Subject : Copies of POW/MIA records
To : NNT
NN

This is a request for guidance on the handling of materials that we have received or have been offered relating to POW/MIA matters. There are two groups of materials with which we are concerned.

Late in 1993, we received a SF 258 for State Department materials that were subsequently delivered to NNTA-S. What NNTA-S received was 40 cubic feet of electrostatic copies that appear to have been thrown into boxes with little attention to arrangement. No listing of any kind accompanied the copies. Now, Dick Wood has received a call from a Mr. Sprague of the Department of Defense, who says he has another 10 linear feet of copies that were referred to him by the State Department for declassification review. Mr. Sprague also says that State requested that, when the review was complete, the copies be sent to NSC (apparently because the copies were made for the Kerry Committee). However, when he contacted NSC, he was told to contact NNTA-S.

The other materials consist of copies of reports prepared by the POW/MIA Commission of which Acting N is a member. We have received a SF 258 and copies of commission reports from the Department of the Army from the period when Army provided administrative support to the commission. We have also received one four-page report (copy) with a SF 258 and several additional copies of reports from the Office of the Secretary of Defense, which took over administrative duties from Army. We have not received a SF 258 for the last group of copies.

Records officers at the Office of the Secretary of Defense have expressed concern regarding the transfer of these materials as records inasmuch as the originals are scheduled for transfer after 25 years. The same would be true of the State Department copies, after 30 years.

Are we to continue to accept these transfers as records or should the copies be treated as reference copies only? If the latter, should we cancel the SF 258 for the set we have already received from Army? Can we or should we accept the material Mr. Sprague has without a separate SF 258?

GMD/Record Type: Textual Records

RecordType/Genre: Report

Incl Start Date: 12/01/1994
|a CODE

Incl End Date: 02/28/1995
|a CODE

Scope & Content: The records consist of the February 1995 report of DFI International to the Defense Prisoner of War/Missing in Action Office (DPMO). This report describes the findings of the year-long project, POW/MIA Archive Research in Ukraine, Lithuania, Latvia, Estonia, and German. Nine months after the US-Russian Joint Commission on POW/MIAs was created, the Archive Project was formed in the realization that the Russian side of the Commission did not provide full access to Soviet Archives. The purpose of the Archive Project was to determine if information concerning American citizens and American POW/MIAs was stored in Soviet Era Archives located in the former republics of the Soviet Union. Additionally, the archives of Germany were searched to determine if American POW/MIAs had been relocated to the GDR during the Korean War. The report describes the resultant information gleaned from an extensive research of

archives in Ukraine, Lithuania, Latvia, Estonia, and Germany that was intended to identify records related to Korean, Cold War, and Vietnam POW/MIA incidents.

Following the executive summary, the report is organized into six volumes organized by country. Each volume has an accompanying appendix comprised of copies of archival records taken from each country.
