely,
Ed

>>> Don Mcilwain 08/03/04 09:45AM >>>
ed,

There were several DIA direct offers that came in within the last few months that have lots of referrals. Agencies are asking about these records. Do you have current locations for these records? I think that they may be in the SCIF?

Thanks,
Don

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.

REMARKS NN Job No. NN3-389-86-001. Records of Provost Marshal General, 1941 -.

Attached are one Format Y (previously created and included for information purposes) and ten Format X's for the records of the Enemy Prisoner of War Information Bureau (EPWIB).

This package replaces description reported on GSA Form 6710 on March 23, 1988.

Reboxing and foldering of the records accounts for the change in volume.

Please create an A-1 level for records described after July 1, 1987.

A copy of this job has been provided to NNTR for MLR purposes.

61A. Administrative History: War Department Training Circular No. 73 (Dec. 29, 1941), established the Alien Enemy Information Bureau, under the jurisdiction of the Information Branch, Aliens Division of the Provost Marshal General. The Navy Department, under a 1916 agreement with the War Department, turned all enemy prisoners of war captured by the Navy, over to the War Department for internment. Although the maintenance of personnel records was usually the responsibility of the Adjutant General, it was determined that the Provost Marshal General, having been delegated with prisoner of war responsibilities, was the logical office to maintain the Information Bureau. The Information Bureau was originally organized into four sections: 1) the Alien Enemy

Section; 2) the Enemy Section; 3) the American Military Section; and 4) the American Civilian Section. On June 4, 1943, the name of the Aliens Division was changed to the Prisoner of War Division, and the Information Branch became designated as the Information Bureau. By an order of the Provost Marshal General (December 11, 1944), the Prisoner of War Information Division (of which the Information Bureau had been a branch) was abolished. Two divisions were created to handle the Information Bureau activities. The American Prisoner of War Information Bureau became a separate division as did the Enemy Prisoner of War Information Bureau. Both of these divisions (as did the former bureaus) maintained close coordination with the Department of State, the American Red Cross, and the International Red Cross and the Protecting Power. The Enemy Prisoner of War Information Bureau (headquartered at Ft. George G. Meade, MD) was charged with the War Department's responsibility under Article 77 of the Geneva Convention of 1929, with respect to enemy prisoners of war in United States custody. This included their initial report of capture, subsequent transfer, repatriation, death, and replies to all inquiries.

14. RECORDS UNIT DESCRIPTION: This series consists of rosters
created by the EPWIB in 1956 and 1957 to maintain an
authoritative listing of persons from Germany who were in U.S.

custody during World War II (1941 - 1945). Rosters include the persons name and POW/Internee number. The records from which these rosters were created were apparently destroyed or offered to the subject country. A listing of citizens from neutral or allied countries who were held by the U.S. may be found in the related series ROSTERS OF FOREIGN NATIONALS IN U.S. CUSTODY DURING WORLD WAR II.

6. STATEMENT OF AGENCY REPRESENTATIVE

The records described above and on the attached _____ pages are hereby offered for deposit with the National Archives of the United States in accordance with 44 U.S.C. 2103. It is agreed that these records will be administered in accordance with the provisions of 44 U.S.C. Chapter 21, 41 C.F.R. 101-11.411, 41 C.F.R. 105-61, and such other rules or regulations as may be prescribed by the Administrator of General Services or the Archivist of the United States. Unless specified and justified above, there are no restrictions on the use of these records other than the general and specific record group restrictions on the use of records in the National Archives of the United States that have been published in 41 C.F.R. 105-61.53 or in the Guide to the National Archives of the United States. The Archivist of the United States may destroy, donate, or otherwise dispose of any containers, duplicate records, unused forms, blank stationery, nonarchival printed or processed material, or other nonrecord material in any manner authorized by law or regulation without further consent of this agency. I certify that any restrictions specified by this agency on the use of these records are in conformance with the requirements of 5 U.S.C. 552 and that I am authorized by the head of this agency to act for the agency on matters pertaining to the disposition of agency records.

INSTRUCTIONS

This form may be initiated by either the transferring agency or a Federal records center.

INITIATED BY AGENCY:

Agency completes items 1 through 6 (see specific instructions below). Item 6 must be signed and dated. Send original and 4 copies to the appropriate address in item 2 sixty days before planned date of transfer.

INITIATED BY FEDERAL RECORDS CENTER:

Federal records center completes items 1, 2, 3A-F, if known, 4B, 5A and B, D and E and sends original and 3 copies to transferring agency records officer.

Agency completes/corrects items 3, 5A, 5C-F, and 6. Item 6 must be signed and dated. Agency sends original and 3 copies to the address indicated in item 2 sixty days before planned date of transfer.

ITEM 1, TYPE OF ACTION:

If 1B is checked, a reference to the records control schedule number or NARS appraisal job number must be included in 5E. (Item 1B may be checked for unscheduled records if an appropriate appraisal job is cited to reflect an accretion according to prior evaluation of the series).

ITEM 2, TO:

When 1B is checked, requests are sent to the National Archives (NNA) unless the records control schedule or appraisal job specifies a regional archives or Presidential library.

When 2C is checked, include in that block address (number and street, city, State, and zip code) of the regional archives branch being offered the records.

ITEM 3, UNIT THAT CREATED THE RECORDS:

Fully identify the agency, subdivision, and unit that created or originated the records (not the agency records office). If this is not possible, or a successor unit or agency is transferring the records, then explain under Agency Remarks, item 5F.

ITEM 4, CURRENT LOCATION OF RECORDS:

Identify the agency location or the particular records center in which the records are located and provide FRC accession number. The stack location in the center may also be provided.

ITEM 5, RECORDS DATA:

5A. Describe the records. If the records are in a Federal records center, attach SF 135. Arrangement statement must be provided and enough description to substantiate responses in items 5B (with volume for each item) 5C and 5D.

5B. Estimated volume may be indicated in either cubic feet or cubic meters.

5C. Privacy Act notices must be cited for records subject to the Privacy Act (5 U.S.C. 552a) and should be attached.

5D. Specific restrictions must be fully justified and may not violate the Freedom of Information Act (5 U.S.C. 552).

5E. If the records have previously been scheduled in a records control schedule, the schedule and item number must be cited, and the schedule itself may be attached. If the records are not scheduled but a part of the series has been appraised as permanent in the past and transferred to a NARS depository, then cite the appraisal job number as authority and treat as a scheduled offer.

ITEM 6, STATEMENT OF AGENCY REPRESENTATIVE:

Signature and title of agency records officer is placed here and normally is not the name or office given in item 3.

ITEM 7, ACTION TAKEN BY NARS:

NARS will indicate approval and provide shipping or delivery instructions, or disapproval and recommend appropriate disposition of the records. NARS will indicate quantity of offer approved, disapproved and for which action is deferred.

If NARS approves the transfer, the Office of the National Archives sends SF 258 to the agency (or to the Federal records center if the records are in a center) with a transfer date and shipping or delivery.

If NARS disapproves the transfer, the Records Disposition Division returns SF 258 to the agency with suggestions for disposition of the records.

ITEM 8, RECORDS RECEIVED:

After receipt of records by a NARS depository NARS will sign and return one copy of SF 258 to the agency.
